Kansas City Plant.—This plant is located in Argentine, a suburb of Kansas City, and consists of smelting works, with eight blast furnaces, with a capacity of 250 tons per day, for the smelting of ore, and refining works, suited for the refining of lead bullion (the product of lead and silver ore smelting). There are ten calcining furnaces, and extensive facilities for the storage and handling of ores and material. The refining works have a refining capacity of 4,000 tons of lead silver bullion per month. The smelting works and refining works at Argentine own about 20 acres of land, on which the works are built, and, in addition, own in the city of Argentine 20 lots, and adjoining the city of Argentine 2½ acres of land, on which are located 32 residences, occupied by the employees of the works. A copper plant was added during 1891, which is now in operation, and which will produce from argentiferous copper mattes 4,000 tons of refined copper per annum.

The Mexican Ore Company's Plants and Property.—This company owns by lease and contract three valuable mining claims in Mexico, which produce 4,500 tons of ore per month. The company owns, further, ore crushing and sampling works at El Paso, Tex., Pachuco, Mex., and Laredo, Tex. The company owns property in the city of Mexico and at Escalon, Mexico, at which latter point large storage buildings, office and warehouses have been erected for the handling of the company's shipping business and merchandise business at that point. The company, in addition, has local stations at five different points in the Republic of Mexico, where laboratories are provided, and where means are at hand for the sampling and purchasing of ores.

El Paso Smelting Works.—The property of these works consists of 1,300 acres of land, located within 2½ miles of the city of El Paso, Tex. In addition to the smelting works, this ground contains tenement houses, which are rented to employees. The works consist of eight blast furnaces for the smelting of ores, of roasting furnaces, and all the necessary machinery and appliances for the successful treatment of ore, and the capacity of these works amounts to 12,000 tons of ore per month. These works are also the owners of three mining claims in New Mexico which produce ores containing lead, silver, and iron.

Leadville Plant.—This property consists of two concerns, originally separate enterprises, namely: 1st. Ore crushing and sampling works, adjoining the city of Leadville, a brick building owned by the company, and the sampling works, which have a capacity of crushing and sampling 800 tons of ore per day, and track and storage facilities, the latter sufficient to hold about 8,000 tons of ore. The real estate of the company amounts to about 60 acres. 2d. Smelting works located on California Creek, about two miles west of Leadville. The company owns 100 acres of land and storage facilities, and the works have eight blast furnaces, with an aggregate capacity of 450 tons per day. The roasting facilities were enlarged during the past year and consist now of six reverberatory roasting furnaces, a battery of 12 kilns, and 5 revolving Bruckner furnaces.

Financial Statement.—Capital stock, \$3,500,000 (par value, \$25 per share), of which \$2,500,000 fully paid and listed on the New York Stock Exchange. Bonds outstanding, \$1,000,000. The operations of the company are very extensive, the annual product reaching about \$20,000,000.

The 33,750 shares of the stock of the Arkansas Valley Smelting Company, which now stand in the name of this company, will be placed in trust with the Farmers' Loan and Trust Company.

This company has paid continuously 10 p. c. dividends; in 1891, a stock dividend of 12½ p. c. was also paid.

Annual meeting, 1st Mon. in Jan. at New York; books do not close before annual meeting. Dividends payable in Mar. at New York. Registrar of stock, Farmers' Loan & Trust Co., New York. Interest payable at 20 Nassau St., New York. Fiscal year closes Jan. 1.

Detroit Gas Co.—Organized in Michigan, Nov. 21, 1892, to manufacture and sell gas for lighting or fuel purposes in Detroit and Monroe, Mich., and the other cities, towns, and villages through which its pipes may pass from time to time in conducting gas to said city of Detroit. On Feb. 20, 1893, the Co. purchased the Detroit Gas Light Co., which up to that date had been supplying the eastern portion of Detroit with illuminating gas; the Mutual Gas Co., which up to said date had supplied the western portion of Detroit with illuminating gas (these being the only companies manufacturing and supplying illuminating gas in Detroit), and the Michigan Gas Co., which since Jan. 1, 1890, had been supplying natural gas for fuel and lighting purposes in Detroit and Monroe.

At the time of this purchase the capital stock of the Detroit Gas Light Co. issued was \$1,000,000; capital stock of Mutual G. Co. issued was \$1,000,000; capital stock of Michigan G. Co. issued was \$2,500,000. The Detroit G. L. Co. has no bonded debt, but the conveyance of its property to the Detroit Gas Co. was subject to a purchase money mortgage of \$1,000,000, dated Feb. 1, 1893, to secure payment of \$500,000, with interest at 6 p. c., on or before Mar. 1, 1894, and \$500,000, with interest at 6 p. c., on or before Mar. 1, 1895. The Mutual G. Co. had a bonded debt of \$500,000, and its property was conveyed to Detroit Gas Co. subject thereto and to \$500,000 6 p. c. purchase money mtge., dated Dec. 1, 1892, payable within one year from date. The Michigan G. Co. had a bonded debt of \$1,000,000, and its property was conveyed to the Detroit Gas Co. subject thereto. Total amount of capital stock of all three companies was \$4,500,000; total amount of mortgage debt, \$3,000,000. None of the said companies had any floating debt. The Detroit Gas Co. assumed the payment of the bonded debts of the several companies and made provision for payment thereof by means of its \$4,500,000 consol. 1st mtge. bonds. Of these bonds \$1,000,000 (Nos. 1 to 1,000) are set apart to retire the bonds of the Mich. G. Co.; \$500,000 (Nos. 1,000 to 1,500) to retire the bonds of the Mut. G. Co.; \$500,000 (Nos. 1,501 to 2,000), to paying off the purchase money mtge. of the Mut. G. Co.; \$1,000,000 (Nos. 2,001 to 3,000), to pay off the purchase money mtge. of Det. G. L. Co.; and \$500,000 (Nos. 4,001 to 4,500) for the purpose of constructing or acquiring plant to manufacture or obtain and supply fuel gas for use in Detroit.

EARNINGS.—The earnings of the respective companies whose plant, franchises, and property were acquired by the Detroit Gas Company for the years 1891 and 1892, were as follows:

Edison Electric Illuminating Co. of Brooklyn.—This company controls, by license from the parent Edison Co., the exclusive right for the city of Brooklyn to use the Edison system for the production and distribution of electric light and power, as also for all patents controlled by the parent company for isolated business.

The Edison system of conductors, covered by many patents, is wholly underground, thus securing complete immunity from the many troubles incident to overhead systems of distribution.

The company commenced operations Sept. 1, 1889, with about 1,600 16-candle power lamps connected, and during the four months remaining of that year connected a total of 6,600 lamps. During the year 1890 the equivalent in use of current of 18,570 lamps was connected; and net profit made for the twelve months of \$24,883.30, and in 1891 the equivalent of 16,209 lamps was added, making a total equivalent of 41,879 lamps, showing net profit for the year \$59,332.43. The total lamp equivalent connected Mar. 1, 1892, was 44,709; Dec. 31, 1892, 75,450; Dec. 31, 1893, 100,533.

Income Account. Dec. 31, 1893.—Gross earnings, \$925,434. Expenses and taxes, \$178,861. Net earnings from current, \$146,573; receipts from interest, etc., \$23,485—total income, \$169,058. Payments: Interest on bonds, \$25,000; dividends (April 15, \$18,750; July 15, \$25,001; Oct. 15, \$26,463; payable Jan. 15, 1894, \$28,062), \$98,276; taxes, \$10,122; carried to reserve fund, \$25,000; doubtful accounts written off, \$3,000—\$161,398. Balance, \$7,660; balance forward, \$54,296—total, \$63,956.

The percentage of gain in results, 1893, compared with 1892, shows increase in gross earnings, 40 p. c.; increase in expenses, 31 p. c.; increase in net earnings, 49 p. c.

The length of the double main track from the depot to end of right of way, where it joins and connects with the right of way of the Detroit Union RR. Depot and Station Co., is 1.4 miles, with 1.27 miles of sidings, all laid with 70-lb. steel rail.

This company's property is leased for 999 years from Dec. 10, 1889, to the Wabash, Flint and Pere Marquette, Detroit Lansing and Northern and Canadian Pacific RR. Cos. By the terms of the lease the lessees agree to pay as rental to the lessor a sum per annum equal to 5 p. c. on the total cost of the work and the current expenses. The earn-

ings of the company, therefore, which are applicable to interest and dividends, amount to 5 p. c. on the total cost of the work. Payments made in monthly instalments.

Financial Statement, June 15, 1894.—Capital stock (par \$100), \$1,000,000; funded debt (1st mtge, 4½ p. c. 50-yr. \$1,000 gold coupon bonds, dated Jan. 1, 1891, interest Jan. & July at the office of the trustee, Central Trust Co., New York, N. Y.), \$1,000,000—total stock and bonds, \$2,000,000. Bonds may be registered. Registrar and Transfer Agent, Central Trust Co., New York, N. Y.

The bonds are secured by mtge. on all the property of the company, its station grounds, buildings, railroad tracks and premises, rights of way, franchises and the revenues thereof, including also the lease of the property to the companies aforementioned and all the rights, revenues and incomes to be derived therefrom.

Hackensack Water Co. (The), Reorganized.—Organized under laws of New Jersey; reorganized after foreclosure in 1880-1881. The company takes its supply from the Hackensack River, which has an average daily flow at the company's pumping station of 76,590,000 gallons. The main pumping station of the company is located at New Milford, Bergen Co., N. J. Its main reservoirs are on the heights of Weehawken, opposite 42d St., New York, where its high-service pumping station is also situated. It also has a reservoir near Hackensack for the supply of that town. It furnishes the present supply of Hoboken, West Hoboken, Town of Union, Weehawken, North Bergen, Hackensack, Englewood, Ridgefield, Rutherford, Bolling Springs, Carlstadt, and the district between its pumping station at New Milford and Hoboken. Also the heights back of Englewood, for which they have an independent pumping plant. Its first main to Hoboken (20 in.) was laid in 1882, since which year it has been supplying that city. It had previously supplied Hackensack. The second main (24 in.) was laid in 1887.

Helena Consolidated Water Co.—Incorporated under laws of Montana. The company has options on the Helena Water Co., the New or West Side Water Co., and the Eureka Drain Ditch.

The Helena Water Co. was organized in 1887. It became the successor of a franchise given by the city of Helena to one George F. Woolston. Under this franchise it proceeded to construct about 13.5 miles of main, a reservoir of about 2,000,000 gallons capacity, and a pumping plant. It proposed to furnish water from a well constructed by it in the valley near Helena, which would supply about 400,000 gallons of water daily. The Helena Co. issued and negotiated \$240,000 of its 1st mtg. bonds upon the plant above described. Prior to the granting of the franchise to Woolston franchises had already been granted to the Helena Water Co., of Helena, Mont., to the New or West Side Water Co., and to W. A. Chessman, the owner of what was known as the Eureka Drain Ditch. All of these last mentioned parties had established water rights and plants within the city and were furnishing the city and inhabitants therefrom. The promoters of the Consolidated Co. undertook to consolidate all of these franchises and plants into one company, and looking to that end secured options upon all of them. It was intended to become the actual purchaser of all of them and to purchase and retire the above-mentioned \$240,000 bonds so that the Consolidated Co. might issue its own bonds and secure them by a 1st mtg. upon the Consolidated plant. Negotiations with the owners of the \$240,000 bonds were opened, but some of the holders thereof absolutely refused to sell their bonds, so that it being impossible for the promoters of the Consolidated Co. to purchase the plant and property of the Helena Co. free of incumbrance, they could not give a 1st mtg. upon all the property to secure the new bonds. They therefore concluded to purchase all of the plants mentioned, except that of the Helena Co., and issue bonds secured by a 1st mtg. upon all of the property thus purchased. For the purpose of uniting all of the plants as one enterprise, thus avoiding additional expense and competition, the Consolidated Co. became the purchaser of all of the stock of the Helena Co., save sufficient to continue its corporate existence. The mtg. and bonds given by the Helena Co. were left intact, but

its stock thus purchased by the Consolidated Co. was pledged with the trustees as additional security for the payment of the bonds of the Consolidated Co. The Consolidated Co. then took a lease upon the plant of the Helena Co., so as to enable it to operate the plants conjointly. It was ascertained that the consumption of water by the customers of the Helena Co. was more than twice the supply. The Helena Co. prior to the transaction above noted were compelled to purchase water from time to time in order to supply the demands of its customers, and in order to place its water in its reservoir was compelled to elevate it from their pumping station to a height of about 464 feet. The Consolidated Co. found this to be extremely expensive and impracticable, therefore it proceeded to construct force mains a distance of some 8 or 10 miles to enable it to deliver its water in its reservoir by gravity at its own expense and as an addition to its plant. This gravity system was completed and put into operation about Jan. 1, 1891, since which time the pumping plant of the Helena Co. has not been used.

Many of the mains of the Helena Co. were duplicated by the other companies doing business here before the consolidation: after the consolidation the Consolidated Co. duplicated many other of the mains of the Helena Co., so that at present the Consolidated Co. is only using the reservoir of the Helena Co., and about 8 miles of its mains. All of the property of the Helena Co. which is now used by the Consolidated Co. can be duplicated at a cost of less than \$100,000; in fact it is estimated that the entire plant and system of the Helena Co. could be duplicated for \$150,000. The plant of the Helena Co. as an independent plant could not be operated successfully under the present circumstances, because of the scarcity of water supply belonging to it and the excessive cost of furnishing the same. The Consolidated Co. is the owner of water supply ample to furnish the city and its inhabitants with all water required, and there are scarcely any other water rights or sources of supply which could be utilized by anyone else except by bringing the same from a very long distance at a very large expense. It also has a contract with the city for furnishing water for fire, sewerage, and other municipal purposes. It will be noted from the above statements that the ownership of the plants of the Helena Co. and the Consolidated Co. have always been kept separate and distinct; that the mtgs. by each company have also been kept intact upon the property owned by each; that the Helena Co. has no right in or claim to or lien upon any of the property of the Consolidated Co., neither does its mtg. cover any such property. Before determining to duplicate that part of the Helena Co.'s plant now used by the Consolidated Co. the Consolidated Co. proposed to pay interest on the \$240,000 bonds of the Helena Co. now outstanding at the rate of 4 p. c. per annum, payable semi-annually in accordance with the terms and conditions of the bonds, but it cannot continue to pay interest thereon at the rate of 6 p. c. It is therefore proposed to scale the interest of the Helena Co. down to 4 p. c. and waive the sinking fund, and if this agreement be signed by a majority of the holders of the bonds the Consolidated Co. will agree to pay such interest.

Financial Statement.—Capital stock, not reported; funded debt, \$300,000 1st mtge. 6 p. c. 20-yr. bonds, due July 1, 1909, interest Jan. 1 & July 1, at the office of the trustee, the Boston Safe Deposit and Trust Company, Boston, Mass. The authorized issue of bonds is \$100,000. Amount issued, \$610,000, of which the trustee holds \$310,000, to be issued only for betterments to the plant.

The company owns the entire capital stock of the Helena Water Co., of Salem, O., which stock has also been deposited with the trustee as security for the 1st mtge. bonds.

A contract has been made with the city of Helena to supply the fire hydrants at an annual rental of \$20,000.

Metropolitan Telephone and Telegraph Co. (The).—Organized May, 1880, under laws of New York, with a capital of \$1,000,000. The business of the company is that of supplying telephones and telephone service within the city of New York and its suburbs. This business is done under a perpetual license from the American Bell Telephone Co., covering all the territory within a radius of 33 miles from the New York City Hall in all directions. The company owns land and buildings in New York which are valued at \$1,500,000. It also owns lines and apparatus necessary for the conduct of its business.

Financial Statement.—Capital stock, \$3,300,000. *Funded debt.* \$2,000,000 1st mtg. 5 p. c. 30-yr. \$1,000 sinking fund gold bonds, due May 1, 1918, int. M. & N. 1, at the company's office, New York; registered certificates are transferred at the Treasurer's office. Trustee of bonds, the Mercantile Trust Co., New York, N. Y.

The bonds were originally issued as coupon bonds, with a form of indorsement for the registration, at the office of the Mercantile Trust Co., of the principal only; but fifty bonds have been exchanged for registered certificates. The bonds are secured by a mortgage upon the company's property.

The mtg. provides for a sinking fund amounting to \$20,000 a year. The following is the clause relating thereto:

"It is further covenanted and agreed by the Telephone Co. that said company shall create a sinking fund for the purchase or payment of the bonds hereby secured, by setting aside for and paying to the trustee semi-annually, on the first days of Jan. and July, in each and every year, commencing Jan. 1, 1890, a sum of money equal in amount to one-half of one per centum of the said two millions of dollars, being at the rate of one per centum per annum; sixty days before the date when any such payment shall be due, the trustee shall invite proposals for sale to the trustee of bonds secured by this mtg.; and if the trustee can, with the amount or some of it so set aside for and paid into the sinking fund, and the accumulations thereof, purchase any of such bonds at a price satisfactory to the Telephone Co., and at a rate not exceeding par and ten per centum premium, the trustee shall do so. But if the trustee cannot purchase such bonds at a price satisfactory to the Telephone Co. and at a rate not exceeding par and ten per centum premium, the trustee shall, if the Telephone Co. direct it so to do, invest the then amount of the fund created by the sums so set aside and paid in, and the accumulations thereof, in such other securities or property as shall be satisfactory to the Telephone Co. Any of the bonds secured by this mortgage, and which shall be so purchased, with any of the moneys so set aside for and paid into the sinking fund, and the accumulations thereof, shall be cancelled; and any other securities or property so purchased, with any of the moneys so set aside for and paid into the sinking fund, or with the accumulations thereof, shall come under and be subject to the lien of this mortgage, and shall by the trustee be held for and applied to the purposes of the trust hereby created."

Dividends.—Dividends were paid regularly from July, 1882, to July, 1890; none since.

Annual meeting, 1st Tuesday in May, at 18 Cortlandt St., New York. Books close 10 days in advance, and same length of time in advance of dividend payments. No transfer agent or registrar of stock. Fiscal year closes Dec. 31.

Mexican Telegraph Company (The).—Organized in 1878 under the laws of the State of New York. *Route.*—Submarine cable from Galveston, Tex., to Vera Cruz, Mex., touching at Tampico, Mex., consisting of 738 m. of heavy type of cable. Land line between the City of Mexico and Vera Cruz, of iron poles—2 wires—length, 267 miles.

The company has made the following contracts: With the Western Union Telegraph Co. for the exclusive exchange of all telegrams to and from points reached by the cables of this company, for 25 years. The W. U. T. Co. works a direct wire between New York and Galveston mainly for this company's traffic, thereby insuring the transmission of messages between London and the City of Mexico, via New York, within 30 minutes, the W. U. Co. being in exclusive connection with the Atlantic cable.

A contract with the Central & South American Telegraph Co. for the exclusive exchange of all telegrams for 40 years. The C. & S. A. T. Line, and its exclusive connections, consists of 8,974 miles of cable and over 30,000 miles of land lines in Mexico, and Central and South America.

A contract with the Mexican Government for the exclusive exchange of all foreign telegrams to and from lines which the Mexican Government may possess or administer, under whatever title, south of a line 156 miles south of the United States boundary line. The Mexican Gov. owns and operates over 21,000 miles of wire.

SYNOPSIS OF EXCLUSIVE CONTRACTS WITH MEXICO AND OTHER GOVERNMENTS.

All the Government contracts under which this company is worked have been ratified and confirmed by the respective Governments. Vera Cruz (Mexico) is the point of exclusive connection with the Mexican Telegraph Company, the Mexican Government having officially authorized the Mexican Telegraph Company to assign the necessary rights to this company.

Mexico (contract dated Oct. 28, 1879).—During the term of 50 years the Gov. of Mexico will deliver, and cause to be delivered, exclusively to the Mexican Cable Co. in Vera Cruz, Tampico, or any other point of connection within the Republic, all the telegraphic messages for transmission to foreign countries sent over the 25,000 m. of wires belonging to the Gov., or those that for any cause whatever may be under its control and immediate administration, proceeding from any point within the Republic situated 250 miles south of the boundary line between Mexico and the United States. During same term, the Gov. of Mexico shall not give to any other company the above named messages, nor concessions like those granted by this contract to the Mexican Cable Co.

The Government of the Republic stipulates and agrees that the Federal and State laws that might be in contradiction with the concessions stipulated in this present agreement do not affect the validity of this contract.

During the term fixed in the decree of 28th Oct., 1879, all messages received by the telegraphic lines which the Mexican Gov. may possess or administer, under whatever title, addressed from any points outside the zone of 250 miles (156 m.) south of the Mexican frontier to any point in the United States or to any other foreign country, and *vice versa*, shall be delivered exclusively to the company at the points of connection, to be transmitted by way of Vera Cruz and Tampico.

Michigan-Peninsular Car Co.—Incorp. Aug. 3, 1892, under laws of Illinois (commenced business Sept. 1) for the purpose of taking over and carrying on the business of all the following companies: The Michigan Car Co., the Peninsular Car Co., the Detroit Car Wheel Co., the Michigan Forge and Iron Co., and the Detroit Pipe and Foundry Co., all of Detroit, Mich.

Extract from the company's prospectus of July 11, 1892:

"The company acquires, free of all incumbrances, the property of the five companies (mentioned above), including the real estate, hereditaments, premises, the fixed plant, machinery, and also the good will. The business will continue under the existing staff management, the officers and directors of the old companies becoming officers and directors of the new company.

"The business of these several companies consists in the manufacture and sale of freight cars of every description, car wheels, castings, bar iron, and all the supplies required in the construction of railroad equipment. The Michigan Car Co. and the Peninsular Car Co. are the largest manufacturers of freight cars in the world, and have been active competitors. The capacity of the combined companies approaches one hundred cars per day, and this can be increased each year at nominal cost, the real estate owned by the companies being sufficient for a larger plant. The business of the Michigan Car Co. was established in 1864, and that of the Peninsular Car Company in 1873, and both companies have since been in successful operation. Their completeness and efficiency enable them to produce directly from the crude materials the numerous forms and subsidiary articles which are usually supplied by special manufacturers, and to thus effect large economies.

"The property covers 88½ acres of ground, of which 78½ acres are owned by the company, and five acres leased in perpetuity, wholly located within the city of Detroit. Eight acres thereof are on the Detroit River, having a system of piers and extensive wharfage. Seven railroads touch the properties. The buildings, 73 in number, are of the most substantial character, especially constructed for the requirements of the business. The company employs about 5,000 men. The working plant, real estate, machinery, and appliances have been valued at \$10,589,757.

Earnings for year ending Aug. 31, 1893, \$866,691. Paid interest on 1st mtge. bonds, \$100,000; dividends on preferred stock (8 p. c.), \$400,000—total, \$500,000. Balance, applicable to common stock (more than 18 p. c.), \$366,691. Deduct 8 p. c. dividends on common stock, \$160,000. Balance carried to surplus fund, \$206,691.

National Lined Oil Co.—Incorp. in the year 1887 under the laws of Illinois. The different properties now owned by this company were brought together in an association called the National Lined Oil Trust. During 1890 the trust was dissolved and the properties were acquired by purchase by the National Lined Oil Co. in April, 1890. These properties consist of real estate, machinery, patents, etc., of 52 oil works located in 42 cities of the United States. For detailed statement of the several properties see POOR'S HAND-BOOK for 1892-3.

All the properties of the company are free from incumbrance, excepting two, as follows: The Grove Lined Oil Works, Philadelphia, Pa., is under mortgage for \$35,000; the Leonard & Cummings Lined Oil Works, Philadelphia, is under mortgage for \$25,000. These liens were on the property when acquired, and cannot be lifted before maturity.

New York and Ontario Land Co.—Organized Dec. 19, 1869, under laws of Pennsylvania, for the purpose of acquiring anthracite coal lands in the Lackawanna Valley, Pennsylvania, and contiguous to the line of the Scranton branch of the N. Y., O. & W. RR.

The company has purchased and owns in fee 855 acres of coal land situated at the terminus above named (Scranton Branch), and an immediate and continuous revenue has been secured to the company by the lease under date of Jan. 4, 1890, of the lands on royalty to the N. Y. & Scranton Coal Co., which agrees to work the lands and take out all the coal, paying therefor a royalty of 30 cents per ton. The lease contains a covenant that the lessee shall pay all taxes upon the coal and the portion of the surface occupied by the lessee, and shall mine and pay for a minimum tonnage of 30 cents a ton on 120,000 tons the first year, 200,000 tons the second year, and not less than 300,000 tons thereafter. This lease is of the nature of a ground rent and is a charge upon the improvements made by the lessee, all of which will be forfeited by the lessee in case of failure to perform the lease.

The minimum net income guaranteed to the Land Co. under the lease as above is as follows: 1st year, 120,000 tons at 30 cents, \$36,000; 2d year, 200,000 tons at 30 cents, \$60,000; 3d year and thereafter, 300,000 tons at 30 cents, \$90,000; unless mining is prevented by faults, fires, strikes, etc., but in any case the lessee to pay an amount equal to interest on bonds. In the latter part of 1891, with the consent of the Land Co., a portion of the lands were sublet to the Delaware and Hudson Canal Co., which guarantees a minimum of about 80,000 tons at 50 cents, and another portion to the Hillsdale Coal and Iron Co., which guarantees a minimum of 60,000 tons at 30 cents; both these guarantees are applicable on that of the original lessee. From Dec. 31, 1892, to Feb. 1, 1894, there were mined 96,271 tons, of which the Delaware and Hudson Canal Co. took out 9,737 tons, the Hillsdale Coal and Iron Co. 44,072 tons, and the N. Y. and Scranton Coal Co., 42,461.

Income Account from Dec. 31, 1892, to Feb. 1, 1894.—**Receipts:** Royalties, \$43,914; rental of houses, \$299; timber sales, \$5,238; interest, \$1,690—total, \$51,191. **Expenditures:** Interest on bonds, \$39,000; taxes, \$468; general, \$1,764—total, \$41,232. Balance, \$9,959; add credit for over payment of taxes in Pennsylvania, \$1,742; balance forward from Jan. 1, 1893, \$12,362—total, profit and loss, Feb. 1, 1894, \$24,063.

General Balance Sheet, Feb. 1, 1894.—Capital stock (par, \$100), \$600,000; funded debt (see below), \$581,500; suspense account (lots sold but not released from mtg.), \$665; profit and loss, \$24,063—total, \$1,206,228. **Contra:** Cost of property, \$1,183,517; sinking fund, \$116,510; investment account, \$6,220; State of Pennsylvania for taxes paid in error, \$1,631; cash, \$9,444—total, \$1,206,228.

Funded debt consists of \$581,500 1st mtg. 6 p. c. 20-yr. \$500 gold bonds, due Feb. 1, 1910, int. payable F. & A. 1 at the office of the trustees of bonds, the Central Trust Co., New York.

A sinking fund for the retirement of the bonds at maturity or by previous purchase accrues after 1892. The mtg. provides that thereafter six cents per ton of coal mined shall be paid over by the company to the trustees of the mtg., and by them invested in the purchase of the bonds when the same can be had at 110 p. c. or less. The right is reserved to the company to pay off any of its bonds at 110 p. c. on any regular coupon day, on or after Feb. 1, 1892, on prior notice of six months. On Feb. 1, 1894, \$16,163 had been paid into the sinking fund, with which the Trustee purchased and cancelled 18,500 bonds at a cost of \$16,047. The company paid its first dividend Mar. 1, 1894.

Annual meeting, last Thurs. in Feb., at 56 Beaver St., New York; books close 2 weeks in advance. Dividends are paid (no stated time) at the company's office. Books close 14 days in advance. Registrar of stock, Central Trust Co., New York. Fiscal year closes Feb. 1.

Directors (elected Feb. 23, 1894).—Richard Irvin, Albert S. Roe, Samuel Elliott, Francis R. Culbert, and Richard D. Rickard. **OFFICERS:** Richard Irvin, *Pres.*; John Fleming, *Sec.*; John Fleming, *Treas.* & *Trans. Agt.* **GENERAL OFFICE,** Peckville, Pa.; New York Office, 56 Beaver Street.

New York and Perry Coal and Iron Co. (The).—Incorp. in 1885 under the laws of New York. For description of property, etc., see POOR'S HAND-BOOK for 1892-93. The company's capital consisted of \$3,000,000 stock and \$600,000 1st mtg. 6 p. c. 30-yr. bonds, due May 1, 1920, interest May and Nov. Interest due Nov., 1892, on these bonds, was defaulted in, the property was sold at public sale in Sept., 1893, and was purchased on behalf of the bondholders. The company is being reorganized under the terms of a plan which provides for the issue of \$1,600,000 common stock, \$700,000 4 p. c. preferred non-cumulative stock and \$700,000 1st mtg. 5 p. c. 30-yr. bonds, interest payable in New York, on Jan. 1 & July 1. Interest on these bonds may, should the committee so decide, bear interest for the 1st two years in proportion to the earnings of the company, but thereafter bear 5 p. c. interest only.

The property is situated at Shawnee, Perry Co., O., and comprises about 720 acres of coal and iron lands in the Hooking Valley coal and iron district. There are 28 large and 6 small ovens completed and 28 large and 8 small additional ovens are projected; also two blast furnaces. **Bondholders' Committee in Possession:** Aymar Embury, Wm. L. Findley, William R. Willcox and Wm. E. Davies, 41 Pine St., New York, N. Y.

New York Biscuit Co.—Incorp. under laws of Illinois, and leases property in New York City, Chicago, Cambridgeport (Boston), Des Moines, Denver, etc.—thirteen cities in all.

Earnings for the year 1893, \$578,291. Fixed charges: Bond interest, \$39,977; other interest, \$32,404—total, \$166,381. Net earnings, \$411,910; 4½ p. c. on capital.

Financial Statement, Dec. 31, 1893.—Capital stock, \$9,000,000; funded debt (1st mtg. 6 p. c. 30-yr. \$1,000 gold sinking fund bonds—not subject to call—due Mar. 1, 1911, int. Mar. & Sept. at the office of Kountze Bros., New York), \$1,391,000; bills payable, \$985,000; accounts payable, \$113,645; surplus (undivided profits), \$617,007—total, \$12,106,652. **Contra:** Real estate, buildings, patents, and machinery, \$7,740,322; additions and improvements (\$331,104; added in 1893, \$146,872), \$467,976; construction account (\$1,723,008; paid out to complete N. Y. factory and stables in 1893, \$63,010; to complete Chicago factory, 1893, \$239,500), \$2,025,524; horses, wagons and office fixtures, \$190,600; merchandise, \$231,340; raw materials, \$475,782; accounts and bills receivable, \$789,267; cash, \$179,961—total, \$12,106,652. It is stated that the property covered by the mtg. will be worth \$13,000,000 when the buildings under construction will be completed. Trustee of bonds, Central Trust Co., New York, N. Y. Sinking fund, \$50,000 per annum. Dividends (payable in Chicago, Ill.) were paid from Oct. 1, 1890, to Jan. 1, 1892, both inclusive, at the rate of 6 p. c. per annum; dividends of 1 p. c. each were paid in April, July and Oct., 1892.

Annual meeting Feb. 14, at Chicago; books close 6 days in advance. Stock owned 6 days is entitled to vote. Books close 6 days in advance of dividend payments. Transfer agent at company's office. Registrar of stock, Merchants' Loan & Trust Co., Chicago. Fiscal year closes Feb. 1.

North American Co. (The).—Incorp. June 14, 1890, under the laws of New Jersey, to acquire the assets and property of the Oregon & Transcontinental Co., and also to engage in railroad and general financing and promote street railway and electric light and power enterprises. (See MANUAL for 1893, page 1160.) The stock was issued in exchange, share for share, for the stock of the O. & T. Co., and on Aug. 20, 1890, the company assumed control of the O. & T. property.

MILWAUKEE STREET RAILWAY CO.—Shortly after its organization the North American Co. acquired the street railway and illuminating systems of Milwaukee, and for the purpose of unifying them the Milwaukee St. Ry. Co. of New Jersey was organized with a capital stock of \$5,000,000. Exclusive licenses and patent privileges were acquired from the Edison companies for the operation of electric railways and the supplying of electric light and power for Milwaukee and the adjacent districts, and also city ordinances granting franchises covering all the important streets and points in the city. The work of substituting electric power for animal traction on the railways was completed in May, 1893. The earnings of the company in 1893 amounted to \$403,625, against \$405,496 in 1892. The bonds of this company (see Treasurer's Statement below) are secured by a lien upon the entire street railway system of Milwaukee, as well as upon the electric lighting plants and other property belonging to the company. The consols are 5 p. c. 30-yr. gold bonds, due Dec. 1, 1920, int. J. & D. Trustee, Central Trust Co., New York. The authorized amount is \$10,000,000, of which \$1,000,000 was reserved for retirement of Mil. City RR. 1sts of Dec. 1, 1905; \$500,000 for West Side R.R. 1sts of July 1, 1909, and \$1,500,000 for improvements. The entire issue of 2d consols, is held by the No. Amer. Co. The principal holders of the bonds have agreed to cancel the coupons due Dec. 1, 1893, and June 1 and Dec. 1, 1894.

CINCINNATI EDISON ELECTRIC CO.—Organized under the laws of Ohio by a syndicate of which the North American Co. is a member and the representative, with a capital of \$1,000,000, to establish an extensive central station electric plant and of securing a large electric lighting business in the city and suburbs of Cincinnati. On May 31, 1892, the company secured the contract for the public lighting of the city of Cincinnati for 11 years. This contract also carries with it a franchise for commercial lighting for the term of 20 years, which covers the limits of the city as now fixed or as they may be extended during the life of the franchise. The total number of city lamps will exceed 3,000, and their connection will open every part of the city to the commercial business of the company. The absorption of the Queen City Electric Co. (the entire capital stock of which is owned by the North American Co.) has been provided for and economies in operation have ensued. The aggregate connections for light and power are now equivalent to 20,216 incandescent lamps of 16 c. p. each. It is proposed to extend the connections so that, both city and commercial, they will reach the equivalent of at least 50,000 lamps of 16 c. p. each, by the close of the year 1894.

Ohio Falls Car Manufacturing Co. (The).—Incorp. under laws of Indiana in 1892, as successor to the Ohio Falls Car Co., which was established in 1854.

The new company acquired and took over, as of July 1, 1892, the property and business of the old company, manufacturers of passenger, parlor and freight cars of every description. The company owns in fee simple about 62 acres of land in Clarksville, immediately adjoining Jeffersonville, Ind., directly opposite Louisville, Ky. The buildings, 70 in number—51 of which being built of stone and brick with iron and slate roofs—are of the most substantial character and uniform architecture, and especially constructed for the requirements of the business. The machinery is of the most approved type and is maintained in a high state of efficiency. The capacity of the works is 5 passenger cars per week and 25 freight cars per day, employing 1,500 to 2,000 men, with an annual output approaching \$3,000,000 in value. Under special legislation Clarksville cannot be embraced within the limits of Jeffersonville, and the company thus enjoys immunity from city taxation. The old company produces 8 to 10 million feet of oak and poplar lumber yearly at its own band saw mill. The logs are brought down the Ohio River and stored for winter cutting, effecting large savings and insuring uninterrupted supply. Located near iron and timber fields, supplies are acquired on an exceptionally favorable comparative basis.

In addition to the property of the company named in the appraisement and valued at \$1,866,803.00, the Ohio Falls Car Co. had, on July 1, 1892, in cash, good bills receivable and accounts, \$192,768.64, which, together with the profits since July 1, 1892, less dividend of \$60,000.00 paid in July, accrue to the new company.

The amount of cash assets above named is in excess of all current liabilities whatsoever, including unvouchered bills and pay-rolls, and with the large stock on hand, leave the new company with ample working capital.

Statement of net profits of the old company for these periods, after charging all trading expenses, management, salaries, bad debts and repairs and maintenance of machinery, plant, buildings, etc.:
 Period from 20th Nov., 1888, to 15th Feb., 1890, say 15 months, profit..... \$136,913 05;
 Period from 15th Feb., 1890, to 1st April, 1891, say 13½ months, profit..... 267,390 37;
 Period from 1st April, 1891, to 30th June, 1892, say 15 months, profit..... 253,267 01;
 equal to an average annual net profit of \$164,847.00 for the above period of three years seven and one-half months, or at the rate of \$193,961.00 per annum for the last two years four and one-half months.

Funded debt consists of \$600,000 1st mtge. 6 p. c. 30-yr. bonds, due Oct. 1, 1922, interest payable by Maitland, Phelps & Co., 24 Exchange Place, New York, and principal and interest payable in gold. Of the bonds \$20,000 are to be drawn for redemption annually at 105 and interest, unless they can be bought in the market at a lower price. Of this issue \$200,000 have been paid to the old company by the new company, in part payment for the property and business acquired, and the balance (\$400,000) has been sold by the new company, and the proceeds will be used to pay off the debt of the old company.

The preferred stock will be entitled to a cumulative dividend of 8 p. c. per annum, payable out of earnings, quarterly in gold. The common stock will be entitled to a cumulative dividend of 12 p. c. per annum out of the earnings after dividends on the preferred stock shall have been paid.

Should there be any surplus earnings after payments of all dividends have been made as above, and it is deemed proper by the directors to pay any part of such surplus earnings as dividends, they are to be divided so that each share of preferred stock and each share of common stock shall receive the same proportion thereof.

It is provided in the certificate of incorporation, and in the by-laws, that no other or further mortgage or lien shall be made or created on the company's property and franchises, except with the approval of holders of ninety p. c. both of the preferred and of the common stocks of the company. The voting powers of holders of each class of stock are the same. The stockholders of the old company have taken in part payment for its plant \$500,000 of the preferred and all of the common stock of the new company.

Dividends.—Since organization regular 2 p. c. dividends on preferred stock have been paid as follows: Oct. 1, 1892; Jan. 1, Apl. 1, July 1, and Oct. 1, 1893; Jan. 1, 1894. On common stock, 12 p. c. was paid July, 1893.

Oregon Improvement Co.—The properties of this company are divided into four general classes: the steamship, the coal, the railroad, and the real estate and miscellaneous properties.

The *steamship property* embraces the lines of the Pacific Coast Steamship Co., a California corporation, all of the stock of which is owned by this company. (For description of the five different steamship lines operated see MANUAL for 1893.) In its coastwise traffic the company employs 15 steamships.

The *railroad property* embraces the Columbia and Puget Sound R.R. (see below), including a coal wharf, dock, and real estate in Seattle; the Pacific Coast Ry. (see below), including extensive wharves at Port Harford; the Seattle and Northern Ry., including large real estate interests in the city of Anacortes; the Port Townsend Southern R.R. The Oregon Improvement Co. owns the entire capital stocks of the Columbia and Puget Sound R.R. and the Pacific Coast Ry. Cos., and also the whole issue of the 1st mtge. bonds of the latter company.

Embraced under the head of *coal properties* are the New Castle Coal Fields, 1,320 acres, located about 2 miles from the shore of Lake Washington, and 22 miles from Seattle, Wash.; the Green River Coal Fields, 1,248 acres, situated about 34 miles southeast of Seattle; the Wilkeson Coal Fields, 1,120 acres, about 31 miles east of New Tacoma—all these lying among the foot-hills between the Cascade Mountain and Puget Sound; one steam collier for transportation of coal from Seattle to Portland and San Francisco.

The *real estate and miscellaneous properties* comprise the Beale Street Wharf property and the dock property formerly owned by the Union Lumber Co. in San Francisco; the town site of Prescott; two flumes, one terminating at Dayton, the other at Milton, on the Oregon Ry. and Navigation Co.'s road; also, 5,620 acres of timber lands at the heads of the flumes; and about 3,120 acres of farm lands located in the Grand Ronde Valley, Oregon.

Funded debt consisted, Nov. 30, 1893, of \$5,000 1st mtge. (on all the company's property) 6 p. c. 30-yr. sinking fund bonds, due Dec. 1, 1910, interest June and Dec., of which \$29,000 have been retired by the sinking fund; \$6,468,000 consol. mtge. 5 p. c. 50-yr. \$1,000 bonds, due Oct. 1, 1939, interest April and Oct. Interest on both issues payable at office of trustee, Farmers' Loan and Trust Co., New York, N. Y.

The interest on the 1st mtge. bonds cancelled by the sinking fund is paid into the sinking fund the same as if they were not cancelled, making the yearly fixed charges on the bonded debt, say: 6 p. c. on \$5,000,000 1sts, \$300,000; annual sinking fund charge, \$50,000; 5 p. c. on \$6,468,000 consols. (\$323,400; less interest on bonds owned by the Co., \$13,000), \$310,400—total annual fixed charges, \$660,400.

Bonds for the sinking fund may be purchased by the trustee at any time during the calendar year, at a price not exceeding 105¢; if the money in the sinking fund is not absorbed by such purchases, then the bonds can be drawn on Jan. 1st, of each year, at par flat, but interest on such drawn bonds does not cease until June 1st following the date of drawing.

Up to the close of the fiscal year \$839,000 of 1st mtge. bonds had been bought in and cancelled under the sinking fund clause. The proposed cancellation of the sinking fund provision as stated in the MANUAL for 1893 has not as yet been acted upon.

Dividends.—Dividends of $3\frac{1}{2}$ p. c. were paid on preferred stock in 1888 (year of issue), from Mar., 1889, to Sept., 1890, 7 p. c. per annum; and in Mar., 1878, $3\frac{1}{2}$ p. c.; none subsequently. On common stock: 1883, $7\frac{1}{2}$ p. c.; 1888, $1\frac{1}{2}$ p. c.; 1889, $4\frac{1}{2}$ p. c.; and 1890, 8 p. c. Dividends payable at the company's office, New York City.

In Feb., 1891, \$4,000,000 consols were offered to stockholders at 70. In April, 1891, the company gave notice that it was prepared to receive its preferred stock in exchange for consol. mtge. 5 p. c. bonds on the basis of 105 and accrued dividend for its preferred stock, and 90 and accrued interest for the consol. mtge. bonds.

Philadelphia Company (The).—Incorp. in Pennsylvania March 22, 1871, as the Empire Contract Co. Name changed to the Mexico National Ry. Co. on January 17, 1873. Name changed to Commonwealth Contract Co. on November 5, 1875. Name changed to Rio Grande Extension Co. October 31, 1879. Organized May 24 and name changed to Philadelphia Co. June 11, 1884. Additional privileges conferred by the National Gas Act of May 28, 1885.

The projectors of the business now controlled by this company, in July, 1884, became the purchasers of the entire capital stock of the Philadelphia Company, having at that time a capital of \$100,000.

On September 29, 1884, an increase of the capital stock to \$5,000,000 was authorized, the increase to be made at such times and in such manner as the Board of Directors should thereafter determine.

Active operations were begun on October 9, 1884, and the work was prosecuted with vigor, so that by the beginning of June, 1885, gas was being delivered in large quantities to consumers.

On June 9, 1885, the company acquired the rights, property, and privileges of the Allegheny Natural Gas Co., carrying with it a contract with Carnegie Brothers & Co., Ltd., for the supply of gas for their mills in Pittsburgh.

The company purchased, in June, 1885, the shares of the Acme Gas Company, having valuable contracts, including one with the Edgar Thompson Steel Works. In July, 1885, the stock of the Carpenter Natural Gas Company was

purchased, and the company also acquired from George Westinghouse, Jr., the exclusive right, within the county of Allegheny, to valuable inventions, covered by about fifty letters-patent.

In August, 1885, a contract was entered into for the purchase of the entire capital stock of the Penn Fuel Company, the Fuel Gas Co., and Pew, Emerson & Co., Limited, and the various auxiliary companies controlled by them.

On May 1, 1887, this company took possession of the business, gas lines, wells and property of the Pennsylvania Natural Gas Co., and on Jan. 1, 1888, the business, gas lines, wells and property of the Chartiers Valley Gas Co., under operating contract. On Jan. 1, 1893, the lines, wells, etc., of the Duquesne Nat. Gas Co. was purchased.

The capital stock of the company was increased October 1, 1884, to \$1,000,000; on December 15, 1884, to \$1,300,000; on May 4, 1885, to \$1,500,000; on June 27, 1885, to \$2,000,000; on August 19, 1885, to \$5,000,000, and on May 27, 1886, to \$7,500,000.

Statement of Earnings and Expenses for year ending March 31, 1894.—Gross earnings, \$1,638,372. Total expenses, \$816,625. Net earnings, \$821,749. Payments: Chartiers Valley Gas Company and other leased companies, \$253,126; balance on account of purchase of Duquesne Pipe Lines, \$30,000; dividends, \$431,250—total, \$714,376. Surplus for year, \$107,373. The last dividend (at the rate of 1½ per cent.) was paid on April 2, 1894.

Railway Equipment Co. of Minnesota.—This company owns the following equipment, viz.: 2,000 box cars, costing \$987,625; 50 locomotives, costing \$490,891.31; and 23 passenger cars, costing \$126,023—total cost, \$1,604,539.31. This equipment is leased on the car trust plan to the Chicago Great Western Ry. Co. for an annual rental, which, besides paying the interest on the bonds, is more than sufficient to retire at par 1/30 of the bonds annually for nine years after 1891, and the balance at maturity in 1901. The Equipment Co. retains title to all the equipment until the whole has been fully paid for by the lessee, who undertakes under the terms of the trust (which is assigned to the Atlantic Trust Co. of New York, as trustee for the bondholders) to keep the equipment insured and in repair at its own expense, and generally covenants to do all that is necessary for the protection of the Equipment Co. As further security for its lease, in addition to the share capital of the Equipment Co., the lessee Ry. Co. has deposited with the Equipment Co. \$500,000 of its general mortgage 4 p. c. bonds.

Financial Statement.—Capital stock authorized, \$1,000,000; paid in, \$996,000. *Outstanding debt* (authorized and issued, \$1,000,000), \$993,000 outstanding 1st mtg., Series A, 1891, 6 p. c. gold bonds, dated June 1, 1891, coupons payable J. & D. at Maitland, Phelps & Co., 24 Exchange Place, New York. Of these bonds, \$50,000 will be redeemed annually for 9 years, and the balance at maturity in 1901. Dividends of 3 p. c. each were paid Nov., 1892, Nov., 1893, and May, 1894. Stillwell-Bierce and Smith-Valle Co. (The).—Organized in 1892, under laws of New Jersey, to acquire, as going concerns, carry on and develop the business of manufacturers of turbine water-wheels, steam pumping, hydraulic, and other machinery, carried on by the Stillwell & Bierce Manufacturing Company, and the Smith & Valle Company, both of which are situated in the city of Dayton, O. (For description of these companies' properties, see POOR'S HAND-BOOK OF INVESTMENT SECURITIES, 1892-93.)

Net Profits.—The net profits of the combined business, after charging all trading expenses, bad debts, and managers' salaries, and providing liberally for replacements and depreciation of machinery and tools, for the three years ending Dec. 31, 1891, amounted to the sum of \$283,973, equal to an average annual net profit of \$94,658, which, after paying the dividends on the preferred stock, leaves a surplus of \$54,658, applicable for reserved fund and dividends on the common stock.

Assets, Dec. 31, 1891.—Inventory of stock and materials on hand, \$306,919; bills receivable, book accounts, cash, \$311,573; real estate, buildings, machinery and appliances (appraisers' certificate), \$407,980; additional cash capital (contributed), \$50,000—total, \$1,076,772; less bills and accounts payable, \$168,131; net assets, \$908,641. This amount, plus the profits for the current year, less dividends declared (\$77,000), represents the total net assets transferred to the new company, exclusive of patent rights and good-will.

Financial Statement.—Capital stock (par, \$100)—preferred 8 p. c. cumulative stock, \$500,000; common stock, \$500,000—total, \$1,000,000.

No bonds are to be issued. Stockholders will have no formal liability. The preferred stock is a prior lien upon the assets and earnings of the company. The by-laws provide that no bond or mtge. can be created without the consent of ninety p. c. of the preferred stockholders; also that this provision cannot be altered except by the like affirmative vote.

The preferred stock will be entitled, from and after Dec. 1, 1892, to cumulative, preferential dividends of 8 p. c. per annum, payable quarterly out of the earnings of the corporation, before any dividends are declared upon the common stock. The common stock will be entitled to the earnings, when declared in dividends, after providing for surplus and after 8 p. c. per annum upon the preferred stock shall have been paid. The vendors subscribe for all of the common stock. Both classes of stock have equal voting power.

Annual meeting, Feb. 19, at Jersey City, N. J.; books close 10 days in advance. Stock owned 20 days may be voted. Dividends payable M., J., S., & D. 1 at New York; books close 10 days in advance. Fiscal year closes Dec. 31.

Tennessee Coal, Iron and R.R. Co.—Incorp. by special Act of the Legislature of Tennessee in 1860, under the name of the Tennessee Coal & R.R. Company; charter amended in Sept., 1881, and name changed to the existing title. On Sept. 13, 1881, it purchased the property of the Sewanee Furnace Company, and on Feb. 1, 1882, purchased the property of the Southern States Coal, Iron and Land Co. (Limited), the property of those companies thereby being merged into this company. On Sept. 20, 1886, this company purchased and consolidated with the Pratt Coal and Iron Co., which company had previously been formed by absorbing the Pratt Coal and Coke Co., the Alice Furnace Co., and the Linn Iron Works, and all debts and obligations of those companies have been assumed and provided for by this company. In Sept., 1892, the properties of the Cahaba Coal Mining and the Excelsior Coal Mining Cos. were purchased by and the De Bardeleben Coal and Iron Co. was consolidated with this company. (For terms of purchase, etc., see POOR'S HAND-BOOK for 1892-3.)

The business of the company is the mining of iron ore, making pig-iron, mining coal and making coke for use in converting this ore into pig-iron and for the market.

The Tracy City mtges. matured April 15, 1894, and were payable either in cash or in 6 p. c. bonds of the N., C. & St. L. Ry. Co. The consol. 6s of 1901 are also exchangeable at par for N., C. & St. L. Ry. 6 p. c. bonds held by the Central Trust Co. Of the Alice Furnace bonds, \$189,000 are in the Pratt sinking fund.

In addition to the Birmingham Div. bonds a sufficient amount is reserved to retire the Pratt and Alice issues at maturity. The prior bonds on the Tennessee portion of the property are mostly refunded into the above new issue of Tennessee Div. bonds, due 1917. The Birmingham Div. bonds are secured on all the property of the Birmingham (Ala.) Division (formerly the Pratt Coal and Iron Co.), and are also secured on all the property of the company in the State of Tennessee, but subordinate to the Tennessee Div. mtge. bonds dated Jan. 1, 1887. The Tennessee Div. bonds are similarly secured by a 2d mtge. on the Alabama property. A sinking fund of 1 p. c. has been provided on the Birmingham Div. and 1½ p. c. on the Tenn. Div. bonds. The authorized amount of De Bardeleben bonds is \$3,000,000, of which \$90,000 is sinking fund and \$400,000 held in trust for the Eureka Co. bonds. They were assumed by the T. C. I. & R. Co., under the terms of purchase. Sinking fund retires \$30,000 of these bonds annually.

United States Cordage Co.—Incorp. Dec. 27, 1893, under the laws of New Jersey as successor to the National Cordage Co. Under the plan of reorganization the new company acquired all the properties of the National Cordage Co., the eight mills (see *POOR'S HAND-BOOK* FOR 1892) of the Security Corporation, formerly leased to the N. C. Co. till Nov. 1, 1911, and the six Union mills.

The following is a list of the mill properties now owned by the United States Cordage Co.: Waterbury, Wm. Wall's Sons' and Tucker and Carter Mills, of Brooklyn, N. Y.; Victoria Cordage Co., Dayton, Ky.; Xenia Twine and Cordage Co., Xenia, O.; Rinek Mill, Easton, Pa.; Miamisburg Cordage Co. and Miamisburg Binder Twine and Cordage Mills of Miamisburg, O.; Elizabethport Cordage Mills, Elizabethport, N. J.; Hanover Cordage Mills, Hanover, Pa.; Donnell Cordage Co., Bath, Me.; Chelsea Mills (formerly Suffolk), Chelsea, Mass.; Sewall & Day Cordage Co., Allston, Mass.; Boston Cordage Co. and Standard Cordage Co., Boston, Mass.; Lawrence Rope Wks., Brooklyn, N. Y.; Middletown Twine Co., Middletown, O.; American Cordage Co. (formerly Field Cordage Co.) and Ohio Twine and Cordage Co., Xenia, O.; New Bedford Cordage Co., New Bedford, Mass.; Chicago Cordage Co. (Wm. Deering & Co.), Chicago, Ill.; and the Galveston Rope and Twine Co., Galveston, Tex.

Operations.—The National Cordage Co. furnished no report for 1893, the latest statement of earnings being for year ending Oct. 31, 1892, which shows: Balance, Oct. 31, 1891, \$106,313; profit in year 1891-2, \$2,710,749—total, \$2,817,063, from which were paid dividends, \$1,450,000, leaving surplus carried forward, \$1,367,063.

Financial Statement, June 15, 1894.—Common stock (par, \$100), \$20,000,000; preferred stock (par, \$100), \$3,000,000; guaranteed stock (par, \$100), \$5,000,000; funded debt, \$7,500,000—total, \$41,500,000.

The guaranteed stock was issued to retire the \$6,000,000 of Security Corporation bonds. It is entitled to a first preference of 6 p. c. dividends, which are cumulative after Jan. 1, 1895; and the whole or any part of the stock is redeemable on any dividend day, at the option of the company, at the price of 105. Beginning with 1896, the company will annually set apart from surplus or net profits, after the payment of dividends on all preferred stocks, but before the payment of any dividends on the common stock, the sum of \$100,000, and devote the same to the redemption of guaranteed stock, by purchase in open market or by drawing the stock if it cannot be purchased at 105 or under. In case of liquidation, the guaranteed stock has first preference over both the preferred and common stock.

The preferred stock is entitled to 8 p. c. dividends, cumulative after Jan. 1, 1896, and has preference to common in case of liquidation.

The common stock is entitled to 6 p. c. dividends non-cumulative. Any further dividends declared in any one year shall be divided *pro rata* between the holders of the preferred and common stocks.

Both the preferred and common were issued to the Reorganization Committee in payment for the properties acquired by them, and for the purpose of delivering the same in exchange for the stocks of the National Cordage Co., in accordance with the terms of Reorganization Agreement. Under this agreement the preferred and common stocks of the National Cordage Co. are exchangeable, share for share alike, into the preferred and common stocks of the United States Cordage Co.; but in addition thereto the holders of National Cordage Reorganization Certificates will be entitled to receive an equivalent of preferred stock of the United States Cordage Co. to represent the cash assessments paid by them respectively; the assessments paid having been \$20 per share on National Cordage preferred stock and \$10 per share on National Cordage common stock.

Funded debt consists of 6 p. c. 80-year 1st mtge. and collateral trust gold bonds, due Jan. 1, 1924, interest Jan. 1 and July 1, at the company's agency in New York. Trustee, United States Trust Co., New York, N. Y. Bonds numbered 1 to 7,000 are for \$1,000 each; from 7,001 to 12,000 are for \$100 each. Bonds are coupon, with privilege of registration of principal, at the office of the Manhattan Trust Co., New York, N. Y. A sinking fund of \$100,000 per annum is provided after Jan. 1, 1897, for the purchase and cancellation of these bonds, at or under 105.

These bonds are secured by mtge. of all the company's real estate, buildings, machinery, fixtures, etc., represented by the mill properties described above. Of these mills, those of the Lawrence, Boston, Standard, Middletown, New Bedford, American, Ohio and Chicago Cordage Cos. are still covered by a mortgage of the Security Corporation, under which \$6,000,000 of Security Corporation bonds were issued. Practically this entire issue of bonds has now been acquired, and is in possession of the United States Cordage Co., and the Security Corporation has transferred all the aforementioned properties to this company by deeds, dated April 18, 1894, subject to the existing liens. On these so-called "Security Mills" there are outstanding underlying liens to the amount of \$1,124,000, maturing at intervals during the next seven years. Against these liens the United States Cordage Co. has lodged with the Manhattan Trust Co. an equal amount of its 1st mtge. bonds. There is also outstanding an underlying lien of \$300,000 on the Chelsea mill, against which a like amount of United States Cordage Co. bonds has been deposited with the United States Trust Co. The Galveston Rope and Twine Co. has a mortgage upon its mill for \$100,000, but the United States Cordage Co. is the owner of the entire issue of the capital stock of the Galveston mill, which stock is also placed under this mortgage. The mortgage also covers the good-will of the various properties and corporations.

The company has no floating debt. There is, however, a contingent liability to pay to holders of certain trust liquidation certificates, issued in the liquidation of the affairs of the National Cordage Co., a part of the deficiency which may arise after closing out the collateral merchandise held by certain secured creditors of the National Cordage Co. This merchandise was appraised in Jan., 1894, and if it produces the amount of that appraisal there will be no deficiency but a surplus for the United States Cordage Co. The deficiency cannot be ascertained before Jan., 1895, and cannot exceed a certain sum, estimated to be within \$500,000. It is payable only out of net earnings after payment of interest on the \$7,500,000 1st mtge. bonds, and not until the closing out of the securities and property in the liquidation trust. No payment is likely to become due earlier than 1897 or 1898, even if a deficiency should arise.

United States Leather Co.—Organized Feb. 25, 1893, under laws of New Jersey, and commenced business, namely, the manufacture and sale of leather, lumber, and belting, May 2, 1893, and has acquired tannery plants, properties, bark, bark lands, hides, leather, and other properties incident to and connected with said business, as going concerns, with the good will of the same, the title to which has been taken in part directly by the United States Leather Co. and in part through the ownership of the capital stocks of other companies which had directly acquired such properties.

In purchase of these properties and capital stocks, the company has issued \$80,000,000 of its own stock, one-half preferred and one-half common.

The aggregate of these purchases is \$62,700,096 and upward, on account of which pref. stock of the company has been issued at its par value to the amount of over \$40,000,000, and in addition thereto one share of common stock for each share of preferred stock so issued has been paid for the good will of the business of the various concerns.

For the purpose of determining the amount to be paid for the several properties respectively upon the basis of the fixed purchase price, committees were appointed by the Board of Directors, who made an examination of the properties, and having before them the fixed price per unit, reported to the company the total amount that should be paid for the several properties.

In regard to bark lands and bark contracts, where it was impracticable at once to determine the actual amount of bark or bark lands, 40 p. c. of the purchase price as estimated was, and still is, withheld by the company, pending the expert examination required to determine the actual price to be paid. In regard to hides in process of tanning 10 p. c. of the purchase price for the hides and betterments for which bills of sale were given was and still is withheld by the company, pending the completion of the manufacture of the same into leather, at which time the actual number and value of such hides can be determined.

In addition to the properties above mentioned as acquired by the company, the proceeds of the sale of \$6,000,000 of the debentures have been received into the treasury of the company.

In the acquisition of the real estate, local counsel selected or approved by the general counsel of the company, Messrs. Beaman & Atterbury, have certified that the title is good and free of debt or encumbrance, and in all cases the same has been acquired in fee, except the properties situated in the State of Pennsylvania. In the latter case the title of the tannery plants, tools, bark lands, bark contracts, and bark have been directly acquired by corporations organized under the laws of said State, and are now held by them in fee. These corporations are known as the Elk Tanning Co., the Penn Tanning Co., and the Union Tanning Co., each with a capital stock of \$10,000,000. The capital stock of these corporations, so far as issued, except only a few shares held by directors of the respective companies, is owned by the United States Leather Co., besides owning the properties. These corporations are actually engaged in the manufacture of leather, under contracts entered into with the U. S. L. Co.

The tanning properties owned by the U. S. L. Co., as above indicated, were purchased from Thomas E. Proctor, N. W. Rice & Co., Horton, Creary & Co., Fayerweather & Ladew, Hoyt Bros., H. G. Lapham & Co., P. C. Costello & Co., A. Healy & Sons, James Horton & Co., and others, constituting the principal and best known manufacturers of sole leather in the United States. And in all cases, in making the purchase, the company has at the same time acquired the good will of the business of the vendors as going concerns.

An issue of \$10,000,000 of debentures of the company has been authorized, a brief description of which is given above, and of this issue \$6,000,000 has been sold to Messrs. Heldelbach, Ickelheimer & Co.

Financial Statement July 1, 1893.—Capital Stock (\$100 shares), \$120,000,000—\$60,000,000 pref. and \$60,000,000 com. Funded debt, \$5,000,000 (\$10,000,000 authorized) 6 p. c. 30-yr. gold \$1,000,000 debenture bonds due May 1, 1913, int. M. & N., at office of U. S. L. Co. in New York

The Central Trust Co. of New York is the Registrar of the debentures; privilege of registration is given, and provision is made for the redemption of 4 p. c. of the par value of the debentures before the 1st of August, in each year. This sinking fund clause is endorsed upon the debentures, and in substance is as follows:

The company shall, on or before Aug. 1 in each year, purchase and deliver to the Trustee for cancellation an amount of the debentures equal to 4 p. c. in par value of the total debentures issued, provided that they can be purchased at less than 110 per cent. and accrued interest. In any case of inability to purchase all or any portion, the company shall deposit with the Trustee such amount as may be necessary to fully satisfy said sinking fund; and the Trustee shall draw by lot, and duly advertise such drawing, and the debentures so drawn shall be paid at 110 p. c. and interest, on the 1st of Nov. following.

The following provisions also are endorsed upon the debentures and make a part of the conditions thereof:

In case the U. S. L. Co. shall at any time hereafter execute any mortgage upon its property or franchises to secure the payment of any bonds or debentures hereafter issued, the debentures of this issue shall be specifically and equally secured by such mortgage, *pro rata*, with all other bonds or debentures secured thereby.

No bond, no debenture, other than these of this issue, and no mortgage shall be at any time made, assumed or guaranteed by the U. S. L. Co., or by any company, a majority of the stock of which will be owned or controlled by the U. S. L. Co., without the consent of the holders of record of 80 p. c. of the pref. stock of the U. S. L. Co. then outstanding. The principal and interest of the debentures is payable in gold coin.

Virginia Development Co. (The).—Chartered Oct., 1887, under the name of the Virginia Steel Co.

The purposes for which the company was organized are to promote and encourage the establishment of mining and manufacturing industries and other kindred enterprises, and it is also proposed to purchase and lay out town sites at favorable points, and encourage the establishment, at such places, of the various industries which the natural resources of the surrounding country justify. The company has already made the following investments:

Southwest Virginia Improvement Co.—£769,000 out of a total of £770,000 capital stock (with provisions for the purchase of the remainder). This company is lessee of over 3,700 acres of coal land, having an annual output of over 800,000 tons of coal and coke. It has 550 coke ovens, and owns the town of Pocahontas, comprising 542 acres of land, 300 tenement houses, stores, etc.

Consolidated Mining Co.—\$303,400 out of a total of \$303,400 capital stock. This company owns about 3,000 acres of iron ore lands, and operates the Rorer Iron Mines, and 6 miles of narrow gauge railroad near Roanoke, Va., and owns real estate in Roanoke, Va.

Clark Summit Mines.—In Wythe County, Va., 8 miles west of Pulaski, Va.

Albionia Mines.—In Pulaski County, Va., 12 miles south of Pulaski, Va.

The Virginia Development Co. is also interested in the following companies: Buena Vista Land Co., Buena Vista Iron Co., Salem Land Co., Salem Furnace Co., Graham Land Co., Graham Furnace Co., Max Meadows Land Co., Max Meadows Iron Co., Crescent Horse Shoe & Iron Co., and in numerous land and manufacturing companies on the line of the Norfolk & Western Railroad.

Financial Statement.—Capital stock, preferred, \$1,000,000; common, \$4,000,000—total stock, \$5,000,000; par value, \$100 per share. The preferred stock is entitled to an annual cumulative preferential dividend of 6 p. c., payable M. & N., out of the earnings of the company and before any dividend is paid on the common stock.

Washington Brewery Company (The), Limited.—Incorporated April 12, 1889, under the Companies Acts for the purpose of acquiring as from July 1, 1889, the Mount Vernon (lager beer) Brewery, in Washington, D. C.

The property is freehold, and comprises the entire block bounded by Fourth and Fifth and E and C Streets. The annual output of the brewery is about 36,000 barrels.

The price paid for the entire property, including the brewery proper, proprietor's dwelling house, machinery, plant, horses, wagons, stock in trade, debts receivable, and goodwill, was £141,000; of which the vendor received £50,000 in cash.

Financial Statement.—Capital stock authorized: Preferred, £60,000; common, £75,000—total stock, £135,000; par value, £10 per share. Funded debt, £26,000 first mortgage 6 per cent. 10-year debenture bonds, due May 1, 1899, interest payable May and November.

The preferred stock is entitled to an annual cumulative dividend of 8 p. c. payable out of the earnings of the company, and before any dividend is paid on the common stock. It also takes precedence with regard to capital.

Directors.—E. Rawlings (Chairman), T. B. Lambert, C. B. Graham, London, Eng.; Charles A. James, Albert A. Wilson, Albert Curry, Washington, D. C. S. W. Humphrey, Sec. GENERAL OFFICE, 16 Victoria Street, Westminster, London, S. W.; American Office, 400 E Street, N. E., Washington, D. C.

Western Union Telegraph Company.—This company was chartered under the laws of New York on April 4, 1866, as successor to the New York and Mississippi Valley Printing Telegraph Company. The share capital at the time was \$500,000; this was increased from time to time by the acquisition of other lines, and by the payment of stock dividends, until May, 1864, when it reached \$20,133,500. From that time until July 1, 1869, it increased to \$41,063,100. See MANUAL for 1869.

In June, 1879, there was in the treasury \$5,978,125, which was divided as a scrip dividend of 17 per cent.

On Jan. 19, 1881, the company was consolidated by purchase with the American Union and the Atlantic and Pacific Tel. Cos. By the terms of purchase, the W. U. Co. increased its capital stock (by \$38,926,590) to \$80,000,000, with which it paid par for the 100,000 shares of stock of the American Union Co., amounting to \$10,000,000, and \$5,000,000 of new stock for a like amount of that Co.'s bonds. The stock of the A. & P. Tel. Co., amounting to \$14,000,000, was purchased at 60 per cent. of its par value, and paid for in new W. U. stock, amounting to \$8,400,000. The balance of stock, \$15,526,590, was issued to holders of old W. U. stock. The transfer of property, etc., of the purchased companies was made Feb. 3, 1881.

The W. U. Tel. Co. owns a majority of the stock of the International Ocean Tel. Co. and nearly one-half the stock of the Gold and Stock Tel. Co. During the year 1880-81 contracts were made with the Northwestern Tel. Co., absorbing by lease for 99 years its lines, properties, and franchises in Wisconsin, Iowa, and Minnesota, and on the Northern Pacific R.R.; with the Great Northwestern Tel. Co. of Canada, sub-letting to that company the lines acquired from the Dominion Tel. Co., west of the Province of New Brunswick, and with said last-mentioned company and the Montreal Tel. Co. guaranteeing to the latter a fixed revenue from the operation of its lines undertaken to be operated by the Great Northwestern Co.

Contracts dating from Jan. 1, 1882, were entered into with the Gold and Stock Tel. Co. and with the International Ocean Tel. Co., by the terms of which this company will operate the lines, properties, and business of those companies for a term of 99 years, guaranteeing to the stockholders quarterly dividends at the rate of 6 p. c. per annum, this company being entitled to all the revenues.

On Feb. 10, 1883, the Mutual Union Tel. Co. was absorbed by lease, the rental being the interest at 6 p. c. on \$5,000,000 bonds, and 6 p. c. per annum on \$2,500,000 capital stock.

During the year 1888 the capital stock was increased by \$5,000,000 for the purpose of acquiring the Baltimore and Ohio Tel. The sterling bonds of 1900 to the amount of £4,100 and building bonds of 1902 to the amount of \$11,000 were redeemed by the sinking fund trustees.

In addition to the acquisition of the Baltimore and Ohio Tel. system, consisting of 6,711 miles of line, carrying 54,087 miles of wire, and of the New York and Southern Tel. system of 1,528 miles of lines and 5,000 miles of wire, there were constructed during the year 1888 directly by the company, and paid for out of the treasury, 6,322 miles of line and 32,430 miles of wire, on which account there was appropriated \$1,219,500.57 in cash.

Earnings and expenses for year ending June 30, 1893—Gross earnings, \$24,978,442.96. Expenses, \$17,482,405.68, as follows: Operating and general, \$12,497,463.99; rentals leased lines, \$1,660,427.52; maintenance and reconstruction, \$2,517,246.34; taxes, \$412,300.26, and equipment of offices and wires, \$394,967.57. Net profit, \$7,496,037.28. Payments: Dividends, \$4,631,819.84; interest on bonds, \$993,386; sinking fund, \$39,991—total, \$5,665,196.84. Balance, surplus for year, \$1,930,840.44; add surplus from 1892, (\$13,576,127.16 less amount capitalized by issue of additional capital stock distributed to stockholders, \$8,620,147.94), 4,955,979.22—total surplus, \$6,886,819.66.

Westinghouse Electric and Manufacturing Co.—Incorp. under laws of Pennsylvania, in 1891. This company carries on the manufacture and sale of machinery and appliances for the generation, transmission, and utilization of electricity. The company owns a valuable factory plant in the city of Pittsburgh, Pa., on real estate free and unincumbered, employing about 4,000 men in its various departments. The company operates, under lease agreements, the factories of the United States Electric Lighting Co. at Newark, N. J., and the factory of the Consolidated Electric Light Co. in West 23d Street, New York, in the name of the Sawyer-Man Electric Co., employing in both of these factories an average of some 800 employees.

Under a reorganization of the company, consummated in the latter part of 1891, the stockholders of the above-mentioned companies were allowed to exchange their stock for stock in the Westinghouse Electric & Manufacturing Co., and 14,824 shares of the United States Electric Lighting Co. (out of a total of 15,000), and 23,771 shares of the Consolidated Electric Light Co. (out of a total of 24,364) have availed themselves of this privilege to date.

Net earnings for year ending Mar. 31, 1894, \$1,610,505; receipts from other sources, \$30,394—total, \$1,640,509. Less amount written off in adjustment of matters pending in 1890, 1891 and 1893, \$271,522; interest on bonds, \$36,000; on scrip, \$11,674; dividends, \$257,213—total, \$576,409. Balance, surplus, \$1,064,400; surplus forward, \$2,757,649—total, \$2,822,049.

POOR'S BUREAU

OF

Information and Investigation,

Conducted in connection with and as an adjunct to

Poor's Manual of Railroads,

WILL FURNISH UPON ORDER

Detailed information relative to new or projected Railroads,

Analyses of Railroad and other reports,

Statistics of Steam, Electric, Cable and Horse Railways,

Advance information relative to Railroad reports, etc.; or will make

Full and comprehensive investigations into Railroad mortgages, bonds, leases or other contracts.

In a word, we propose to furnish information of any character coming within the scope of this Bureau, but not contained in or within the province of our three annual publications, viz.:

POOR'S MANUAL OF RAILROADS,

POOR'S HAND-BOOK ON INVESTMENT SECURITIES,

**POOR'S DIRECTORY OF RAILWAY OFFICIALS and
MANUAL OF AMERICAN STREET RAILWAYS.**

Subscribers to any of the above-named works may address their inquiries to us, and a prompt reply will be mailed at a cost based upon the length of time occupied on the work.

Special attention will be given to the preparation of Historical Statements of existing or defunct corporations; to investigations into the value of old railroad bonds, and to the preparation of statistical exhibits designed to show the value of railroad securities. Besides this, investigations will be made at any time through official channels into the status of new projects, and reports made thereon. Proceedings in foreclosure or reorganization will be carefully followed, and all facts relating to such proceedings noted for reference.

It is believed that the establishment of this Bureau will prove of great benefit to the subscribers for our annual publications, as it will enable them at a nominal cost to avail of our unequalled facilities for the collection of news items relative to Railroad Investments or projects, besides securing the privilege of access to our Library, which contains all reports and documents issued during the past *half century*.

Annual subscribers to this Bureau may call for whatever information they desire during the period of their subscription. Terms upon application. Address

Astronomical Position.—Between latitudes 24° 20' and 49° north, and longitudes 66° 48' and 124° 32' west from Greenwich, or 10° 14' east and 47° 30' west from Washington.

Periphery.—*Coast line:* Atlantic, 2,163; Gulf, 1,764; and Pacific (excluding Alaska) 1,343—total, 5,270 (or including shore-line, bays, islands, etc., 21,354) miles. *North line:* Land, 1,785; water, 1,690—total, 3,490 miles. *Land-line toward Mexico:* Land, 665; water, 1,440—total, 2,105 miles. Total length, ocean, land, lake and river periphery, 10,853 miles.

Dimensions and Area.—Greatest extent east and west (excluding Alaska), 3,100 miles, and greatest extent north and south, 1,780 miles. The States composing the American Union on the ratification of its independence were Massachusetts, New Hampshire, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, North Carolina, South Carolina and Georgia. These States, so far as inhabited, and with the exception of a few small settlements, occupied the territory between the Atlantic and the Alleghany Mountains, but their actual limits extended back to the Mississippi, with an area of 819,615 square miles. The first accession of territory to the old Union was Louisiana, which extended from the British possessions in the north to the Gulf of Mexico (Texas excepted) on the south, and from the Mississippi to the Rocky Mountains. Louisiana was purchased from the French in 1803, and by the terms of the cession the United States also acquired the French claim to the territory west of the mountains. Florida was purchased from Spain in 1819. The treaty of cession included also the Spanish claim to all the territory from the mountains to the Pacific north of the forty-second parallel. That portion of Florida now comprised in the States of Alabama and Mississippi was taken possession of by the United States as early as 1811. Texas, originally a province of Mexico, and from 1836 an independent state, was admitted into the Union in 1845. The line of demarcation between the British and American territory west of the Rocky Mountains was settled in 1846, and a contested title to 280,425 square miles of land converted into a frontier possession. California and New Mexico became parts of the Union by the treaty of Guadalupe Hidalgo in 1848, and the territory from Northern Mexico called Arizona was acquired by the treaty of 1854. Russian America, or Alaska, having an area of 577,390 square miles, was purchased from Russia in 1867.

The extent of territory of the United States acquired by cession, purchase or discovery is shown in the following table, which also shows the amount paid for each acquisition, and the several and total areas of the successive additions:

* According to the report of the Commissioner of the General Land Office the area of the United States, including Alaska, is 3,580,805 square miles. He says in a foot-note: "It is impossible to state whether the areas of the original States and the admitted States, as given in the table, embrace both land and water surface. The source from which they were originally obtained is not known. In regard to the areas of the public land States and Territories where the public land surveys have been completed (Ohio, Indiana, Mississippi, Illinois, Alabama, Missouri, Arkansas, Michigan, Iowa, Wisconsin and Kansas), the areas as given are from actual surveys, and include the surfaces of all non-meandered streams, lakes, etc., but exclude the areas of meandered waters. In the States and Territories in which the public land surveys are still in progress, the total area embraces both land and water surface, but the area of surveyed land does not include the surface of meandered waters."

Congressional Land Grants for Railroads.—In 1850 Congress established a precedent, in the case of the Illinois Central and Mobile and Ohio Railroads, of granting to States, in aid of construction of railroads upon specified routes, six alternate sections of public lands of 640 acres each (and equaling 3,840 acres to the mile), to be taken by the odd numbers within six miles of the line of the road proposed. In case such a number of sections of odd numbers of public lands could not be found within six miles of such line (in consequence of the previous sale or reservation of the same by the Government), then the grant was to be enlarged so as to apply to the odd sections within fifteen miles of the line on either side, so as to make up the full amount intended to be granted. Many of the grants were subsequently further enlarged, so as to apply to sections of odd numbers within twenty miles of the line. Upon the sections of public lands of even numbers within the limits of the grant the price was raised from \$1.25 to \$2.50 per acre.

Although the grants were made to the several States, they were in all cases as speedily as possible transferred to railroad companies chartered by them to construct lines upon the general route specified in the Act of Congress, and usually without any other conditions than those imposed in such Act, the most important of which related to the time in which the roads should be built.

With regard to the Pacific lines of railroad and their connections, the concessions were made directly to the corporations interested.

The following shows the date at which the several grants were made, the companies to which they have been conveyed, the number of acres called for by each grant, and the number of acres certified to each company up to June 30, 1893:

Progress of the United States in Area of Settlement and Population, 1790-1890.—The entire settled area at the first census is computed to have been 239,935 sq. m.; aggregate population, 3,929,214; average density, 16.4 persons to the sq. m. The centre of population then rested east of Baltimore.

The total settled area in 1800 was computed at 305,708 sq. m., including all outlying tracts; population, 5,308,483; average density, 17.4. The centre of population had moved 41 miles west, along the 39th parallel of latitude.

The map of 1810 shows a vast change, owing to the acquisition of Louisiana from France; the settled area was 407,945 sq. m.; population, 7,239,881—an average of 17.7 to the sq. m. It is remarkable that, though population nearly doubled between 1790 and 1810, the average density only increased from 16.4 to 17.7.

The population in 1820 was 9,633,822; area of settlement, 588,717 sq. m.; average density, 18.9. The centre of population has moved westward 50 miles, still on the 39th parallel.

In 1830 the area of settlement was 632,717 sq. m.; aggregate population, 12,866,020; average density, 20.3. The centre of population had passed westward only 30 miles, the energies of the people having been given largely to filling up the already included areas. The most noticeable changes were in the South. In Georgia the settlements had spread westward across the entire breadth of the State to the Creek reservation, and thence downward into the southwest corner of the State, and over the boundary line into Florida. In Mississippi the chief growth was through a broad belt up the river to the present site of Kansas City. Alabama was about two-thirds covered. In Illinois more than half the State was covered; while Indiana and Ohio had greatly reduced their vacant areas.

The settled area of 1840 was 807,292 sq. m.; population, 17,069,453; average density, 21.1. The centre of population had moved 55 miles almost exactly due west. The most marked changes during the ten years had been in Georgia, Alabama and Mississippi, whence the Indian tribes had been removed to the Indian Territory. Settlements extended over the whole of Indiana and Illinois, and northward across Michigan and Wisconsin, as far as the 43d parallel. Population had passed into Iowa Territory, occupying a broad belt up and down the Mississippi. In Missouri the settlements extended northward nearly to the boundary of the State, and in the opposite direction they covered most of the southern portion, connecting with the settlements in Arkansas. Population had also largely increased in Florida.

Between 1840 and 1850, by the annexation of Texas and the treaty of Guadalupe Hidalgo, the territory of the United States was increased to 2,980,961 sq. m. The frontier population had advanced to the Missouri through a great north and south extent. The centre of population had moved westward 276 miles; the settled area increased to 979,249 sq. m.; population to 23,191,876; average density to 23.7 persons to the sq. m.

In 1860 the population of the Pacific Coast settlements (about 100,000 in 1850) were about 620,000, covering sparsely about 100,000 sq. m. In the East, settlement had extended beyond the line of the Missouri, and the movement up the slope of the great plains had begun. Into Kansas and Nebraska settlers were pouring rapidly. Population had reached even beyond the 97th meridian. In the South, Texas had filled up still more rapidly, its extreme settlements reaching to the 100th meridian. The small groups about St. Paul, in Minnesota, had spread in all directions, after forming a broad band of union with the main body of population, down the line of the Mississippi. In Iowa the State was nearly covered, and settlers had crossed into the southeastern corner of Dakota. In Wisconsin the settlements had moved at least one degree farther north. In the upper peninsula of Michigan the settlements around Keweenaw Point had extended and increased in density. The previously unsettled regions in Southern Missouri, Northeastern Arkansas and Northwestern Mississippi had become sparsely covered. The entire occupied area of 1860 was 1,194,754 sq. m.; population, 31,443,321; average density, 26.5. The centre had moved 81 miles westward.

The population of 1870 was 38,538,371; area occupied, 1,272,239 sq. m.; average density, 30.3. The new Rocky Mountain and Pacific Coast settlements beyond the 100th meridian contained about 1,000,000 souls, occupying about 120,000 square miles, and comprising nine-tenths of the population of 1870 which was west of the general frontier line.

In the East the traditional westward movement proceeded at less than its usual rate during 1860-70, the centre of population moving only 42 miles as against 81 in 1850-60. In part this was due to the discouragement of pioneer enterprise by the War of the Rebellion and by Indian hostilities. In larger part, however, it was due to the prodigious growth of the manufacturing industries of the East. Nevertheless, in Southern Minnesota population had gone to the boundary of the State, and had poured up the Big Sioux River in Southeastern Dakota; Iowa had become entirely occupied; through Kansas and Nebraska population had moved westward, following, in general, the courses of the larger streams and of the newly constructed Pacific railroads.

The tenth census (1880) disclosed a population of 50,155,783; settled area, 1,569,570 sq. m.; average density, 32. The Rocky Mountain and Pacific Coast settlements showed enormous accessions of occupied territory. In Kansas and Nebraska a broad tide had spread westward over the plains, annexing vast tracts of land before unoccupied. Population had rapidly developed in Minnesota and Eastern Dakota, and a body of settlement had formed in Southwest Dakota in the region of the Black Hills. In Wisconsin and in the upper peninsula of Michigan the unsettled areas had largely decreased, and in the lower peninsula of Michigan there remained only a small body of unsettled lands in the interior. In the South, Texas had made great strides. The unsettled area in the peninsula of Florida had decreased decidedly, while the vacant spaces along the upper coast of Florida and Louisiana had disappeared. The centre of population moved 68 miles westward.

By the census of 1890 the population was 62,622,250. The centre of population moved westward 48 miles, making the total westward movement 505 miles since 1790, the journey having been almost uniformly along the 39th parallel.

Cities.—The growth of city populations during the one hundred years embraced by the ten successive censuses of the United States has been little less remarkable than the increase of population throughout the country as a whole. According to the census of 1890 :

"The urban population constituted in 1890 29.12 per cent. of the total population. Corresponding figures for the several censuses are given in the following table :

CENSUS YEARS.	Population of the United States.	Population of Cities.	Inhabitants of Cities in each 100 of the total Population.	CENSUS YEARS.	Population of the United States.	Population of Cities.	Inhabitants of Cities in each 100 of the total Population.

1830.....	12,866,020	864,509	6.72	1890.....	62,622,250	18,235,670	29.12
1840.....	17,069,453	1,453,994	8.52				

"It will be seen that the proportion of urban population has increased gradually during the past century from 3.35 up to 29.12 per cent., or from one-thirtieth up to nearly one-third of the total population. The increase has been quite regular from the beginning up to 1880, while from 1880 to 1890 it has made a leap from 22.57 up to 29.12 per cent., thus illustrating in a forcible manner the accelerated tendency of our population toward urban life. The number of cities having a population of more than 8,000 increased from 6 in 1790 to 236 in 1880, whence it has leaped to 443 in 1890.

"This urban element is distributed very unequally over the country, as is shown below by geographical divisions :

GEOGRAPHICAL DIVISIONS.	Urban Population.	Per cent. of entire Urban Population.
Total.....	18,235,670	100.00
North Atlantic Division.....	8,976,436	49.22
South Atlantic Division.....	1,430,455	7.79
North Central Division.....	5,791,272	31.76
South Central Division.....	1,147,147	6.29
Western Division.....	900,370	4.94

"The North Atlantic division contains nearly one-half the urban population of the country, while the North Atlantic and North Central divisions together contain nearly five-sixths of it.

"In the North Atlantic division 51.58 per cent., or more than one-half the entire population, is contained in cities of 8,000 or more inhabitants. During the past ten years the urban element in this division has increased 43.53 per cent., while the total population has increased but 19.95 per cent. This relative increase is well distributed among the several states of this division with the single exception of Vermont, whose urban element has increased but little. In Main, Vermont, Massachusetts, and New York the numerical increase in the urban element is greater than the increase of the total population, so that in these states the rural population has actually diminished in number. This rapid increase in the urban element of the North Atlantic division is due to the equally rapid extension of manufactures and commerce, requiring the aggregation of the inhabitants into compact bodies.

"In the North Central division 25.90 per cent., or a trifle more than one-fourth of the inhabitants, are classed as urban. In the past ten years the number of the urban element has nearly doubled, while the total population has increased but 28.78 per cent. The number of cities has increased from 95 in 1880 to 152 in 1890. The increase in number of urban population, viz, 2,766,593, is comprised mainly in a few large cities; thus the total increase in the eleven largest cities, comprising a trifle more than one-half of the urban population of this section, is 1,446,089, or more than half the entire gain in urban population in this division.

"In the South Atlantic and South Central divisions the proportion of urban population is comparatively small, being in the first named but 16.04 per cent. of the entire population, or less than one-sixth and the second but 10.45 per cent., the proportion of urban to the total population in all the southern states being less than 13 per cent. The industries of these states are mainly agricultural, and while manufactures and milling are making some progress they are still in their infancy. The progress in these branches of industry may be measured roughly by the growth of the urban element. In 1880 this element numbered 1,616,095, and constituted less than 10 per cent. of the population. In 1890 it numbered 2,567,602, having increased 58.88 per cent., while the total population had increased but 20.07 per cent.

"In certain of these states the proportion of urban population is still trifling; thus in Mississippi it constitutes but 2.64, in North Carolina but 3.87, and in Arkansas but 4.89 per cent. of the total population.

"Mining, commerce, and manufactures in the western states and territories are in a much more advanced stage, as is shown by the greater proportion of the urban element. Considered as a whole, the urban element in the Western division in 1890 constituted 29.74 per cent. of the whole population, while in 1880 it constituted 23.97 per cent. It has therefore gained somewhat more rapidly than the total population.

"In 1880 there was but one city, New York, which had a population in excess of a million. In 1890 there were three, New York, Chicago, and Philadelphia.

"In 1870 there were but fourteen cities each containing more than 100,000 inhabitants. In 1880 this number had increased to twenty, and in 1890 to twenty-eight."

"The cities treated of in the following table have a total population of 10,095,370, and the population of each city, the area by square miles, and density of population are given for purposes of comparison and reference. These areas have been either determined by actual measurements, from latest obtainable maps, or from records in the offices of the several city engineers. The area given for Fall River comprises all except portions of the sixth and ninth wards. No map so far issued shows the precise boundaries of these two wards, and the city engineer reports that their area has never been measured.

" Washington, District of Columbia, is considered as a city proper; that is, it includes the area and population inclosed within the actual municipal boundaries, and not those of the District of Columbia.

" The area of New York includes the islands in the East river (having an aggregate of 520 acres) belonging to the twelfth, nineteenth, and twenty-third wards. There being no way to separate the population of these islands from that of the city proper, the area must be included in the whole.

" All averages in these tables are for the ten years ending January 1, 1890, except in a few cases where municipal improvements have been of recent growth, in which case the averages are given for the years during which the work has been carried on."

Sketch of the National Debt.—The treasury department was established in 1789, and about a year later the government assumed debts of the confederation and of the individual States, amounting to \$72,775,895. The first important loan was one of \$13,000,000, made in 1803, to provide for the purchase of Louisiana; and one of \$16,000,000 was made in 1813, to meet the cost of the war of 1812. During President Jackson's administration, between 1829 and 1835, the entire public debt was paid off, and in 1836 the government found itself in possession of a surplus of over \$40,000,000. The depression of 1837-1842 and the Mexican war increased the debt till it amounted to about \$79,000,000 in 1851. Shortly thereafter, however, treasury funds began to increase rapidly, and the government began to buy in its securities at a premium. By the acceptance of various offers by the government to purchase bonds at different and heavy rates of premium, the debt was reduced to \$25,165,154 on October 1, 1857. After the panic of 1857, the debt began to increase again, and by January 1, 1861, it had crossed the \$72,000,000 mark. The war of the rebellion added enormous sums to it, until on September 1, 1865, it had reached its highest figures, \$2,757,689,571. The following table gives a complete list of the bonds and other securities issued on account of the rebellion:

The original issue of 4½ per cent. bonds consisted of \$131,596,150 registered and \$118,403,850 coupon bonds. During the fifteen years' existence of the loan there were received and cancelled \$77,480,700 coupon bonds, for which an equal amount of registered bonds was issued, and there were retired by purchase or redemption prior to April 1, 1891, \$168,039,300 registered and \$28,106,450 coupon bonds, leaving outstanding at that date \$41,087,550 registered and \$12,-816,700 coupon bonds. The bonds were redeemable at the pleasure of the United States after September 1, 1891, and were being received for redemption, with interest to that date, in pursuance of a circular issued October 9, 1890; but by circular issued under date of April 25, 1891, that of October, 1890, was rescinded, and the residue of the bonds, amounting then to \$39,202,300 registered and \$11,066,900 coupon bonds, was reserved for adjustment in 1892. Subsequently the holders were offered their choice of presenting the bonds for redemption with interest to September 2, 1891, or for continuance at the option of the government with interest at 2 per cent. per annum from that date. Under this proposal all of the coupon bonds and all but \$25,364,500 of the registered bonds have been presented and paid, the amount of registered bonds before mentioned having been continued at 2 per cent.

Banking and Currency of the United States.—The Treasury Department was established by Congress by act of September 2, 1789, and on September 11, 1789, Alexander Hamilton was appointed Secretary of the Treasury. The new Secretary early turned his attention to the subject of the establishment of a bank of the U. S., which should be the public depository and the means of providing a currency of uniform value for the entire nation. The bank was incorporated in February, 1791. Its capital was limited to \$10,000,000, the government subscribing for \$2,000,000. It was situated in Philadelphia, with branches in the principal cities, and by its means the revenue was collected and disbursed. The bank was a success, its dividends during the twenty years of its history averaging 8½ per cent. per annum. The charter expired in 1811 and was not renewed. There was a State bank in each of the cities Philadelphia, New York, and Boston before the establishment of the U. S. Bank. In 1811 there were 90 State banks in the country, and as a consequence of the abolition of the U. S. Bank the number of them increased to 150 in 1813. They flooded the country with circulating notes, which brought on a suspension of specie payment in 1814, and in 1816 Congress chartered the second U. S. Bank. The capital was \$25,000,000, of which the government subscribed \$7,000,000. The State banks, however, increased rapidly. In 1816 they numbered 246, with \$90,000,000 capital; in 1830 there were 330, with \$145,000,000 capital. In July, 1832, the bill to recharter the U. S. Bank was vetoed by President Jackson, and in 1836 it terminated its existence as a national bank, but continued operations for a few years under a charter from Pennsylvania. The refusal to recharter the U. S. Bank led to a large increase in the number of State banks, and a period of wild speculation and expansion followed, resulting in the panic of 1837. This panic was the worst the country has ever known. During the five years from 1837 to 1843 the banking circulation of the country fell from \$145,185,890 to \$58,563,608; banks decreased in number ninety-seven, banking capital nearly \$62,000,000, deposits \$71,500,000, loans and discounts \$270,500,000, and specie in banks nearly \$5,000,000. The crisis of 1837 led to the adoption of protective measures by several of the States. Notable among these were the Suffolk Bank system in Boston and the New York Safety Fund system. The U. S. sub-treasury system went into operation January 1, 1847, and since then the government has collected and disbursed its revenue without the intervention of the banks. In 1857 there was another crash, and all the banks in the country suspended specie payments. But the depression did not continue long. The national banking system dates from the act of February 25, 1863, creating the currency bureau and establishing the office of comptroller of the currency. Under this act the comptroller was authorized to permit the establishment of banking associations of not less than five persons, and a minimum capital, except in small places, of \$100,000. The associations were obliged to deposit with the Treasury Department, before commencing business, bonds to the amount of one-third the capital, for which they were to receive circulating notes equal to 50 per cent. of the market value of the bonds, but not to exceed 90 per cent. of par. The issue of currency was limited to \$300,000,000, to be proportioned among the States according to population and banking capital. A large number of the State banks took charters under the new system. A period of inflation followed, and specie soon went out of circulation. The general resumption of specie payments took place January 1, 1879. The national bank act provided for an existence not exceeding twenty years, but an act of July 12, 1882, extended the corporate existence of national banks. Since then nearly all existing bank charters have been renewed.

NOTES.—The gold coin in circulation includes subsidiary silver in circulation on the Pacific Coast from 1869 to 1878. Fractional currency is included in United States notes from 1869 to 1878, when it went out of circulation. The amount of it in circulation was \$30,442,239 in 1869, \$34,379,282 in 1870, \$34,446,305 in 1871, \$36,402,929 in 1872, \$38,076,005 in 1873, \$38,233,582 in 1874, \$37,904,570 in 1875, \$32,938,845 in 1876, \$20,241,661 in 1877, and \$16,367,725 in 1878. Treasury notes, Act of July 14, 1890, to the amount of \$40,348,704 are included with United States notes in 1891; to the amount of \$93,258,692 in 1892; and to the amount of \$140,855,614 in 1893.

STATE, COUNTY, AND CITY DEBTS.

NOTE.—The statements following are for the most part limited to a careful presentation of indebtedness of the several States, counties, and cities, with statistics of assessed valuation and other data essential to the completeness of the exhibits; but much interesting historical and statistical information previously included in *POOR'S HANDBOOK OF INVESTMENT SECURITIES* is eliminated as unnecessary in these statements. Tables showing area, population, and the latest assessed valuations of all counties in each State are given in connection with the article upon such State, and are, therefore, not repeated in the statements for the several counties.

EXPLANATION OF ABBREVIATIONS.—"Ass'd val.," assessed valuation; "Est. actual value," estimated actual valuation; "R.," real estate; "P.," personal property; "Int.," interest; "Coup.," coupon; "Co.," county; the initials J. & J., F. & A., M. & S. following "interest" mean that coupons are payable at the semi-annual or quarterly periods indicated by such initials; the terms "4s," "5s," "6s," "7s," indicate the annual rate per cent. which each several issue of bonds bears; etc., etc.

STATE OF ALABAMA.

Total bonded debt, \$9,293,400; annual interest, \$377,516. The bonds of Class A numbered from 1 to 4,973, No. 4,975, and from 4,977 to 6,000, a total of 5,998,000, are for \$1,000 each; Nos. 6,001 to 7,254 and 7,256 to 7,438, in all \$718,500, are for \$500 each; and Nos. 8,351 to 9,169, or \$81,900, are for \$100 each. Classes B and C are \$1,000 each, and the 4 p. c. funding bonds are (1 to 854) \$1,000 each and (1 to 200) \$500 each. Interest payable at office of N. Y. Security and Tr. Co., New York, and at State Treasury, Montgomery.

Sketch of the State Debt.—The State's first issue of bonds (\$100,000 6 p. c., issued in 1823, due in 10 years) was made under the terms of an act of the Legislature, passed Dec. 20, 1823, establishing the State Bank of Alabama and pledging the faith and credit of the State for its support. The capital stock of the bank was to consist in part of moneys (not to exceed \$100,000) received from sale or rent of land granted to the State by the United States for educational purposes, for which moneys the State was to issue to the University of Alabama its 6 p. c. bond, the interest to be applied in perpetuity to the use of the University. A second issue of \$100,000 6 p. c. bonds, redeemable in 20 years, was authorized Jan. 12, 1825, and on Jan. 21, 1825, \$300,000 5 p. c. bonds were authorized. At about this time branch banks began to be established, with the same guarantee of aid from the State, and the government also

began to issue bonds in aid of the construction of railroads. The debt therefore increased rapidly, amounting on Jan. 1, 1888, to \$13,800,000, of which \$10,800,000 were issued for banking purposes and \$3,000,000 for railroads. The State Bank and its branches failed in 1844 and were wound up by the State. After this the debt began to decrease slowly at first, but later on more rapidly. In Nov., 1847, it amounted to \$9,232,555.55; in Nov., 1858, to \$4,423,000, with \$2,492,000 available assets in the treasury. When the war broke out the debt amounted to \$3,445,000, and as the debts incurred during the war were declared invalid, this was the amount of it as settled by the State Convention of 1865. Between 1865 and 1870 the debt was immensely increased and the State also put itself under heavy obligations by granting aid to all railroads which might be built in the State by indorsing their bonds to the amount of \$16,000 per mile of completed road. This policy led to serious embarrassment, and in Sept., 1875, many of the companies to which the State had lent its credit having defaulted, and the consequent charge on the State having forced it in Jan., 1874, to default on all its interest payments, a convention was called and a new constitution framed prohibiting future debt-making and proposing a settlement with the bondholders by issue of State substitution bonds in exchange for the outstanding indebtedness. An act passed Feb. 23, 1876, authorized an issue of \$9,636,000 State bonds in settlement of all claims, including \$1,000,000 outstanding State certificates of indebtedness. Class A bonds were issued in exchange for old "Straight State bonds," Class B, for railroad indorsements, and the bonds of Class C for State indorsements for the Alabama and Chattanooga RR. In 1880, \$934,000 6 p. c. funding obligations were issued in exchange for 8 p. c. obligations, and the 6s were in turn retired by exchange for the 4s of 1890.

Total bonded debt, \$611,000; annual interest charge, \$43,640; sinking fund, \$10,000. Interest is payable yearly, in gold, at the office of the Territorial Treasurer. There is provision for a proportionate redemption of the bonds of 1883 after June 1, 1888; and \$71,000 of them have been redeemed to date. The insane asylum and the university bonds are redeemable in part after 10 years, if surplus in fund. Since the 1st of January, 1892, provision has been made through an act of Congress to fund the municipal debt of the Territory at 5 p. c., and as fast as any portion of the debt matures a 5 p. c. loan will be issued in place of it. Bonds to the amount of \$1,500,000, bearing 5 p. c. interest and maturing in 50 yrs., have already been issued by the Territory for taking up county warrants. The Territory has issued \$30,000 bonds to aid in its exhibit at the World's Fair.

Interest is overdue on all the bonds—on most of the old bank bonds since July, 1842; on the funding bonds of 1869 and 1870 since 1872. The funding bonds of 1875 (Loughboro') were all retired previous to May, 1885, and those

now outstanding have been released since then. Under Act of 1887, overdue coupons were made exchangeable for certificates of indebtedness, which are receivable for certain accounts and dues. The old bank bonds and \$252,000 of the 6 per cent. funding bonds of 1870 are held by the United States Government, but the State has claims against the General Government to a large amount. Total acknowledged debt, \$1,931,100; overdue unpaid interest on same, \$2,978,332.50—or together, \$4,909,432.50.

Sketch of the State Debt.—In 1837-1838 the State issued its bonds, to the amount of \$2,827,000, in aid of the Bank of the State of Arkansas and the Real Estate Bank; the banks in return giving the State, as security, mortgages on large tracts of land, partly improved. In 1840 the banks went into liquidation, and the burden thereby imposed upon the State forced it to default in its interest in 1842. In 1840 the Real Estate Bank, having become embarrassed, pledged \$500,000 of the State bonds to secure a loan of \$121,336 from a New York trust company, and the trust company, on the failure of the bank, finding itself embarrassed, turned the bonds over to one James Holford in settlement of a debt of \$350,000. These bonds were subsequently declared to have been illegally issued on the ground that the State Constitution prohibited the issuing of bonds at less than par. In 1869 a readjustment of the finances of the State was determined upon. New 6 p. c. bonds were authorized in exchange for principal and overdue interest of all the old debt, \$902,000 of which was then retired by means of the funding bonds of 1869 and 1870, upon which latter issues interest was also defaulted after a few years. During the "Reconstruction" period in 1868 to 1870, State bonds to the amount of \$5,350,000 were issued in aid of railroad construction, and a loan of \$1,986,773 was made for the building of levees. The acts authorizing these issues were unconstitutional, and the Supreme Court of the State declared the bonds invalid. On September 1, 1884, an amendment to the Constitution of the State was adopted which deprived the Legislature of all authority to provide either for the issues last named, or for the "Holfords," previously referred to. On appeal to the courts, it was held by the United States Circuit Court that the railroad aid bonds were not a liability of the companies in whose aid they were issued, and the matter still rests in that condition. The bonds are deposited under a trust agreement with the Farmers' Loan and Trust Co. The General Assembly, by Acts of April 5, 1887, and April 9, 1889, provided that the State's valid obligations, principal and interest, should be receivable in payment for the one-half tax for sinking fund purposes, for liquor licenses, for the State's proportion (40 per cent.) of the price of forfeited lands, and for State Bank and Real Estate Bank bonds and debts; and they are exchangeable at the option of the holders for non-interest-bearing certificates of indebtedness, which are receivable for the same purposes.

Following is a statement of the debt which has been repudiated by the State—the "Holfords," the levee bonds and warrants, and the railroad aid bonds:

Holford funding bonds of 1870, due January 1, 1901, interest 6 per cent., Jan. and July.....	\$1,370,000
Levee bonds and warrants, due July 1, 1900, interest 7 per cent., Jan. and July.....	1,986,773
Little Rock & Ft. Smith RR. 7 per cent. bonds, due April 1, 1900, interest April and Oct.....	1,000,000
Memphis & Little Rock RR. 7 per cent. bonds, due April 1, 1899, interest April and Oct.....	1,200,000
Little Rock, Pine Bl. & N. O. RR. 7 per cent. bonds, due April 1, 1900, interest April and Oct.....	1,200,000
Miss., Ouachita & Red Riv. RR. 7 per cent. bonds, due April 1, 1900, interest April and Oct.....	600,000
Arkansas Central RR. 7 per cent. bonds, due April 1, 1900, interest April and Oct.....	1,350,000

The refunding bonds, Act of April 6, 1869, were issued in two series. One was dated July 1, 1869, and the bonds were numbered 1 to 1,000. These are printed in blue ink, and are recognized obligations (non-Holfords). The second series was dated January 1, 1870, bonds numbered from 1 to 2,050, and printed in red ink. Of this series Nos. 491 to 1,860, both inclusive, are the "Holfords."

Constitutional Limitations.—The State Constitution, adopted in 1874, prohibits the loaning of the credit of the State or of any political division of it for any purpose whatever; and prohibits the State from assuming or paying the debts or other liabilities of any county, town, city, or other corporation, unless such debt was created to repel invasion, suppress insurrection, or to provide for the public welfare. It also provides that no county, city, town, or other municipality shall ever issue any interest-bearing evidences of indebtedness, except such bonds as may be authorized by law to provide for and secure the payment of the present existing indebtedness, and that the State shall never issue any interest-bearing treasury warrant or scrip.

County Bonds.—County bonds may be issued in lieu of any outstanding bonds or coupons, or for the purpose of paying the county's portion of the indebtedness of any county or counties out of whose territory it may have been formed. Such bonds shall be payable in not less than five nor more than thirty years, bear interest at 6 per cent. per annum, payable on the 1st July each year, and must be for not less than \$25 per bond. A special tax must be levied by the county court to meet principal and interest of such bonds. Counties may also issue bonds to compromise or in lieu of indebtedness existing at the adoption of the present constitution, evidenced by bonds, judgments, or otherwise. Such bonds shall be payable in not less than twenty nor more than thirty years, and shall not exceed in amount 60 per cent. of such indebtedness. They shall have interest coupons attached, and be payable in the city of New York. The county court is required to levy a special tax for the payment of these bonds.

City and Town Bonds.—Bonds may be issued by cities and towns in extension of any indebtedness existing, and which, from the limit of taxation, such cities and towns are unable to pay at maturity. Such bonds must be for not less than \$50 each, run for not less than ten nor more than twenty years, and bear not exceeding 10 per cent. annual interest. A special tax is required to be levied to meet the payment of bonds so issued.

STATE OF CALIFORNIA.

History.—Purchased from Mexico, and admitted as a State Sept. 9, 1850. Area, 158,360 sq. m. Divided into 53 counties.

Sketch of the State Debt.—The Constitution of 1849 provided that no debt or liability should be created which singly or in the aggregate should exceed \$300,000, except in case of war, invasion, or insurrection, unless it be authorized by some law for a specific object, which shall provide for its payment, and shall have been submitted to the people and received a majority of all the votes cast. But notwithstanding this prohibition, there had been created prior to 1855 a debt, both funded and floating, amounting to several millions. In 1856 the Supreme Court declared null and void all of this debt in excess of the limit set by the Constitution, and in the following year an estimate was made of the outstanding indebtedness, and in April of that year a law passed the Legislature calling in the issues made under the acts passed between 1831 and 1856, and authorizing the issue in exchange therefor of \$3,400,000 7 p. c. bonds payable in 1877. This estimate fell short of the outstanding debt, and on April 30, 1860, an additional \$200,000 of bonds was authorized. The act authorizing the bonds provided a sinking fund for their payment by a tax of 80 cents on every \$100 of assessed value of real and personal property in the State, together with all money received by the State from the General Government on account of the civil fund. These provisions proved more than sufficient to discharge the whole of the debt before maturity. During the war three issues of bonds were floated—\$2,000,000 soldier bounty bonds on April 4, 1863; \$600,000 soldiers' relief bonds on April 27, 1863; and on April 4, 1864, an issue called live officers' relief bonds. The State Constitution, in addition to limiting the debt of the State, as before mentioned, forbids the loaning of the credit of the State, or of any county, city, township, or other political corporation or subdivision of the State, to any person, association, or corporation, and prohibits the creation of any debt by any county, city, town, township, board of education or school district, in any manner or for any purpose, exceeding in any year the revenue provided for it for that year, without a two-thirds vote in favor of such debt and unless provision is made for an annual tax sufficient to pay the interest and a sinking fund sufficient to discharge the principal at maturity, which must not exceed forty years from the time of contracting the debt.

Statement of funded debt, March 1, 1894:

Revenue Account for 2 years ending Nov. 30, 1892: Cash on hand Dec. 1, 1890, \$1,047,903.71; receipts, \$3,131,596.69; redemption of investment warrants, \$918,717.22; interest on investment warrants redeemed, \$54,042.92—total, \$5,151,660.54. Contra: Disbursements, \$3,287,516.26; warrants and bonds bought for investment, \$947,654.77; bonuses disbursed by County Treasurer, \$60,438.04; balance cash on hand Nov. 30, 1890, \$850,051.47.

Bonded debt, Dec. 1, 1892 (total, \$2,161,478) consisted of \$300,000 Capitol Building bonds, issued 1890, due Jan. 1, 1905, int. 3½ p. c.; \$300,000 Capitol Building bonds, issued 1891, due Jan. 1, 1907, int. 4 p. c. and \$1,561,478 6 p. c. Treasury warrants, principal and interest at various dates.

Sketch of State Debt.—The State Constitution prohibits the creation of any debt, "except to provide for casual deficiencies of revenue, erect public buildings for use of the State, suppress insurrection, defend the State, or assist in defending the United States." The debt contracted in any year to meet "casual deficiencies of revenue" is strictly limited to \$100,000; the debt on account of public buildings to \$300,000, and then only after receiving the sanction of a majority of the qualified voters of the State. The State assumed \$42,000 of Territorial debt in 1876. That debt was subsequently paid off. In 1877 the State began to issue "treasury warrants" and "certificates of indebtedness," and in 1881 "loco weed certificates" under the constitutional provision permitting the creation of debt to meet deficiencies of revenue, and has continued to increase the amount of that class of debt yearly down to the present time. There is a difference of opinion as to whether the amount outstanding has not gone beyond the constitutional limit; but it is probable that the question will be settled by the adoption of a constitutional amendment providing for the funding of the warrants. The amount in the hands of the public is comparatively small, only about one-third of

the total, the balance having been taken up and paid out of the school and other investment funds belonging to the State. The capital bonds were issued to provide means for building the State Capitol. There is provision for a tax levy sufficient to meet interest yearly and principal at maturity, the time of maturity being limited to fifteen years after date of issue.

Sketch of the State Debt.—The debt of Connecticut was created originally for war purposes. The first issue (\$2,000,000) was made July 1, 1861; others followed on Jan. 1, 1863, Jan. 1, 1864, Oct. 1, 1864, and Oct. 1, 1865. The aggregate being \$10,000,000. They were all 6 p. c. 20-yr. bonds, and according as they fell due they were renewed, at reduced rates of interest, by the present issues. The bonds are all for \$1,000 or \$10,000 each; interest payable at the State Treasury, Hartford, Ct.

Constitutional Limitation and Provisions.—The State Constitution, by an amendment adopted in 1877, prohibits the loaning of the credit of the State, or of any county, city, town, borough, or other municipality, to any railroad corporation, or making any donation to, or subscribing to, the capital stock of any such corporation; but this prohibition does not affect the validity of any bond or debt incurred under existing laws prior to the adoption of the amendment. The Revised Statutes provide that "when any town shall have made appropriations or incurred debts, or shall hereafter make appropriations or incur debts exceeding \$10,000, it may issue bonds, either registered or with coupons attached, or other obligations, payable at such times and at such annual rate of interest not exceeding 6 p. c., payable annually or semi-annually, as it shall determine." There is no such authority given to cities.

Sketch of State Debt.—About the first important issue of bonds made by the State was to pay for the construction of the Western and Atlantic RR., a State work. Aid was also voted to the Atlantic and Gulf R.R., and \$1,000,000 State bonds loaned for that purpose; but, as a general rule, the State was opposed to the principle of issuing bonds or lending its credit in aid of public improvement. Immediately after the war, however, a reckless policy of State aid to corporations was inaugurated, and an immense debt was heaped up in a few years; but by an amendment to the Constitution, adopted in May, 1877, certain bonds were declared invalid, and the debt reduced by about two-thirds—to \$10,644,500.

Constitutional Limitation.—The State Constitution adopted in Dec., 1877, prohibits the creation of any bonded indebtedness by or in behalf of the State, except to repel invasion, suppress insurrection, or defend the State in time of war, and limits the amount of floating debt which may be temporarily incurred in case of deficiency in the revenues to \$200,000.

* Fractional coupon payable Sept. 1, 1915.

Issues numbered 1 to 4, inclusive, and 10, 11, are payable on maturity at Park Bk., New York; issues numbered 5 to 7, inclusive, at 4th Nat. Bk., New York; issues numbered 12 to 29, inclusive, at Atlanta or New York; issues 8 and 9 at Atlanta. The bonds are for \$100 and multiples thereof. Interest on issue No. 29 payable April and Oct.; on all others, Jan. and July, at Nat. Park Bk., New York, and Atlanta, Ga. Coupons on all bonds are tax-receivable, and the bonds are tax free. Bonds and coupons are payable, at the option of the holder, either at the office of the City Treasurer, in Atlanta, or wherever in New York City the Treasurer may keep his account at the time of maturity. The city charter stipulates that \$9,500 be annually appropriated to the sinking fund for the retirement of bonds. Total amount of bonds issued by the municipality since its incorporation, \$4,056,700, of which \$1,062,700 bonds have been retired, leaving \$2,964,000 outstanding as above. City owns real estate, water-works, and other property, valued at about \$5,000,000. No default has ever been made in payment of obligations. Authority, J. H. Goldsmith, *City Comp.*

Augusta, Richmond Co.—Incorp. as a city, 1798. Pop., 1892, 41,667. Ass'd val., 1893—R., \$16,278,450; P., \$6,418,545—total, \$22,726,995. Tax rate per \$1,000—1893, \$12.50. Taxes other than city (State and county) aggregated (1893) 9.8 mills.

None of the above bonds are redeemable before maturity. Denomination of bonds: \$100, \$500 and \$1,000. Interest payable in Augusta. All coupons tax-receivable. No default has ever been made in payment of principal or interest of debt. City owns real estate valued at \$300,000, in addition to Augusta Canal valued at \$1,500,000 and water-works valued at \$500,000. The annual income from water rents (canal and water-works) is about \$40,000. It is expected that the water rents income, within two years, will pay all the interest on the city's debt. The sinking fund for the redemption of bonds has been dissolved, as city has sufficient assets to render the fund unnecessary. Authority, P. S. North, *Clerk of Council*.

Brunswick, Glynn Co.—Incorp. 1856. Pop., 1890, 8,459. Ass'd val., 1891, \$7,096,433. Tax rate per \$1,000—1890, \$12.50. Bonded debt, \$138,150; interest payable in New York or Brunswick. Sinking fund, \$1,000 annually.

Tax rate per \$1,000, 1892-93, \$7.50. Bonded debt, Jan. 1, 1891 (\$444,000 total, due 1894 to 1899, int. J. & J., and \$36,800 7s, 1896-7, int. A. & O.). \$480,000. Annual interest charge, \$24,776. Bonds are coupon, tax free, for \$100, \$500 and \$1,000 each; interest payable at Columbus. Coupons are receivable for taxes. No sinking fund. Value city property, \$325,000. Authority, M. M. Moore, *Clerk of Council*.

Macon, Bibb Co.—Incorp. town, 1824; city, 1833. Pop., 1890, 22,746. Ass'd val., 1893, R., \$9,236,615; P., \$6,516,375—total, \$15,832,990. Actual value is from 3½ p. c. to 50 p. c. more than assessed. Tax rate per \$1,000, 1892-90-91, \$12.50. Bonded debt, Jan. 1, 1894: \$545,800 30-yr. \$1,000, \$500, and \$100 coup. 6s of 1910, and \$20,000 Market House 21-yr. \$500 coup. 5s of 1918—total, \$565,800. Annual interest charge, \$33,748. Interest payable J. & A., J. & O. at City Treas. office or Cent. Georgia Bk. All bonds are tax free. A default was made in 1878. In 1880 a Bond Commission was authorized and the entire debt funded. The City Treas. is required to pay \$50,000 annually to this commission—\$32,748 for payment of coupons; the balance (\$17,252) is placed to account of sinking fund to be used for the purchase of bonds of the United States, State of Georgia, or cities of Macon, Savannah, Augusta, or Atlanta. The committee now holds in sinking fund, \$133,208, the entire issue of Market House bonds forming part. Cash assets of city about \$50,000. Est. value public buildings, \$108,000. Authority, A. R. Tinsley, *Treasurer*.

Rome, Floyd Co.—Incorp. town, 1890; city, 1840. Pop., 1890, 7,000. Ass'd val., 1893, R., \$3,500,000; P., \$1,600,000—total, \$5,100,000. Est. actual value, \$6,000,000. Tax rate per \$1,000—1893, \$12.50. Charter limited taxation to 1½ per cent. for all purposes. Bonded debt, July 1, 1894 (total, \$294,400) annual interest charge, \$20,780; \$54,600 Water-works 30-yr. 6s of 1909; \$173,900 RR. 20-yr. 8s of 1896; \$26,000 floating debt 30-yr. 6s of 1912. Bonds are coup. for \$100, \$500, and \$1,000 each; interest payable J. & J. at Bk. of N. America, New York, or at Rome. Coupons are tax receivable. Total amount of bonds issued by municipality since its incorporation, \$337,100; of which \$42,700 have been retired, leaving outstanding \$294,400. No bonds redeemable before maturity. City owns real estate valued at \$250,000; water-works valued at \$150,000; other property, \$100,000. Sinking fund \$5,000 annually. By act of Legis-

lature, no additional indebtedness can be created until present debt is paid. An adjustment of the city debt was effected in 1876, and since then no default has been made in payment of interest. Authority, M. A. Nevin, *Clerk City Council*.

Savannah, Chatham Co.—Incorp. 1789. Pop., 1890, 43,189. Ass'd val., 1893, R., \$22,563,488; P., \$10,675,495—total, \$33,238,983. Est. actual value, R., \$24,000,000; P., \$15,000,000—total, \$39,000,000. Tax rate per \$1,000—1893, net, \$13.50; gross, \$15.

Bonded debt, Jan. 1, 1893 (total, \$3,525,450), consisted of \$3,200,400 Compromise 30-yr. \$1,000, \$500, \$200, \$100 5s of 1909, int. F. M., A. & N.; \$318,450 Compromise 30-yr. \$1,000, \$500, \$50 5s of 1913, int. J., A., J., & O.; \$2,600 Atl. and Gulf indorsed bonds, including 30 p. c. \$4,000 old bonds outstanding.

Interest on bonds is payable in Savannah or at office of Engene Kelly & Co., New York, N. Y. Coupons are tax receivable. Default was made on interest Nov. 1, 1876, in consequence of yellow fever and non-collection of taxes, and a compromise effected whereby all the old 7 per cent. (excepting \$4,000) bonds have been exchanged for the present 5s, bearing tax-receivable coupons. Issue of 1879 was made to redeem old bonds outstanding; issue of 1883 to redeem Atlantic and Gulf RR. bonds indorsed by the city. The present laws prohibit any increase in the city's debt. Sinking fund: Issue of 1879 shall redeem \$10,000 for first five years; \$25,000 for second ten years, and \$40,000 for succeeding years. Issue of 1893 shall redeem \$6,000 per annum. Assets, Jan. 1, 1892, \$98,384; receipts for year 1892, \$849,874—total, \$948,258. Expenditures for year, \$908,356—balance on hand Jan. 1, 1893, \$39,902. The city water-works are valued at \$1,000,000. Authority, John J. McDonough, *Mayor*.

STATE OF IDAHO.

History.—Formed a portion of the Territory of Oregon up to March 3, 1863, when a separate territorial government was organized. When first organized it included portions of the previous Territories of Oregon, Washington, Utah, and Nebraska. In 1864 its boundaries were changed, and a part set off to Montana. Admitted as a State, July 3, 1890. Area, 84,290 square miles. Population, 1880, 32,610; 1890, 84,355. Divided into 18 counties—area and population (1890) and assessed valuation (1892) as follows:

Assessed valuation, 1880, real, \$2,297,526; personal, \$4,143,355—total, \$6,440,876; 1889, real, \$13,280,504; personal, \$10,386,675—total, \$23,667,179; 1890, real, \$15,195,003; personal, \$10,513,434—total, \$25,748,437; total, 1891 (estimated), \$23,000,000; 1892, \$31,160,066; 1893, \$33,431,841. Tax rate per \$1,000—in 1890, \$8.50; in 1891, \$6.50; 1892, 7.55; 1893, \$8.50.

Bonded debt, March 1, 1894 (total, \$393,000):

\$86,000 Capitol Building 6 per cent. 20-year bonds, due Jan. 1, 1905, int. Jan. & July.
10,000 Insane Asylum 6 per cent. bonds, dated Dec. 1, 1885, due \$5,000 yearly Dec. 1, 1894-5, int. June & Dec.
11,000 Wagon Road 6 per cent. 20-year bonds, due July 1, 1910, int. Jan. & July.
102,000 Funding 6 per cent. bonds, dated 1892 (no details).
6,000 Funding 6 per cent. bonds, dated 1892 (no details).
39,000 Wagon Road 6 per cent. bonds, dated 1892.
20,000 Wagon Road 5 per cent. bonds (no details).
135,000 Wagon Road 5 per cent. bonds, dated 1893, due 1913, subject to call after 1903.

The bonds are for \$1,000 each. Interest on Insane Asylum and Capitol Building bonds payable at the office of Kountze Bros. & Co., New York; on other bonds, at the office of the State Treasurer. There is a sinking fund for payment of interest and redemption of principal of the Capitol Building bonds, maintained by one-tenth of all State and County licenses and from the rents derived from the Capitol Building.

The State Constitution limits the total debt, except in case of war, invasion, or insurrection, to 1½ per cent. of assessed valuation, unless authorized by special law for some single specified work, such law (which must be submitted to the people and receive a majority of all the votes cast) to provide means other than loans for meeting annual interest and retiring principal within twenty years.

Indebtedness of Counties in the State of Idaho.

Constitutional Limitation.—The State Constitution provides: "No county, city, town, township, board of education, or school district, or other subdivision of the State, shall incur any indebtedness or liability" in any year exceeding the income provided for it for such year, without the assent of two-thirds of the qualified electors, and unless a tax is provided for sufficient to meet principal and interest as they become due.

Alturas.—Ass'd val., 1892, R., \$442,852; P., \$161,292—total, \$604,144. Tax rate per \$1,000, \$36.

Bonded debt, May 31, 1892 (total, \$331,000; annual interest, \$22,675):

\$40,000 Court-House & Jail 6s of 1873, due 1891. | \$227,000 Funding 7s of 1888, due \$22,700 yearly 1897 to 1906.
19,000 Funding 6½s, due \$1,900 yearly 1897 to 1906. | 45,000 Funding 7s of 1888, due \$4,500 yearly 1898 to 1907.

All bonds are coupon, for \$1,000 each, excepting the \$45,000 funding bonds, which are for \$500 each. Interest on 6½s paid annually in January at Hailey, Idaho; on all other issues J. & J. at Hailey or New York.

Floating debt: County warrants to meet current expenses, \$37,999.69; hospital, \$3,250; bridges, \$12,557.69—total, \$54,807.38. Total debt, \$385,807.38; annual interest, \$24,871.51. Cash on hand, \$19,218.52.

The County Commissioners levy a tax sufficient to meet principal and interest of bonds as they become due; this levy embracing all property of the county as constituted at the time of issue of the bonds.

Alturas County formerly included the counties of Elmore and Logan and a large portion of Bingham County. The division was made on Feb. 7, 1889. Nearly all of the before-described debt, both bonded and floating, was contracted before the division of the county. The bonds which had been previously issued pledged all of the property of "old" Alturas County for the payment of the debt, but the division act failed to make any provision to enforce this requirement against the new counties; and this omission for various causes has never been corrected. The amount of taxable property of "old" Alturas County is about \$4,000,000, of which the present county of Alturas has only about \$600,000. An apportionment of the debt on the basis of the present assessments of the counties involved would give to Alturas County about \$50,000 of the bonded debt and about \$32,500 of the floating debt.

The holders of the Court-House bonds have not yet commenced action to enforce the collection of the principal of their bonds, preferring to wait for legislative action; but a suit has been commenced in the U. S. Circuit Court to enforce the collection of some \$35,000 of overdue interest on the funding bonds. This suit will test the validity of the bonds, as well as the character and extent of the security. Authority, I. W. Garrett, *County Auditor*. COUNTY SEAT, Hailey.

Bingham.—Ass'd val., 1892, R., \$1,556,430; P., \$2,564,521—total, \$4,120,951. Tax rate per \$1,000, \$30. Bonded debt, Nov. 7, 1892: \$142,000 (\$15,000 Court-House 8s; \$70,000 funding 8s, and \$57,000 funding 7s) bonds, payable \$5,000 yrlly. from Jan. 1, 1894, & Jan. 1, 1895, and \$10,000 yrlly. thereafter. For additional information, see ALTAIR COUNTY. Floating debt, 90,066. Cash in county treasury, \$49,123. Est. value county property, \$85,000. Sinking fund, \$15,056. H. W. Chris, *County Treasurer*. COUNTY SEAT, Blackfoot.

Kootenai.—Ass'd val., 1893, real, \$605,541; personal, \$1,873,564—total, \$2,479,105. Estimated actual value, \$3,775,000. Tax rate per \$1,000: State, and County, \$28. J. & J.: \$80,000 6 p. c. funding loans, due 10 p. c. yrlly. from May 2, 1902, int. J. & J.—total, \$18,000. Floating debt, \$25,852. Total debt, \$133,852. Sinking fund, \$15,756. Interest on 7 p. c. and 8 p. c. bonds payable at the office of the County Treasurer and at the Chemical National Bank, New York, and on the 6 p. c. bonds at the office of Kountze Bros., New York. Frank O. Hill, *County Treasurer*. COUNTY SEAT, Rathdrum.

Shoshone.—Ass'd val., 1893, R., \$1,525,017; P., \$358,086—total, \$1,883,103. Tax rate per \$1,000, \$34.50. Bonded debt, \$280,000 7s, due \$28,000 yearly, 1902 to 1911. Authority, F. F. Johnson, *County Treasurer*. COUNTY SEAT, Murray.

Indebtedness of Towns in the State of Idaho.

Moscow, Latah Co.—Incorp. Pop., 1,900, 2,861. Ass'd val., 1893, \$1,379,060. Ass'd val. is about 60 p. c. of actual. Average school tax, \$12. Bonded debt, Jan., 1894: \$41,000 water bonds, of which \$16,000 7s are due Nov. 1, 1909, int. Nov., and \$25,000 6s, due Oct. 15, 1911, int. J. & J.; \$15,000 Funding 6s of Oct. 15, 1911, int. J. & J.; and \$43,000 City 6s of 1913, \$8,000 of which are due July 1, 1913, int. J. & J., and \$35,000 of which no particulars reported—total, \$99,000. Interest on funding bonds payable at Chemical Nat. Bk., New York, and on water bonds, at Importers' and Traders' Nat. Bk., New York. No further information. Authority, J. H. Maguire, *Mayor*.

STATE OF ILLINOIS.

History.—In 1809 Illinois Territory was organized, comprising the present States of Illinois and Wisconsin, and part of Minnesota. Bonded debt.—There are only \$18,500 bonds outstanding, and these have ceased to bear interest, having been called in by proclamation. Bonds were issued as early as 1837, for internal improvements, etc., but they became such a drag on the credit of the State (default having been made in 1841 on the \$15,000,000 or so of them issued) that in 1848 a new constitution was framed which prohibited the creation of any future debt in excess of \$50,000, except in case of invasion or rebellion, and prohibited the loaning of the credit of the State to any individual, association, or

corporation; also providing for the extinguishment of the debt by a special tax levy. By the constitution of 1870 the aggregate debt which may be raised ("to meet the casual deficits and failures of revenue") is increased to \$250,000.

Illinois Central Railroad Fund—Report of Gross Earnings and Payments to the State. The charter of the Illinois Central RR. Co. exempts it from taxation, but requires a payment to the State of 7 p. c. of the gross receipts of the original railroad, 705.50 miles.

The following figures will show the amount of gross earnings of the Illinois Central Railroad, and the amount of five and seven per cent. thereon, paid into the State Treasury for each six months, beginning with the first report and payment, and embracing all subsequent semi-annual reports and payments which have been made by said company up to April 30, 1892:

Interest on bonds held by the Purdue University and on the State University (Bloomington) bonds payable at the State Treasury; principal and interest, the rest of the bonds ("foreign debt"), chiefly held in New York, payable by Winslow, Lanier & Co., New York, N. Y. The foregoing statement does not include the Wabash and Erie Canal debt (\$6,522,475), regarding the State's liability for which there is an important legal question. The State relinquished the canal to the bondholders in consideration of their claim, and regarded the transfer as a final settlement.

Constitutional Limitation.—The constitution prohibits the creation of any debt by the State except "to meet casual deficits in the revenue; to pay interest on the State debt; to repel invasion, suppress insurrection, or if hostilities be threatened, provide for the public defence." It also prohibits the assumption by the State of the debts of any municipality or corporation.

Interest on bonds is payable at office of Winslow, Lanier & Co., New York. A special tax of 4½ p. c., as authorized by Act of Legislature, has been levied and will be applied to the payment of \$15,000 bonds due in 1894. The city holds \$500,000 of bonds of the Union RR., Transfer and Stock Yards Co., which fall due one month previous to the date upon which the bonds issued by the city in aid of that company mature. Authority, P. C. Trusler, *City Comptroller*, who states: "Indianapolis has a less debt than any city in the Union of her class, measured by the value of her taxables. She has never defaulted in her obligations, except in the attempt to refund this issue of bonds July 1, 1893. The facts are well known, and the intention of the then city authorities to provide for these bonds cannot be questioned. An arrangement was made by which these bonds should be held until July 1, 1894, the city having the right to take up said bonds at any time after June, 1894, by giving 30 days' notice. These bonds were refunded Mar. 1, 1894, 30 years 4 p. c., for which a premium of \$10,187.50 was received."

Interest payable at Nat. Park Bank, New York, and at the City Treasurer's office in Council Bluffs.

"The special bonds do not in any sense come under the 5 p. c. constitutional limit, their issue being in anticipation of a special levy authorized by law, and being so issued the bondholders may compel the city to make a three-mill levy, and as long as the annual interest on these bonds does not exceed the proceeds of a three-mill levy, there can be no question as to their legality and perfect safety." To secure the "special assessment bonds," property certificates have been issued and are held in trust for the benefit of the bondholders. No default has ever been made in payment of interest or principal of any debt, as there is a reserve fund to meet maturing bonds. Authority, N. D. Lawrence, Mayor.

New School Bond to Board of Education....	March 11, 1892		6	½ yearly	666,650	36,399

The State and County School bonds, above recited, are not, strictly speaking, a debt of the State. They are irredeemable; the fund is inviolate; and the 6 per cent. semi-annual interest drawn by these bonds is provided for out of the five cents of revenue placed to the credit of the sinking fund annually. There are also outstanding, in addition to the before-described bonds, \$394 old railroad scrip, past due, \$5,000 of the old 30-year issue of 1835, past due over 25 years; \$1,000 of an old issue made from April, 1841, to April, 1846, also long past due. These \$6,394 bonds have not been heard from in many years, and are supposed to be lost or destroyed. They can hardly be considered as part of the present bonded debt of the State. The military bonds were issued from Aug., 1864, to Jan., 1866. The Agricultural and Mechanical College at Lexington holds \$165,000 of them; the balance is held by other parties. Interest on military bonds payable at the State Treasury, Frankfort, Ky., and in New York City; on the certificates of indebtedness at the United States National Bank, New York.

Sinking fund resources: Balance in Treasury June 30, 1893, \$161,068.91; stock in Bank of Louisville, 406 shares, valued at \$40,600; stock in turnpike roads, \$500,000—total estimated resources June 30, 1893, \$701,668.91.

In addition to the above described funded debt there are also outstanding, \$334,000 of contingent funded debt, for L. & N. RR. Co., representing \$333,000 city bonds, issued for account of Lebanon Br. Ext., due Oct. 15, 1893, and one \$1,000 bond, due April 1, 1887. All bonds are coupon and of the denomination of \$1,000, excepting \$495,000 of Municipal Improvement \$500 4s of 1923, and \$100,000 \$100 4s of 1923, and tax free except State. The total amount of bonds issued by the city since its incorporation is \$18,000,000; of which there have been retired \$8,788,000—leaving outstanding Dec. 31, 1892, as above, \$9,212,000. The city owns real estate estimated to be worth \$3,250,000; also an extensive water works system which may be fairly estimated at from \$4,000,000 to \$5,000,000. The city is also interested as a shareholder, to the extent of \$900,950, in the gas works. Sinking fund: The sinking fund tax proper amounts to 4 mills. There is also a bond interest tax of ½ mill and a railroad tax of 1½ mills accruing to the sinking fund for the purpose of paying principal and interest on city bonds and bonds issued for railroad purposes.

Sinking fund assets.—Cash, \$26,736; bills receivable (note of city of Louisville), \$50,000; city bonds (5 p. c.) \$411,000; 4 p. c., \$173,500; 6 p. c., \$57,000; \$641,500; stock, Louisville Water Co., \$1,274,600; sinking fund tax, (1885 to 1892, both years inclusive), \$134,201—total assets, \$2,127,037. Authority, Henry S. Tyler, *Mayor*.

Mayssville, Mason Co.—Incorp. Pop., 1892, 7,379. Ass'd val. (R. & P.), 1890, \$2,370,679. Estimate of actual valuation, about \$5,000,000. Tax rate per \$1,000 (State and county, \$.75; city, \$12.50), \$.20.

Interest on bonds is payable at B'k of Mayssville. Authority, William H. Cox, *Mayor*.

Middlesborough, Bell Co.—Incorp. May 13, 1890. Pop., 1892 (school census), 4,693. Ass'd val. (real), 1891, \$3,493,000. Tax rate per \$1,000, \$.15. Bonded debt, 1893: \$150,000 general improvement 30 yr., \$1,000 6s of 1921, interest A. & O. 1, at office of N. W. Harris & Co., New York. The law "requires the levy of sufficient tax to pay interest on public debt and the creation of a sinking fund for its extinction." Unfunded debt, about \$75,000. Total outstanding indebtedness, \$225,000; annual interest charge, \$15,000. Assets, Oct. 1, 1892: School-houses, \$21,000; city hall, \$18,000; fire department, \$3,550; past due taxes, \$60,000—total assets, \$108,550. A new city charter, made to conform to the new State Constitution, is now before the Legislature for enactment. It limits the indebtedness which a city may contract to 5 p. c. of its assessed valuation. No default has ever been made in payment of obligations. Authority, D. E. McDowell, *Mayor*.

Newport, Campbell Co.—Pop., 1890, 24,918. Ass'd val., 1893 (R. & P.), about \$9,000,000. Tax rate per \$1,000—1890, \$.26.70.

Statement of bonded debt, May 14, 1894:

Consolidated bonds issued under Act 3 of 1874, \$12,124,700; less (retired under Act 121 of 1880, \$290,200; Agricultural and Mechanical College bonds, cancelled by Article 233, Constitution, \$196,200; Louisiana State University or Seminary Fund bonds, cancelled by Article 232 of Constitution, \$82,200; exchanged under Act 65 of 1892, \$11,425,100), \$11,993,700—leaving consolidated bonds outstanding to be exchanged, \$131,000; consolidated bonds issued in lieu of consolidated bonds at 75 p. c., Act 121 of 1880, \$217,600; new consols in exchange for consols, Act 65 of 1892, \$11,425,100—total 4 p. c. bonded debt, \$11,773,700. Add fractional certificates, \$464.39—total, \$11,774,164.39. Less retired by Board of Liquidation, \$502,000—net bonded debt, May 14, 1894, \$11,262,164.39.

Total debt May 14, 1894—Interest bearing bonds (as above), \$11,773,700; floating debt (interest coupons from Jan., 1874, to July, 1879, \$483,183; baby bonds and certificates (Act of 1880), exclusive of coupons, \$1,251,472; warrants, \$318,116), \$2,082,771—total debt, \$13,856,471.

The three issues of bonds all bear 4 p. c. interest; mature Jan. 1, 1914, interest Jan. and July, at office of Winslow, Lanier & Co., New York, N. Y., and Whitney National Bank, New Orleans, La.

The Act of 1892 provides for the exchange of newly printed and engraved bonds of the State for valid outstanding consols. These new bonds bear the same rate of interest as the others, and mature same date as the old bonds. Interest payable in New York, New Orleans, and Baton Rouge. The object of the act was to exclude from circulation certain bonds that had been fraudulently issued, and to provide a bond free on alterations stamped thereon—the consols of 1874 being 7s, but stamped 4 p. c.

Under the Finding Act of 1873 the various bonds then existing were converted into new 7 p. c. bonds at 60 p. c. of their face value. The total recognized bonded debt Jan. 1, 1874, was \$22,430,800; total amount refunded Jan. 1, 1879, \$17,971,700, and the total amount then outstanding, \$4,459,100. But of the outstanding bonds only \$488,100 were fundable. The aggregate amount funded to Jan. 1, 1879, including general fund warrants, interest warrants, past due coupons detached from old bonds, and Consolidated Planters' Association bonds, is placed at \$19,550,122.85, and the amount outstanding at \$4,547,820.92. Of the aggregate of the outstanding debt only \$676,820.92 was fundable, the remainder having been declared not fundable. A Constitutional Convention was held in 1879, at which a resolution was adopted instructing the State officers not to pay the July, 1879, interest until ordered to do so by the Convention. A majority report of the committee made the debt as it existed on Jan. 1, 1879, \$3,163,313, and provided for 4 p. c. bonds payable in 30 years, the existing accepted bonds to be exchanged on or before Jan. 1, 1882. The minority report declared the debt as shown to exist a valid obligation to remain inviolate, but that the interest shall be reduced to 3 p. c. for 5 years from Jan. 1, 1880, and be 4 p. c. thereafter—the 54 mill tax to be reduced to 3 mills. Both reports were rejected; but on July 1 the Convention adopted a substitute for the minority report, recognizing the State debt as constituted under the Funding Act, but reducing the interest to 2 p. c. for 5 years, 3 p. c. for 15 years, thereafter 4 p. c.—the first coupon to be paid July 1, 1880. In June, 1882, a constitutional amendment passed the Legislature, and was confirmed at the election in April, 1884, giving 4 p. c. interest after Jan., 1885, and nullifying the 15-year 3 p. c. provision.

Debts Created Prior to 1880, for which no Authority Exists for Liquidation: The auditor's warrants issued under Act 126 of 1880 provided for the liquidation of all valid school certificates of indebtedness issued by the School Board of the city of New Orleans and by the parish boards throughout the State for portion of salaries, etc., prior to 1880. There are now outstanding \$87,191.01 of these warrants. As these warrants are payable only out of school and general fund taxes and licenses due the State prior to the year 1879, and not receivable for taxes due prior to 1879 until after the baby bonds in principal and interest have been provided for, they are a claim against the uncollected taxes of the years prior to 1880. Under Act 93 of 1880, certificates to the amount of \$281,791.64 were issued. Deducting therefrom the amount retired, viz., \$233,081.56, it leaves outstanding \$48,710.08. These certificates were issued for costs, fees, etc., due the officers of the State who rendered services in the prosecution of tax and license suits prior to 1879, and having been made receivable for taxes and licenses due the State prior to 1880, are more properly a claim against those years than against the State. Of warrants issued on the revenues of 1875 and previous years, and drawn prior to 1880, which, under Act 104 of 1880, were convertible into baby bonds, there are outstanding \$16,396.65. These warrants not having been presented to the Funding or "Baby" Bond Board before it became *functus officio*, are in the position of those drawn since Jan., —, 1880, against 1873 and previous years, of which there are \$4,605.75 outstanding.

Five Dollar or "Baby" Bonds.—In accordance with the provisions of the constitutional ordinance for the relief of delinquent taxpayers, the Legislature, by Act 104 of 1880, created the Funding Board, whose duties were to fund all valid auditor's warrants which were to be declared fundable by the constitutional ordinance, and such obligations of public institutions as provided for in State ordinance, in bonds of the denomination of \$5 and coupons attached thereto, at the rate of 3 p. c. per annum, interest from Jan. 1, 1880, and payable Jan. 1, 1886, or sooner, at the pleasure of the State. These bonds were issued for the following purposes: Judgments (hospital, A. & M. College, asylum, etc.), \$224,627.56; warrants, \$1,156,669.95—total, \$1,381,297.52. Of this issue there are yet outstanding \$1,281,472.52 unpaid and unprovided for. There were some \$424,000 of baby bonds illegally issued and placed on the market.

The 4s, issued under Act of 1892, are listed on the New York Stock Exchange.

Receipts and Disbursements, year ending Dec. 31, 1893.—Receipts, including balance, Jan. 1, 1893, \$4,999,995.47. Expenditures, \$3,752,731.61. Balance, Dec. 31, 1893, \$1,247,263.86.

New Orleans, Orleans Parish.—Incorp. 1804. Pop., 1890, 242,039. Ass'd val., 1893, R., \$92,060,460; P., \$41,916,647—total, \$136,977,107. Average tax rate per \$1,000, \$20.

Statement of funded debt, April 1, 1894 (total, \$15,258,560; annual interest charge, \$473,401.50):

\$4,503,100 Extended 6s of 1882, due Jan. 1, 1895.	\$117,000 gold 7s, due July 1, 1922, int. Jan. & July.
352,450 7s of 1870, due Jan. 1, 1895, int. J. & D.	4,140,000 Constitut. 4s, of July 1, 1942, int. Jan. & July,

10,000 Street Impt. 7 ³⁰ / ₁₀₀ s, due Aug. 1, 1911, in Feb. & Aug.	

The annual interest charge (\$473,401.50) includes 8 p. c. interest only on \$45,000 Carrollton Gas Co. bonds amounting to \$3,600.

The 4 p. c. constitutional bonds are dated July 1, 1892, due July 1, 1942; are for \$500 and \$1,000 each; interest payable Jan. 1 and July 1, in New Orleans, La., and New York, N. Y. These bonds were issued for the purpose of refunding the present outstanding bonded debt, other than premium bonds, into a uniform 4 p. c. interest bearing bond. Payment of principal and interest of these bonds and of the premium bonds is provided for by a special 1 p. c. tax upon all the property in the city of New Orleans, real and personal, and is a contract right of the bondholders. The \$4,140,000 outstanding (see above) were issued in exchange for the following bonds: Consols of July 1, 1892, \$488,000; consols of Aug. 1, 1892, \$10,000; certificate bonds, due Jan. 1, 1893, \$1,071,000; judgment bonds (called before maturity), \$1,100,000; Gaines judgment (fundable by law into judgment bonds), \$931,000; 7 p. c. bonds, due Mar. 1, 1894—total, \$4,140,000. The premium bonds are for \$20 each, payable to bearer, and bear 5 p. c. interest from July 15,

1875. Each bond increases in value 50 cents semi-annually, until the 50th year, when they represent in principal and interest \$70 each. The bonds are divided into series of 100 bonds each, and drawn for every Jan., April, July, and Oct.

The sinking fund till the year 1925 will average \$304,960 annually, to pay the principal of \$6,125,960 of premium bonds, now extant, which are payable before any of the constitutional bonds can be called for redemption. After that date \$500,000 of the constitutional bonds will be redeemed annually till 1937, and from the year 1937 till the maturity of the bonds, July 1, 1942, \$700,000 will be redeemed annually, which will extinguish the entire bonded debt of the city.

The assessment provision for the protection of the bondholders reads: "In case the said city at any time shall fail or neglect to levy and collect said special tax, or in case the municipal government of the city should be abolished, or in case present territory of the city of New Orleans should be transferred to other municipal corporations, and no proper and efficient provision is made by law to compel those municipal governments to levy and collect said special annual tax of 1 p. c., or in case said municipal corporations refuse or neglect to exercise to this end a proper and efficient taxing power bestowed upon them, then, in any of these events, the said Board of Liquidation shall itself by proper resolution have power to levy said tax and to collect the same; and in said levy and collection to use any and all machinery, rights, powers, and authority established by the State for the levy and collection of the State taxes, and in case it should become necessary under the above mentioned or similar circumstances for the said Board of Liquidation to levy and collect said tax, and said board should refuse or neglect to do so, any court of competent jurisdiction shall on application of any bondholder have power to decree the levy of said special tax throughout said territory, and to have the same collected by the sheriff or executive officer of the court, and the proceeds applied to the payment of the interest and principal of said bonds. In case any such decree is entered the sheriff or executive officer of the court shall have all the powers, rights and authority granted by law by the State to her own tax collectors." The rate of taxation is 2 p. c., 1 p. c. for the bondholder, 1 p. c. for the city's alimony. Authority, Chas. R. Kennedy, *Comptroller*.

At the close of the fiscal year there were still outstanding—\$1 of the Maryland State Loan, issued per chapter 366 of 1872; £1,500 of the sterling loan issued per chapters 386 and 396 of 1883; \$50 of State currency loan, issued per chapter 323 of 1839; \$1,448.99 of the State currency loan, issued per chapter 20 of 1839.

As an offset to the debt of \$8,684,986.24 described in the foregoing table, the State holds the following named bonds and stocks on which interest and dividends have been promptly paid (except that due July 1, 1893, on the bonds of the Susquehanna and Tidewater Canal Co., said company being in receiver's hands) to wit: Stock in Washington Branch B. & O. R.R. Co., \$550,000; stock in Farmers' National Bank of Annapolis, \$46,470; stock in Annapolis Water Co., \$90,000; bonds of Northern Central Ry. Co., \$1,500,000; bonds of the Susquehanna and Tidewater Canal Co., \$1,000,000; mtge. of John R. Smith, \$25,000; stocks and bonds to credit of the sinking funds, \$2,873,944.43—total, \$6,025,414.43. Net debt after productive stocks and bonds held by the State and the sinking funds are deducted, \$2,659,571.81. For this balance of \$2,659,571.81, the State has as an offset her unproductive stocks, amounting to \$7,110,629.93, and \$677,117.51, due from accounting officers and incorporated institutions.

There are but two loans for which a tax, aggregating 5½ cents on the one hundred dollars, is provided, to wit: the defence and redemption loan, for which a tax of 5½ cents is imposed, and the exchange loan, for which a tax of ¼ of 1 c. is imposed. The interest on the rest of the State's indebtedness is provided for by revenues coming into the treasury from other sources than direct taxation. Interest payable at the Farmers and Merchants' Bank, Baltimore, Md.

Battle Creek. Calhoun Co.—Incorp. city, Feb. 25, 1859. Pop., 1890, 13,197; 1892, 15,000. Ass'd val., 1892, R., \$3,492,805; P., \$885,370—total, \$4,378,175. Tax rate per \$1,000—1891, \$27.37.

Bonded debt, Feb. 1, 1893: \$30,000 RR. 8s, due \$9,000 yearly in Aug., 1893-94-95-96, int. F. & A. 15, at Nat. Park Bk., New York; \$10,000 Sewer 5s of May 1, 1907, int. M. & N. in New York, N. Y.; \$100,000 Water Works 4½s, issued in 1887, due \$10,000 annually, Aug. 1, 1897, to Aug. 1, 1909, int. F. & A., at Detroit, Mich.—total, \$146,000.

All bonds are coupon; denominations \$500 and \$1,000 each. The city issued two series of 10 p. c. bonds under authority of State law in aid of the Peninsula RR., one of \$35,000 and the other of \$50,000. Interest was paid until the decision was rendered in the Salem township case, declaring the law unconstitutional. Upon appeal of that case to the U. S. Supreme Court the bonds were sustained, but pending this decision no interest or principal on its RR. bonds was paid by the city. The \$36,000 RR. bonds now outstanding were issued to take up the accumulated principal and interest; the remainder of the old bonds have since been paid. The Water Works bonds were issued under charter—Act of Legislature of 1887. Authority, J. S. Cox, *Mayor*.

Bonded debt, August 1, 1893 (total, \$2,009,000; annual interest charge, \$74,555):

\$1,659,000 3½ p. c. 30-year funded bonds, due July 1, 1921, int. Jan. and July.

206,000 4 p. c. State revenue bonds, dated 1889, due 1897 or before, int. yearly, July 1.

150,000 4 p. c. State building bonds, dated 1889, due 1897, interest yearly July 1.

The several State funds held all of the State revenue and State building bonds and \$554,000 of the funding bonds leaving only \$1,200,000 of the last-named bonds in the hands of the public. Interest on the two issues of 4 p. c. bonds payable at the State Treasury, St. Paul, Minn.: on the funding bonds, at the office of Blair & Co., 33 Wall Street, New York City. The funding bonds were issued in place of 4½ p. c. Railroad adjustment bonds, which were called in. They are subject to call after July 1, 1897, the yearly limit, however, being \$150,000. The State revenue and State building bonds are subject to call at any time.

Sketch of the State Debt.—The debt of Minnesota was originally created for the purpose of aiding in the construction of railroads. The State constitution adopted October 13, 1857, contained restrictions against the contraction of a public debt, but in 1858 an amendment was passed by the Legislature, and approved by the people, providing for an issue of bonds to aid certain railroad companies. At the close of 1859, when the debt amounted to \$2,275,000, the issuance of bonds was stopped, and as a result work on the railroads ceased. The companies defaulted in payment of interest, and the State foreclosed on its securities and took possession of the railroads and of five million acres of land which Congress had granted for the construction of them. The people of Minnesota in 1860, and several times subsequently, refused to recognize the railroad debt, but in 1881 a compromise was effected under which the State issued \$4,305,000 4½ per cent. "Minnesota State Railroad Adjustment Bonds" in full settlement of the old debt and interest. These adjustment bonds were gradually paid off down to 1891, when the amount of \$1,754,000 then remaining was refunded at 3½ per cent. and the payment of principal extended to 1921.

Constitutional Limitations and Provisions.—The Constitution limits the debt of the State to \$25,000,000, "for the purpose of defraying extraordinary expenses," but such debts must be authorized by law, for some special purpose, and provision must be made in the law for a tax levy sufficient to pay the interest yearly and the principal within ten years. By amendment, adopted November 15, 1872, additional bonds to an amount not exceeding \$250,000, payable in not less than ten years nor more than thirty years, are authorized for the erection or completion of certain public buildings. Any county, town, or incorporated city or village is authorized to issue bonds to an amount not exceeding, with outstanding indebtedness, 5 p. c. of its assessed valuation, for the purpose of aiding in the construction of railroads, and the municipality issuing such bonds is entitled to receive an equal amount of the capital stock of the company aided. Cities may issue bonds to an amount not exceeding \$15,000 (an amount in excess of that limit must be authorized by a two-thirds vote) to pay any city indebtedness, the bonds to bear not exceeding 10 p. c. interest, and to run for not more than ten years. Provision must be made for a tax levy of one mill on the dollar for each \$1,000 of bonds so issued to pay interest yearly and the principal at maturity. Organized townships may issue bonds in such amounts and for such periods, not exceeding six years, as they may be directed by two-thirds of all legal voters voting at a legally called town meeting, held for that purpose, such bonds to bear interest not exceeding 2 p. c. per annum, payable annually. A tax must be levied yearly sufficient to pay interest as it accrues, and to provide for the payment of principal at maturity.

Bonds, except refunding, are coupon for \$1,000 and \$500 each. Interest on school district 7s, payable by L. C. Newstadt, Quincy, Ill.; on 5s of 1897, at Nat. Park Bank, New York; on 5s of 1904 by Farson, Leach & Co., New York; on Lakeside general fund bond at Duluth; on all others at Am. Exch. Nat. Bank, New York. The water and light bonds are a first lien upon all structures and appliances owned and purchased by the city, and are not considered as part of the general debt of the city. The School Board has a sinking fund amounting to \$49,824. The refunding bonds are not strictly a liability of the city, as they were issued by the village of Duluth under a special act of the Legislature which provides that the County Commissioners of St. Louis County shall levy a special tax to pay the interest on them and provide a sinking fund to meet them at maturity. The city's debt is limited by charter to 5 p. c. of assessed valuation. The suburb known as Lakeside was annexed to the city on Jan. 1, 1893, and West Duluth will be on Jan. 1, 1895. No default has ever been made in payment of obligations. Authority, W. G. Teubrock, *City Compt.*

The Old City Hall bonds, the water-works & sewer 8s, RR. aid 7s of 1901 are for \$500 each: the RR. aid 7s of Nov. 15, 1897, are for \$500 and \$1,000 each; all others are for \$1,000 each. By act of Legislature the City Council are obliged to levy a tax on all taxable property sufficient to pay interest upon all the bonds or debt, and an additional tax of one mill on a dollar of assessed valuation, to provide for the principal on maturity, and in order to provide for the certain payments of the bonds and debts of the city, the City Council is authorized to maintain the sinking fund already established, and to provide by ordinance for the care, investment, and security thereof, and from time to time to amend such ordinances in such manner as may be necessary or expedient, but shall have no authority to abolish such sinking fund until all the debts of the city are fully paid, nor shall it divert such fund or any revenue or increase thereof to any other purpose. "The substantial maintenance of the provisions of this and the preceding section, for the payment of the principal and interest of the bonds or debt of said city, is hereby declared to be part of the contract with the holder of any bonds of the city that may hereafter be issued and shall be kept inviolate."—*City Charter*, chapter 5, §§ 13, 14.

"SECTION 1. That the Mayor, Comptroller, and Treasurer of the city of Minneapolis, and their successors in office, be and hereby are appointed a Board of Sinking Fund Commissioners, for the purpose of taking charge of, controlling, and directing the investment and disbursement of the sinking funds appropriated or hereafter to be appropriated to the extinguishment of the debt of said city or either of the divisions thereof."

BOND LIMIT.—The city of Minneapolis is restricted in all legislative acts authorizing the issue and sale of bonds, and is required to keep within the following limit:

"From the total issue of all city bonds shall be deducted the total amount of funds and accretions in the sinking fund, and this balance shall not exceed five (5) p. c. of the aggregate value of the taxable property of the city as assessed and determined for the purpose of taxation."

Total State debt Jan. 1, 1893, \$3,313,715.

Sketch of State Debt.—In 1829 the State of Mississippi chartered the Planters' Bank, with a capital of \$4,000,000, of which the State took \$2,000,000, paying for it in 6 p. c. State bonds. In 1833 a subscription of \$5,000,000 in 5 p. c. bonds was made to the Union Bank. Interest was paid on these bonds to Nov. 1, 1840; but since then not a dollar of principal or interest has been paid. In 1842 the Legislature repudiated the entire debt. The State courts have affirmed the constitutionality of the issuance of these bonds, and declared that they are binding obliga-

tions on the State. In 1753 the people voted against their payment, and in 1775, the new constitution then ratified, prohibited the payment or assumption of them by the State. By treaty of Oct. 20, 1832, the Chickasaw Indians ceded to the United States all their lands in Mississippi, embracing 6,253,804 acres, and Congress granted to the State one thirty-sixth part of the lands ceded, in lieu of lands previously reserved for school purposes. The proceeds of these lands, amounting, Jan. 1, 1893, as shown before, to \$850,101.37, are held in trust by the State, and draw 7 p. c. interest, which is distributed semi-annually among the counties entitled to it. In 1890 the Legislature authorized the Treasurer to issue \$500,000 4 p. c. bonds, but instead of doing so he called in and paid off all the 5 p. c. bonds of 1895.

Under the acts authorizing the 6s and 4s, provision is made for a tax levy sufficient to meet yearly interest and to pay principal at maturity. Interest on bonds payable at the State Treasury, Jackson, Miss.

Sketch of the State Debt.—In 1837, the Legislature authorized the first issue of State bonds, \$2,500,000 5½s, to pay a subscription to that amount to the capital of the State bank. Owing to the financial stringency of the period only about \$263,000 of the bonds were marketed, and in 1839 the Legislature recalled this issue and authorized another bearing 6 p. c. interest, which the bank was required to take in full payment of the State stock. This issue was also recalled after only about \$139,000 of the bonds had been sold. In Jan., 1853, an issue of \$7,000,000 bonds was authorized to aid in the construction of the Pacific Railroad of Missouri, and bonds aggregating \$17,950,000 were authorized in aid of the Hannibal and St. Joseph, the St. Louis and Iron Mountain, the Cairo and Fulton, the North Missouri, the Platte County, and the Southwestern Branch of the Pacific Railroad. The financial crisis of 1857 put a stop to the construction of the railroads, and the Legislature suspended the further issue of bonds until 1859. In July, 1857, there were outstanding \$15,310,000 railroad aid bonds, and about \$802,000 of the old bank and other bonds. On Jan. 1, 1859, the total debt amounted to \$19,658,000, and against that amount the State held assets of the value of \$23,760,000. After the close of the civil war, when a reorganization of the government had been effected, a constitutional amendment was adopted providing for the liquidation of the debt, and in accordance with that amendment a funding act was passed providing for the funding of the debt with interest to Jan. 1, 1868, the total amount equaling \$30,298,050, less \$5,000,000 paid the State on the purchase of the Pacific Railroad, and about \$200,000 paid by the banks. Under this act the debt of the State has been reduced to the amount shown in the bond statement. The bonds are all for \$1,000 each; interest payable at American Exchange Nat. Bk., New York.

Constitutional Limitations and Provisions.—The present State Constitution, adopted Nov. 30, 1875, requires that at least \$250,000 of the bonded debt of the State be paid each year. It prohibits the loaning of the credit of the State or of any political corporation or subdivision of it to any person, association, or corporation, municipal or otherwise, or to any college or other institution, whether created for or to be controlled by the State or others. The General Assembly has no power to contract any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness, except to renew existing bonds, when they cannot be paid at maturity; to incur a debt of not exceeding \$250,000 for any one year, payable in not more than two years, in case of an emergency, the Governor recommending; and when in an emergency the temporary liabilities of the State shall exceed \$250,000 for any one year the General Assembly may submit to the vote of the people, at an election called for that purpose, an act providing for a loan, accompanied by a provision for a tax sufficient to pay the interest as it accrues and the principal within thirteen years. A two-thirds majority of the votes is required to ratify such act, and when ratified it shall be irrevocable until the debt is fully paid. No county, city, town, township, school district, or political corporation or subdivision, shall create any debt to an amount exceeding in any one year the income provided for that year without the sanction of a two-thirds vote cast at a regular election held for that purpose, nor in any case shall the indebtedness of such municipality, except for the erection of a court-house and jail, exceed in the aggregate 5 per cent. of the assessed valuation of its taxable property; and before or at the time of incurring any indebtedness on the authority of such vote, provision must be made for the collection of an annual tax sufficient to pay the interest as it accrues and to constitute a sinking fund to pay principal within twenty years. Any municipality having more than 200,000 inhabitants, which has exceeded the limit herein prescribed, cannot issue bonds except in renewal of outstanding bonds.

Constitutional Limitations.—Montana has no bonded or other indebtedness. The State Constitution, adopted Oct. 1, 1889, prohibits the creation of any debt by or on behalf of the State except by a law which shall specify the purpose of the loan and provide means for paying the interest yearly and the principal at maturity; but the debt of the State shall never exceed in the aggregate the sum of \$100,000, except in case of war, invasion, or insurrection, unless the law authorizing the same shall have been submitted to the people at a general election and shall have received a majority of all the votes cast for and against it at such election. No county shall incur any indebtedness or liability for any single purpose to an amount exceeding \$10,000, without the approval of a majority of the electors voting at an election to be provided by law; but in no case shall the debt of any county exceed in the aggregate a sum equal to 5 p. c. of the value of taxable property, and all bonds in excess of such amount shall be void. No city, town, township, or school district shall be allowed to become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 3 p. c. of the value of its taxable property, and all bonds or obligations in excess of that amount shall be void; provided, however, that the Legislative Assembly may extend this limit, by authorizing municipal corporations to submit the question to a vote of the taxpayers affected thereby, when such increase is necessary to construct a sewerage system or to procure a supply of water for such municipality, which shall own and control said water supply and devote the revenues derived therefrom to the payment of the debt.

Bonded debt, Dec. 1, 1892 (total, \$519,397; annual interest charge, \$39,941): \$449,267.35 State Funding 8 p. c. 20-year bonds, due April 1, 1907. Interest April and October; \$100,000 State Relief 4 p. c. 5-year bonds, due April 1, 1896. Interest yearly, January 1. Interest payable at the State Treasury, Lincoln, Neb. The Permanent School Fund holds \$236,267 of the funding bonds; the remaining \$123,000 of that issue are held by Austin Corbin. In 1891 the State issued for the relief of needy farmers \$100,000 4 p. c. bonds, due April 1, 1896. Interest payable yearly, on the 1st of Jan. Cash and cash assets, Dec. 1, 1892, \$349,861. The Permanent School Fund held on Dec. 1, 1892, in addition to the \$236,267 State Funding bonds before mentioned: Cash, \$490,388; United States 4 p. c. bonds, \$15,000; sundry bonds of counties in Nebraska, \$2,169,606—the total being \$3,001,371.

Sketch of the State Debt.—The State Funding bonds were issued under Act of Feb. 14, 1877, for the purpose of funding all outstanding warrants. The amount originally issued was \$549,267.35, of which the Permanent School Fund took \$426,267.35. There had previously (in 1875) been issued \$50,000 bonds for the purpose of purchasing seed grain for distribution among the farmers of the State requiring seed, because of the ravages of grasshoppers in 1874. These were the only issues of bonds made by the State down to 1891, when (under Act of March 5, 1891) the \$100,000 relief bonds before mentioned were authorized.

Constitutional Limitations and Provisions.—The Constitution provides that the State may issue bonds to meet casual deficits or failures in the revenue to an amount, except in cases of invasion, insurrection or war,

not exceeding in the aggregate \$100,000, and provision shall be made, by an irrevocable law, for the payment of the interest, annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue. Counties may issue bonds or other forms of indebtedness for county buildings, but no appropriation for that purpose shall be to an amount exceeding \$1,500, unless specifically authorized by a three-fifths vote of the people. Counties, cities, and other subdivisions of the State are also authorized to issue bonds for the purpose of providing public works and buildings, and for the purpose of funding outstanding indebtedness. The loaning of the credit of the State is prohibited under any and all circumstances; but counties, cities, towns, and other subdivisions of the State may, if authorized by a two-thirds vote of the people, but not otherwise, make donations to railroads and other works of internal improvement to an amount including in the aggregate (the donations of county and subdivisions being reckoned) 10 p. c. of the assessed valuation of the county, which sum may be increased to 15 p. c. if authorized by a two-thirds vote of the people. No city, county, town, precinct, municipality, or other subdivision of the State shall ever become a subscriber to the capital stock, or owner of such stock, or any portion or interest therein, of any railroad or private corporation or association.

Sketch of State Debt.—Upon its admission into the Union, Nevada assumed a Territorial debt amounting to \$264,110.47—outstanding bonds representing \$225,000, and the remaining \$39,110.47 being outstanding warrants. The bonds bore interest at rates ranging from 10 p. c. to 18 p. c. per annum. The rate of interest has been gradually reduced, until now all the bonds bear 4 p. c. interest, excepting the irredeemable bond issued to the School Fund.

Constitutional Limitations and Provisions.—The Constitution provides that all estates that may escheat to the State, all the proceeds from land sales, etc., shall be invested in bonds of the United States or of any of the States of the Union, and that the interest shall be used for educational purposes only. The State is limited to an indebtedness of \$300,000, except for the purpose of defraying extraordinary expenses arising from invasion, insur-

rection, or war, and provision must be made for an annual tax sufficient to meet interest and principal as they become due. The State is prohibited from assuming the debt of any county, city, town, or other corporation, unless such debts have been created to repel invasion, suppress insurrection, or provide for the public defence. The State is also prohibited from loaning money or credit, or subscribing to the stock of any corporation, except such as are formed for educational or charitable purposes. The Constitution puts no limit to the debts of counties, cities, etc., but provides that the Legislature shall make general laws restricting their powers of taxation, assessment, borrowing money, contracting debts, loaning their credit, except for procuring supplies of water. It is also provided that no county, city, town, or other municipal corporation, shall become a stockholder in any joint stock company, corporation, or association whatever, or loan its credit in aid of any such company, corporation or association, except railroad corporations, companies or associations.

Indebtedness of Counties in the State of Nevada.

Lincoln.—Bonded debt, Jan. 1, 1894, \$181,462; interest, \$295,212; funding bonds, \$16,248; floating debt, \$33,403—total, \$526,325. Authority, W. J. Dooley, *County Treas.* COUNTY SEAT, Pioche.

STATE OF NEW HAMPSHIRE.

250,000 Sink. Fund coup. 7s of June 1, 1894, int. J. & D.

The sinking fund, amounting to \$1,313,885, is divided into five funds, as follows: Fund No. 1 is for the redemption of \$318,000 5 p. c. arrears of taxes bonds due May 19, 1901; also \$250,000 6 p. c. arrears of taxes bonds due Jan. 1, 1905; the fund has its growth from receipts of taxes for the years prior to 1884. It consists of \$102,000 Jersey City bonds, \$210,000 Hudson County bonds, \$5,000 Bayonne City bonds, and \$724 cash, a total of \$617,724; fund No. 2 is for the redemption of any part of the \$854,000 5 p. c. war renewal bonds, due Sept. 1, 1905. The fund originated by depositing into it the amount of premium (\$47,040.80) received from the sale of said war renewal bonds. This fund can only be increased from the investment and reinvestment of this original amount and interest on the same. It consisted on Dec. 1, 1893, of \$57,000 Hudson County bonds, and \$424 cash—a total of \$57,424; fund No. 3 is for the redemption of \$250,000 7 p. c. sinking fund bonds, due June 1, 1894. The fund has its growth by placing \$25,000 yearly in the tax levy for 10 years, commencing with the levy for 1885. On Dec. 1, 1893, it contained \$63,500 Jersey City bonds, \$165,000 Hudson County bonds, and \$887 cash—a total of \$229,387; fund No. 4 is for the redemption of \$300,000 5 p. c. arrears of taxes bonds, due Jan. 1, 1895. The fund has its growth from receipts of taxes for the years 1884, 1885 and 1886. It consists of \$188,000 Hudson County bonds, \$192,000 Jersey City bonds, and \$153 cash—a total of \$380,153; fund No. 5, consisting of \$35,000 Hudson County bonds, and \$592 cash—total, \$15,592, is for the redemption of new public road bonds.

Interest payable at Merchants' Exchange Nat. Bk., New York. The Station House 4½s of 1903-4, the Eng. House 4s of 1895, the Police Hd. Quarters 4s of 1896 are in the sinking fund. The City of J. C. 6s, the Fire Eng. House 4s of Aug. 27, 1895, the ass'm't 5s, the floating debt 6s, the maturing bonds, the differences, etc., bonds, streets and sewer ass'm't 5s, and the water 6s of 1913, 1916, 1923, and 1923 are secured by a special sinking fund. The \$45,500 imp. and the

streets and sewers assmt issues are assessment bonds. The liabilities, excluding water debt, on Dec. 1, 1893, were—gen. account debt, \$7,964,427; assmt account debt, \$4,741,500; temporary loans, \$664,336; imp. certifs., \$91,600; unexpended appropriations, 1889-93, \$379,650; other accounts, \$286,509—total, \$14,127,422. The resources were cash, \$1,016,759; cash and bonds in sinking funds, \$1,127,677; taxes due and unpaid, \$3,491,838; other items due and unpaid, \$2,008,032; city property, \$1,436,500; due city for advertising tax sales, \$102,975; other items, \$325,298—total, \$9,498,582. Sinking funds (general, \$135,491; water, \$6,811), \$141,802. The city's water works are self-sustaining. An act has been passed by the Legislature by which arrears of taxes are made liens on property, and if not paid within three years, the property can be sold to satisfy them. As the land and buildings acquired by the city during the past few years have not been valued, the city's resources are not shown to be as large as they would be with this "city property" valued and added. The receipts from RR. tax amount to about \$225,000 annually. Authority, Peter F. Wanser, *Mayor*.

Floating debt, including revenue bonds, \$30,000. Total debt, Apl. 1, 1894, \$1,585,600. Sinking funds and cash assets, \$329,324. Interest on water bonds of 1897, 1899, and 1904, payable at 9th National Bk., New York; on all other bonds at Nat. Bk. of New Brunswick, N. J. The city owns public buildings, steam fire-engines, etc., and a water-works costing \$472,337, the gross earnings from which for the year ending Jan. 1, 1894, were \$51,597, and the cost of maintenance about \$18,000, of which \$1,300 was for relaying water mains, and \$5,000 for construction. Since 1886 the city's debt has decreased, but during the last year taxes have not been paid as promptly as in other years, owing to the financial depression, and on this account the debt shows a temporary increase. Authority, J. H. Van Cleef, *Mayor*.

The 1st issue of sewer bonds in four obligations of \$50,000 each and one of \$29,000. Interest payable on 3d issue of sewer bonds at N. Y. Guaranty and Indemnity Co., N. Y.; on all other bonds at U. S. Nat. Bk., New York; the Orange Nat. Bk. of Orange will also pay all coupons and all bonds at maturity. Sinking fund and other assets, \$312,686. Net debt, \$981,313. The sinking fund receives about \$24,000 per annum, raised by taxation and from the water-works and other sources. The available assets consist of unpaid taxes, assessments, and cash in treasury. The city owns public schools and other buildings worth \$400,000, together with a water system costing \$425,000, and valued at \$800,000, the revenue from which pays the interest on water bonds and running expenses. Those maturing in 1896 were issued in 1876 for taxes then in arrears, and those maturing in 1897 were for the tax arrears for the years 1882 to 1885, inclusive. All taxes collected for those years are paid into the respective funds. None of the city's bonds can be retired before maturity. This city has never defaulted in the payment of any of its obligations. Authority, Lawrence T. Fell, *Mayor*.

Passaic, Passaic Co.—Incorp. a village, Mar. 10, 1869; city, April 2, 1873. Pop., 1890, 13,028. Ass'd val., 1893: R., \$5,209,207; P., \$608,825—total, \$5,818,032. The coupons of current expense bonds and of capitol contingent fund bonds, although on their face payable at the First National Bank, New York, are really paid at the National Bank of Commerce, in New York. The Territory had a floating debt on Feb. 1, 1894, of \$650,000 "old military" warrants. The current expense bonds may be redeemed, at the option of the Territory, at 5 or 10 years from date of the several issues. The provisional indebtedness bonds are subject to call on or after 20 years from dates of issue. The casual deficit bonds are subject to call after May 1, 1913, and the refunding bonds after July 1, 1913. The Territory has never defaulted in payment of its obligations.

Federal Limitations and Provisions.—The Territory or any subdivision of it is prohibited from loaning its credit to or subscribing to the capital stock of any corporation whatsoever; but counties may issue bonds in aid of the construction of railroads to an amount not exceeding 5 per cent. of assessed valuation, if authorized by the people. The Legislature of the Territory is authorized to contract debts only to meet casual deficits in the revenue, to pay the interest on the territorial debt, to suppress insurrections, or to provide for the public defense, except that, in addition to any indebtedness created for such purposes, a loan may be authorized for the erection of penal, charitable, or educational institutions, if the total indebtedness of the Territory is not thereby made to exceed 1 per cent. of the assessed valuation of property. But nothing in this act prohibits the refunding of existing indebtedness. No political or municipal corporations, county, or other subdivision of the Territory, shall ever become indebted in any manner or for any purpose to an amount in the aggregate, including existing indebtedness, exceeding 4 per cent. of the value of taxable property, unless issued or contracted to be issued previous to the adoption of this law.

The large increase from 1833 up to 1858 was occasioned by the construction of the canal system and by giving State aid to various companies, mainly railroads; the Civil War was the cause of most of the increase between 1863 and 1868. The war bonds were all paid off in twelve years.

Constitutional Limitations and Provisions.—The constitution prohibits any county, city, town or village from loaning its credit to any individual or corporation, or becoming owner of the stock or bonds of any association or corporation, or incurring any indebtedness except for county, city, town, or village purposes. An amendment to this section of the constitution, which went into effect January 1, 1885, provides: "No county containing a city of over 100,000 inhabitants, or any such city, shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed ten per centum of the assessed valuation of the real estate of such county or city, subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness, and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided. No such county or city, whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained, in the taxes for the year when such certificates or revenue bonds are issued or payable out of such taxes. Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water, but the terms of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity. The amount hereafter to be raised by tax for city or county purpose, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of said county or city, to be ascertained as prescribed in this section in respect to county or city debt." In construing this section, the Court of Appeals of New York held, in a case affecting the city of New York, that, in ascertaining the limitation of indebtedness, bonds representing that debt and held in the sinking funds should not be included in the 10 per cent. of indebtedness authorized. The constitution also empowers the Legislature to restrict the taxing and borrowing powers of municipalities, and that body, in accordance with such authority, by an act passed in 1853, limits the borrowing power of munic-

ipalities, exclusive of existing debts, to 5 per cent., or including such debts, to 8 per cent. of assessed valuation, and prohibits the creation of temporary loans, except in anticipation of taxes for the current fiscal year, such loans to be repayable within 8 months.

100,000 3 1/2s, Dec. 1, 1892—1912, int. June 1 & Dec. 1.

Interest on all of the above bonds is payable at the Gallatin National Bank, New York City, or at the City Comptroller's office, Buffalo, N. Y. The Buffalo Trunk Sewer bonds are exempt from taxation. The Buffalo Charter bond issue of July 1, 1891, was for the purpose of paying the municipal expenses from Jan. 1, 1891, to June 30, 1891, and was made necessary by the change of the beginning of the fiscal year from Jan. 1 to July 1. They are payable in ten equal annual instalments, two of which have been paid. In the foregoing statement \$200,000 of the Bailey Ave. Sewer bonds, \$144,000 of the Hertel Ave. Sewer bonds, \$105,020 of Monthly Local Wks. bonds, and \$18,663 temporary loan bonds—a total of \$467,685—are payable from proceeds of local assessments. On Dec. 31, 1893, the Comptroller held investments and cash amounting to \$213,204 available for redemption of bonds, making net total bonded indebtedness on that date (including \$209,176 of tax loan bonds authorized but not issued) \$1,520,801. Of this indebtedness, \$2,751,382 are 7s; \$200,000, 6s; \$350,000, 5s; \$203,666, $4\frac{1}{2}$ s; \$1,343,526, 4s; \$5,659,175, $3\frac{1}{2}$ s, and \$959,081, 3s. The city of Buffalo is indirectly responsible for five-sixths of the Erie County debt, which amounts to about \$700,000.

Sinking fund: The terms of the city charter require that \$100,000 shall be raised annually, by taxation, for the payment of principal of bonds, and 1 p. c. of the park bonds outstanding is also to be included in the tax levy made each year. Warrants, payable from local assessments outstanding, June 30, 1893, \$2,479,051. Assets, Dec. 31, 1893: Real estate owned by city, \$9,360,733; personal property owned by city, \$6,378,819; cash, \$1,163,549—total, \$16,803,101. No default has ever been made in payment of principal or interest of any indebtedness. Authority, John W. Fisher, *Mayor's Secretary*.

Bonded debt (latest returns) (total, \$6,018,950; annual interest charge, \$295,158) :

\$3,298,950 4 p. c. 30-year consols, due July 1, 1910, interest January and July.

\$2,720,000 6 p. c. N. C. R.R. renewal bonds, due April 1, 1919, interest April and October.

The 4 per cent. bonds are of the denominations of \$50, \$100, \$500 and \$1,000 each; the 6 per cent. bonds are for \$1,000 each. The amount of 4 per cent. bonds issued embraces certificates of fractional sums of less than \$50 given in exchange, which are receivable for new bonds of the denominations prescribed in the Act. Interest on bonds payable at the National Bank of the Republic, New York City, or at the State Treasury, Raleigh, N. C.

Sketch of State Debt.—The State commenced the issue, in 1840, of its bonds in aid of various internal improvements, such as plank roads, railroads, canals, and rivers, and had issued prior to May, 20, 1861, the date of its attempted secession, bonds amounting to \$8,371,400. It also issued, during the civil war, and prior to May, 1865, \$914,000 in bonds for similar purposes. The interest on these was unpaid during the war, and by Act of March 10, 1891, a portion was funded by an issue of bonds amounting to \$2,231,000, and another portion, by Act of August 20, 1865, by bonds to the amount of \$1,657,000. Bonds in aid of internal improvements were also issued during the same period to the amount of \$3,403,000. In 1869 so-called "special tax bonds" were issued, and of these so-called bonds there are now outstanding \$11,366,000. The same Legislature soon after repealed the Act under which these bonds were issued, and prohibited the payment of interest thereon. The bonds have never since been recognized by the State authorities, and the Supreme Court of the United States has decided a case, involving the payment of principal and interest of these bonds, in favor of the State. In 1875 an effort was made, under an "Act to compromise, commute and settle the State debt," to arrive at an adjustment, but without success. At the close of the year 1878 the recognized debt amounted to \$16,046,045, on which there was interest unpaid to the amount of \$9,485,408, making a total of acknowledged valid debt equal to \$25,531,538. The issue during the war, with unpaid interest, reached the sum of \$1,688,600, and the special tax bonds, with interest, were \$17,610,470, making an aggregate of \$44,730,638, for which the State held, in stocks and bonds of various kinds, mostly unproductive, \$21,707,700. Under these circumstances an Act was passed, March 4, 1879, directing the payment of bonds issued prior to May 20, 1861, at 40 cents on the dollar; those issued after May, 1865, under prior Acts and by Acts of 1866 and 1867, at 25 cents on the dollar; and those issued under the Funding Acts of 1866 and 1868, at 15 cents on the dollar; the payments to be made in a new issue of 4 per cent. bonds, dated July 1, 1880, and payable in 30 years. The Funding Act of 1879 expired in 1889 and was extended to July 1, 1890, and again to July 1, 1892. The fundable bonds not surrendered to July 1, 1890, amounted to \$1,576,000, as follows: Bonds redeemable at 40 p. c., \$303,500; redeemable at 25 p. c., \$624,000; redeemable at 15 p. c., \$656,500. An act, passed March 14, 1879, provided for the adjustment and renewal of that portion of the State debt incurred in aid of the construction of the North Carolina R.R. by an issue of new consolidated 6 p. c. bonds due in 1919, which should be exchangeable at par for North Carolina R.R. construction bonds, holders of construction bonds being required to abate \$240 of overdue interest on each \$1,000 bond. Under this plan \$2,720,000 6 p. c. consols have been issued to date, leaving still outstanding \$360,000 old construction bonds. The total consolidated debt, provided all old outstanding bonds shall be exchanged, will stand—4 p. c., \$3,614,811.25; 6 p. c., \$2,726,000—a total of \$6,370,811.25. The new bonds, both 4s and 6s, carry tax receivable coupons, and are exempt from all taxes.

Constitutional Limitations.—There is not any limitation by the State Constitution to the creation of debt. The charters of some municipalities, however, provide that debt shall be created only by a vote of the people.

Principal and interest of refunding bonds payable at the office of the State Treasurer, Bismarck, N. D.; all other bonds at the Chemical National Bank, New York City.

Sketch of the State Debt.—Upon its erection into a State, North Dakota assumed \$646,807.46 of the indebtedness of \$1,075,007.47 of the Territory of Dakota, and on April 25, 1890, made an additional issue of \$150,000 bonds for defraying extraordinary expenditures incidental to the organization of the new government; making the total State debt, as shown before, \$795,807.

Permanent School Fund.—The General Government donated to the State for the support of its common schools throughout the entire State, besides 500,000 acres for the support of various educational and charitable institutions of the State—in all about 3,500,000 acres of land. Under the terms of the grant none of this land can be sold for less than \$10 per acre, so that in time this fund will support the common schools besides materially assisting the various institutions. The principal can never be impaired, and only the income used. Only about 125,000 acres have as yet been sold. This land is sold on 20 years' time at 6 p. c. interest, one-fifth cash, balance in four equal payments. Permanent school fund has realized from the sale of this land \$2,550,664.82, which is held as follows: School land contracts, \$2,010,531.90; school district bonds, \$371,434.10; premium account, \$57,000; cash awaiting investment, \$81,698.82.

Constitutional Limitations and Provisions.—The State may, to meet casual deficits or failures in the revenue, contract debts to an amount not exceeding \$200,000 (in addition to the debt assumed at the time of admission into the Union). Such debts must be authorized by law for some specific purpose, and such law must provide for levying a tax sufficient to meet the interest as it matures and to discharge the principal within thirty years. No debt in excess of the limit named shall be incurred except for the purpose of repelling invasion, suppressing insurrection, defending the State in time of war, or to provide for the public defence in case of threatened hostilities; but the issuing of new bonds to refund existing indebtedness shall not be construed to be any part of the said \$200,000.

The debt of any county, city, town, or other subdivision of the State shall never exceed 5 p. c. of the assessed valuation; but it is provided that any incorporated city may, by a two-thirds vote, increase such indebtedness to 8 p. c. of assessed valuation, and it is further provided that any incorporated city may become indebted to an amount not exceeding 4 p. c. on such assessed value, without regard to existing indebtedness, for the purpose of constructing water works and sewers. Provision must be made for the collection of an annual tax sufficient to pay principal and interest of such debts as they fall due.

Neither the State nor any subdivision of it shall loan or give its credit or make donations to any individual, association, or corporation, except for necessary support of the poor, nor subscribe to or become owner of the capital stock of any association or corporation, nor shall the State engage in any work of internal improvement unless authorized by a two-thirds vote of the people.

No bond or evidence of indebtedness of the State is valid unless the same has indorsed thereon a certificate, signed by the Auditor and Secretary of State, showing that the bond or evidence of debt is issued pursuant to law and is within the debt limit; and no bond or evidence of debt of any county, or bond of any township or other political subdivision shall be valid unless the same have indorsed thereon a certificate signed by the County Auditor or other officer authorized by law to sign such certificate, stating that such bond or evidence of debt is issued pursuant to law and is within the debt limit.

Constitutional Limitations and Provisions.—The Constitution prohibits the loaning of the credit of the State, or of any municipal corporation or subdivision of it, to or in aid of any person or corporation; prohibits the State or any of its subdivisions from becoming a stockholder or in any way interested in any joint stock company. The State is prohibited from assuming the debts of any county, city, township or corporation, unless created to repel invasion, suppress insurrection, or defend the State in war; and also from contracting any debt for purposes of internal improvement. For the purpose of supplying casual deficiencies in the revenues, or to meet expenses not otherwise provided for, the State may contract debts to an amount in the aggregate, not exceeding \$750,000, and can only exceed that sum in case of invasion, insurrection or war, or to redeem existing indebtedness.

The Constitution directs the enactment of laws limiting municipal indebtedness; Article XIII., Section 6, providing that: "The General Assembly shall provide for the organization of cities and incorporated villages by general laws, and restrict their powers of taxation, assessment, borrowing money, contracting debts and loaning their credit so as to prevent the abuse of power." In pursuance of this section there has been enacted a classification of the cities of the State, but as yet there has not been any general law passed limiting indebtedness.

652,014 Street Pavt. and Sewerage Imp. 6s, due various dates, 1894 to 1903, int. half yearly.

The street pavement and sewerage improvement bonds are paid by special assessment on property benefited. In addition to the amount outstanding as above, the sinking fund trustees hold \$2,245,808.80, which is applicable to redemption of general bonds preceding. The Cincinnati Southern Ry. trustees receive and pay \$1,000,000 yearly, same being the present rent of the road, but increasing to \$1,250,000 in 1901; and the water works pays the interest on all bonds and an annual sinking fund of \$26,550, being, for 1893, \$97,050. With these exceptions the care of the debt is a general charge on the city. Deducting from the \$28,486,000 general bonds as above, \$2,245,808.80, being the amount of street pavement and sewerage assessment improvement bonds in sinking fund, leaves net amount of bonded debt \$26,240,191.20, which is represented by Cincinnati Southern Ry., \$18,610,000, and water-works, \$1,625,000, both producing revenue, the balance, \$6,005,191.20, being represented by all other property. The annual interest charge for 1893 was \$1,686,853; for 1894 it will be \$1,702,423. The orphan asylum bonds are in registered form; all others are coupon bonds. Interest on canal bonds and on funding and debt 6s of 1897 payable at the Bank of North America, Philadelphia; on orphan asylum bonds at the City Auditor's office; on hospital loan of 1906 and on funding 7s of 1904, at the City Treasurer's office; on funding and debt 6s of 1900 and on water-works 6s and 7s of 1895 and 6s of 1900, at the Bank of America, New York; on all other issues at the American Exchange National Bank, New York.

* Supreme Court decision June 18, 1892, operated to reduce this total to \$149,854,243.

The gross value of property was: 1889—real, \$90,492,842; personal, \$55,690,117—total, \$146,182,959; 1890—real, \$107,640,231; personal, \$55,285,590—total, \$162,925,731. The taxes levied for all State expenses of biennial term, ending Dec. 31, 1892: current expenses of State, 4 mills; support of University of Oregon, $\frac{1}{2}$ mill; expenses of National Guard, $\frac{1}{8}$ mill—total, $4\frac{1}{2}$ mills. For 1892—State, including deficiencies and public improvements, $4\frac{2}{3}$ mills; University, $\frac{1}{2}$ mill; National Guard, $\frac{1}{8}$ mill—total, 5 mills.

Population decennially since 1850:

1850.....13,294 | 1860.....52,465 | 1870.....90,923 | 1880.....174,768 | 1890.....313,767

Bonded debt.—The State is practically out of debt. There are outstanding Soldiers' Bounty bonds, due Jan. 1, 1880, \$50; Soldiers' Relief bonds, due Jan. 1, 1874, \$761.10; Modoc War bonds, due Jan. 1, 1880, \$317.75; and Indian War bonds, also past due, \$760.94—a total of \$1,829.79 bonds. There are also outstanding \$669.95 10 p. c. warrants, including accrued interest, making the total unpaid indebtedness \$2,499.74. The money for the payment of this debt is in the treasury. The bonds and warrants have been advertised, interest stopped years ago, and the probability is that they will never be presented for payment.

Constitutional Limitations and Provisions.—The State or any subdivision of it is prohibited from loaning its money or credit to or in behalf of any joint-stock company, corporation or association, or becoming a stockholder, or in any way interested in such company; and the State is prohibited from assuming the debts of any county, town or other corporation, unless such debts have been created to repel invasion, suppress insurrection or defend the State in war. Except in case of war, rebellion or invasion, the debt-making power of the State is strictly limited to \$50,000, and of counties to \$5,000. Acts of the Legislative Assembly, incorporating towns and cities, shall restrict their powers of taxation, borrowing money, contracting debts and loaning their credit. There are no general provisions relating to the issue of municipal bonds. They are issued, when necessary, under the charter provision of the various cities or under special acts.

STATE OF PENNSYLVANIA.

History.—In 1776 the State Constitution was formed, and on Dec. 13, 1787, the Constitution of the United States was adopted. The seat of the United States Government was at Philadelphia until 1800, when it was removed to Washington. Area, 44,985 square miles. Divided into 67 counties—area, population (1890) and tax valuation (1891) are shown in the subjoined statement. No tax for State purposes is levied on real estate. The principal sources of revenue are tax on corporation stocks, corporate loans, gross receipts, mercantile licenses, wholesale liquor licenses (retail liquor licenses are retained by the counties), collateral inheritances, bank stocks, insurance premiums, net earnings of bankers, licenses of brewers, brokers and bottlers, tax on writs, etc., and on personal property. Under the new law the tax on personal property at 4 mills is estimated at \$2,400,000, of which three-quarters will be returned to the counties and the remaining quarter retained by the State:

COUNTIES.	Area Square Miles.	Pop-ulation, 1890.	Personal Property.	Tax levy at 4 Mills on the Dollar.	Three-fourths Return-able to Coun-ties.	COUNTIES.	Area Square Miles.	Pop-ulation, 1890.	Personal Property.	Tax levy at 4 Mills on the Dollar.	Three-fourths Return-able to Coun-ties.

Constitutional Limitations and Provisions.—The State or any subdivision of it is prohibited from loaning its credit to any person or corporation, or becoming in any way interested in any joint stock company. No debt shall be created by or on behalf of the State, except to meet casual deficits in the revenue, repel invasion, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate, at any one time, \$1,000,000. Provision is made for an annual sinking fund levy sufficient to pay the yearly interest and not less than \$250,000 of the principal of the debt.

Municipal indebtedness is limited to 7 per cent. upon the assessed value of taxable property, "nor shall any such municipality or (incorporated) district incur any new debt, or increase its indebtedness to an amount exceeding 2 per centum upon such assessed valuation of property, without the assent of the electors thereof at a public meeting in such manner as shall be provided by law; but any city the debt of which now exceeds 7 per centum of such assessed valuation may be authorized by law to increase the same 3 per centum, in the aggregate, at any one time, upon such valuation." The State is prohibited from assuming the debts of any of its subdivisions, "unless such debt shall have been contracted to enable the State to repel invasion, suppress insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness."

Of these bonds none have as yet been issued.

Constitutional Limitations and Provisions.—The debt of the State is strictly limited to \$50,000, except in time of war, or in case of insurrection or invasion, and any increase over that limit must have the express consent of the people; and without such consent the State is also prohibited from pledging its faith for the payment of the obligations of others. The assent of two-thirds of the members of each house of the General Assembly must be had to every bill appropriating the public money or property for local or private purposes.

There is no constitutional limitation of municipal indebtedness. In 1878 it was enacted that "No town shall incur any debt in excess of 3 per centum of the taxable property of such town, including the indebtedness of such town on the 10th day of April, 1878, but the giving of a new note or bond, for the pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

Interest on the issues marked (a) is payable at the State Treasury, Columbia, S. C.; on those marked (b) at the State Treasury, and also at the financial agency in New York; on those marked (c) at the State Treasury, at New York, and at Charleston; on those marked (d) at the financial agency in New York; on those marked (e) at the State Treasury and at Charleston. The financial agency in New York is the National Park Bank; that at Charleston, the South Carolina Loan and Trust Co.

The interest on consols prior to 1860 is payable from July, 1879; on consols subsequent to 1865 from January, 1880; on consols for fundable interest, from July, 1878; on consols for State Bank bills, from July, 1880.

The funded debt now recognized as valid is provided for by Acts of Dec., 1873, to reduce the volume of the public debt; Dec. 24, 1878, for the funding of past-due interest; Dec. 24, 1879, and Feb. 19, 1890, for funding bills of Bank of State; and of March 22, 1878, for the funding of claims prior to Dec. 1, 1876. The bonds authorized by Acts of 1889 and 1890 were for the purpose of retiring the Brown consols before maturity, but, owing to the rigid requirements of the act, very little progress was made in exchanging.

The Act of Dec. 22, 1892, provided for the redemption of that part of the State debt known as the Brown Consol bonds and stocks by issue of other bonds and stocks. These bonds bear interest at 4½ p. c. per annum from Jan. 1, 1893, payable on July 1 and Jan. 1, in currency, at the State Treasury, Columbia, S. C., or at the agencies of the State, viz., at South Carolina Loan and Trust Co., Charleston, S. C., and at the National Park Bank, New York, N. Y. The principal of the coupon bond and stock certificates of this issue becomes payable at the end of 40 years from Jan. 1, 1893, the State reserving to itself the right of anticipation, after the expiration of 20 years from date of issue, on the terms and conditions expressed or indorsed on the bonds and certificates. The coupon bonds and stock certificates are exchangeable, the one for the other, on their presentation at the State Treasury, in Columbia, S. C. The bond and stock certificates of this issue are free from all taxes, State, county, and municipal, and are secured by a lien on the phosphate beds of the State and a cumulative sinking fund derived from the phosphate royalty. The sinking fund amounts annually to \$75,000, and is to be invested in these bonds if obtainable at a reasonable price. The interest is secured by levy on the taxable property of the State, and the interest coupons and the principal at maturity are receivable for taxes due the State in same year, except tax for the support of the public schools.

Constitutional Limitations, etc.—There is no constitutional limitation or general statute. The charter of Charleston provides that the bonded indebtedness shall not be increased unless the new debt shall receive the approval of two-thirds of the citizens, at a popular election, which election must be called by a two-thirds vote of the City Council and the State Legislature.

Charleston. Charleston Co.—Incorp.—town in 1783; cit. in 1836. Pop., 1890, 54,502. Ass'd val., 1893: R., \$16,591,139; P., \$7,061,605—total, \$23,652,744. Tax rate per \$1,000, 1893, \$23. Bonded debt consisted, Jan. 1, 1894 (total, \$3,880,900; annual interest, \$166,382), of \$3,350,300 4 p. c. 30 yr., \$100, \$500 and \$1,000 coup. bonds, due 1909,

int. Jan. and July; \$109,500 6 p. c. 20-yr. \$100 and \$500 coupon bonds, due 1898, int. April and Oct.; \$256,700 7 p. c. \$100, \$500 bonds, due 1894, '95, '96, and '97, int. April & Oct.; \$23,000 5 p. c. registered College Loan, due in 99 years, int. Jan. & July, and \$106,000 6 p. c. \$500 coup. bonds, due 1922-3, int. April and Oct.

The College Loan is all held by the Trustees of the City College. The above bonds were issued mostly to retire 6 p. c. stock issued for railroads and improvements. Interest on all issues payable at the City Treasury. The city has power to issue bonds up to 8 p. c. of assessed valuation only upon authorization by a two-thirds popular vote at an election called by a two-thirds vote of the State Legislature and the City Council. Provision for a sinking fund has been made by an appropriation of one mill per annum from the total tax levy. No default in the principal or interest of any obligation has ever been made. Authority, J. O. Lea, *City Treas.*

Columbia. Richland Co.—Incorp.—town in 1790; city, in 1851. Pop., 1890, 15,253. Ass'd val., 1892: R., \$3,254,105; P., \$1,703,196—total, \$4,957,301. Estimate of actual value, \$10,000,000. Tax rate per \$1,000, 1892, \$10. Funded debt (latest returns): \$852,156 30-yr. \$100, \$500 and \$1,000 coup. bonds, due July 1, 1910, interest Jan. and July at the office of the City Treasurer, and \$75,000 6 p. c. 1st mortgage Water bonds, issued in 1891 and due Jan. 1, 1921, int. Jan. and July. The bonds of 1910 bear 3 p. c. to 1900 and 4 p. c. thereafter. The coupon bonds are free from city tax, and the interest on them is payable at the City Treasurer's office. The coupons are receivable for taxes except water rates. The city's water works are valued at \$500,000 and the water works income is in excess of the interest on water bonds. Default was made on bonds prior to 1876 during the period of "reconstruction." The present bonds were issued to fund city debt. The city's power of creating debt is limited to one-eighth of the assessed valuation. F. W. McMaster, *Mayor*.

Constitutional Limitations and Provisions.—The Constitution prohibits the State or any subdivision of it from loaning its money or credit to any person or company or becoming in any way interested in any corporation; and prohibits the State from assuming the debts of others unless such debts shall have been incurred in time of war in defence of the State, or of engaging in works of internal improvement. The debt-making power of the State is strictly limited to \$100,000 (in addition to the Territorial debt assumed by the State), and such limit cannot be exceeded except in case of war, rebellion or insurrection. The debts of municipalities must be limited to 5 p. c. of assessed valuation, and provision must be made for a tax sufficient to meet principal and interest as they fall due.

The settlement bonds are for \$100 and \$1,000; int. payable at Treasurer's office, Nashville, Tenn., and in New York City. The bonds and certificates not to be funded are held by State institutions and by Mrs. James K. Polk. They are all \$1,000 bonds; they bear 5 and 6 p. c. int.; and they are payable as follows: \$188,000 certificates and \$3,000 bonds, at the option of the State; \$4,000 bonds in 1894; \$108,000 bonds in 1898; \$118,000 bonds in 1900; and \$34,000 bonds in 1914. The settlement bonds are payable at the option of the State after July 1, 1888.

By the Compromise and Funding Act of Mar. 30, 1882, the State funded its old bonds, with all accrued interest, at 60 p. c. of the face value, in new 30-yr. bonds of 1882, bearing 3 p. c. for 2 years, 4 p. c. for following 2 years, 5 p. c. for third 2 years and 6 p. c. thereafter. In 1883 that act was repealed and the debt funded in new 3s at 50 p. c. of the face value, except the old State debt proper bonds, bearing 6, 5½ and 5 p. c., which were exchanged for new bonds bearing 6 and 5 p. c. int., at 76, 79 and 80 p. c. respectively. By a decision of the Supreme Court of the State the Compromise bonds (principal and accrued interest to July 1, 1883), are fundable into new settlement 3s at five-sixths of their face value. E. B. Craig, *State Treas.*, Nashville, Tenn.

Interest on all issues payable in New York City. The Railroad Aid bonds were issued for stock in Knoxville Southern R.R. Co. The available assets amounted to \$452,028, and consisted of \$41,384 sinking fund, \$22,928 cash, \$375,000 Knoxville Southern R.R. stock, \$100,000 Knoxville & Ohio R.R. stock, and taxes, bills receivable, etc., \$49,821. Other assets, school-houses, public buildings, real estate, etc., were \$270,600. No bonds may be issued except under authority of a special act of the Legislature and the votes of the people. There is a sinking fund sufficient to retire bonds at maturity. No default has ever been made. S. B. Kennedy, *Comptroller*.

Memphis, Shelby Co.—Incorp. as a city in 1827. In 1879 the city's charter was repealed; the yellow fever epidemic of 1878 making it impossible for the city to meet its obligations promptly. The Legislature granted the charter to the taxing district of Shelby co., Tenn., with power and rights to permit its residents to apply the revenues of the city toward constructing a system of sewers, and to make such other improvements in sanitary matters. The name of the government has since been changed to city of Memphis. Ass'd val., 1893: R., \$30,010,210; P., \$9,627,740 total, \$39,637,950. Average tax rate per \$1,000, 1893, \$17.50. Funded debt, Jan. 1, 1894 (total, \$3,130,000), consisted of \$746,000 \$1,000 Flippin Compromise bonds, due 1907; \$2,386,100 \$100, \$500, and \$1,000 taxing district bonds, due 1913-15. The law governing the city does not permit the creation of any debt of any kind, other than the above, but requires a sinking fund for the redemption of the indebtedness. Interest payable at Mechanics' Nat. Bk. of New York, or the Union and Planters' Bk. of Memphis, Tenn. The bonds are all free from local tax. The Compromise bonds coupons are receivable for taxes. All taxes are levied by the Legislature and collected by the County Trustee. The city is governed by a board of three members, called Fire and Police Commissioners, from which one member is chosen by the board as its president. There is also a board of five members, known as the Board of Public Works. All laws governing the city are made by the Legislative Council, which is composed of these two boards. Beginning with 1889 an annual sinking fund of 1 mill is levied to be applied to the purchase and redemption of the bonds. An annual levy is also made to pay interest on the bonds. The present indebtedness was created by funding the old bonded debt and the then existing floating debt during the period from 1888 to 1887 at an average rate of 60.53 p. c. John J. Shea, *Secretary*.

Nashville, Davidson Co.—Incorp. as a town in 1781; as a city in 1850. Pop., 1890, 76,309. Ass'd val., 1893: R., \$30,194,650; P., \$7,326,850—total, \$37,521,500. The outstanding bonds held by individuals are of the following series: 4 p. c. Act, April 21, 1879, due 1899, \$1,790; 5 p. c. Act of April 21, 1879, due 1903, \$682,200; 7 p. c. Act of March 4, 1874, due 1904, \$73,000—total, \$756,990. The Legislature has made provision for the retirement of \$486,500, which are held by the special funds and which are past due, and issued in lieu thereof new bonds at a lower rate of interest as follows: \$344,500 40-yr. 4 p. c. bonds redeemable at the option of the State after five years from date of issue, and \$152,000 5 p. c. payable to the University fund, and redeemable at the option of the State.

Sketch of State Debt.—When Texas became a State of the Union it had a debt, including overdue interest, amounting to about \$12,000,000. With the aid of the Federal Government this was all paid off by 1856, and the State remained out of debt till several years after the close of the war. In 1870, however, bonds began to issue to meet deficiencies in the revenue and to provide for the defence of the frontier. Again the debt began to pile up, till it was found necessary, in 1876, to restrict it by constitutional means.

Constitutional Limitations and Provisions.—The Constitution (adopted in 1876) prohibits the loaning of the credit of the State or of any of its subdivisions, to, or in aid of any person, association, or corporation, municipal or otherwise, or of subscribing to the capital stock of, or becoming in any way interested in, any private corporation. To meet casual deficiencies in the revenue, the State may become indebted to an amount not exceeding in the aggregate \$200,000. Municipalities bordering on the coast of the Gulf of Mexico may, by a vote of two-thirds of the tax-payers, issue bonds for the construction of sea-walls, breakwaters, and for sanitary purposes, authorized by law. But no debt shall be incurred unless provision is made for an annual tax sufficient to pay the interest and create a sinking fund of at least 2 p. c. Municipalities are also authorized, by acts of the Legislature, to issue bonds for various purposes, such as erecting a court-house or jail, purchasing or constructing bridges, funding outstanding bonds, or, in the case of Gulf cities, "to improve harbors or remove bars at the entrance thereof."

Bonds issued in 1891 and subsequently are subject to call at the option of the county. There is a tax collected this year of 30 cents to pay interest on and create a sinking fund for the retirement of the bonds. Total amount of bonds issued, \$492,450, of which redeemed \$34,500, leaving outstanding as above \$807,950. No default ever made on payment of obligations. Authority, Ed. Froboese, *County Treas.* COUNTY SEAT, San Antonio.

Dallas.—Average tax rate per \$1,000, \$5.35. The total debt of this county is reported at \$306,500, of which no particulars are given. There is also a sinking fund of \$48,500. COUNTY SEAT, Dallas.

El Paso.—Organized May 7, 1871. Ass'd val., 1893, \$10,670,171. Average tax rate per \$1,000: State, \$1.50; school, \$1.25; county, \$7—total, \$9.75. Bonded debt (total, \$147,040), consisted, March 20, 1894, of \$90,000 6 p. c. 15-year coupon \$1,000 Court-house and Jail bonds, due 1899 and 1900; and \$59,040 6 p. c. 20-year coupon \$500 Funding bonds, due 1909. Interest on both issues annually, April 10, at Austin, Tex. There is provision for a sinking fund of 2 p. c. per annum upon the bonds issued for funding the debt, and the same is provided for in the coupon. No default ever made in payment of obligations. Authority, G. T. Newman, *County Treas.* COUNTY SEAT, El Paso.

Fayette.—This county is reported to have a debt of \$166,500, but no details of same are obtainable. COUNTY SEAT, La Grange.

Galveston.—Organized in 1839. Ass'd val., 1893, \$25,374,060, about 50 p. c. actual value. State tax, ad valorem per \$1,000, \$2.50; school, \$0.25—total, \$2.75; county tax, \$6—total tax, \$3.75. Bonded debt, Feb. 1, 1894 (total, \$527,000), consisted of \$342,000 6 p. c. 20-year \$1,000 coupon bonds (to fund railroad aid bonds), due May 1, 1902, interest May and Nov., at Bank of New York, New York City, and in Galveston; and \$185,000 5 p. c. Bridge bonds, due Jan. 10, 1813 (but subject to call after Jan. 10, 1903), interest April 10, at County Treasurer's office. The 6 p. c. bonds run to maturity, the county having no option of calling them in before. A tax of 30 cents on the \$100 is levied annually, and applied to the payment of interest and to a sinking fund for the redemption of the bonds. Floating debt, \$40,694.14; sinking fund, \$120,849.21—net debt, Feb. 1, 1894, \$424,964.09. Original issue of 6s, \$380,000 issued to fund balance of \$500,000 10 p. c. bonds issued as bonus to Gulf, Colorado and Santa Fe Ry. Co. The 6s were issued to build a bridge across Galveston Bay to the mainland. Authority, Jas. B. Waters, *County Treas.* COUNTY SEAT, Galveston.

Harrison.—Organized June 14, 1842. Average tax rate per \$1,000, 1893, \$10.20. Funded debt consisted (latest returns) of \$44,900 Court-house 6s, due April 10, 1893, interest annually, April 10; \$32,000 Funding 6s of April 1, 1910, interest annually April 1, and \$115,450 Compromise bonds (see below). In 1874 this county issued as a subdly to the Texas and Pacific Ry. \$300,000 7 p. c. bonds, due April 10, 1904; but by a compromise with the bondholders these bonds were taken up and cancelled, and adjusted by the issuance in lieu thereof what are known as Harrison County Compromise bonds. Of these there are \$118,500 outstanding. They are \$50 and \$100 bonds, dated April 11, 1881, due April 11, 1921, interest payable yearly in April. The State Comptroller pays the interest and sinking fund charges on them. COUNTY SEAT, Marshall.

Hill.—Organized May 14, 1859. Bonded debt in 1892 (latest returns) consisted of \$13,000 7 p. c. Jail bonds; \$11,000 6 p. c. Bridge bonds, and \$76,000 6 p. c. Court-house bonds—total of \$100,000. COUNTY SEAT, Hillsboro.

Indebtedness of Cities and Towns in the State of Texas.

Austin, Travis Co.—Incorp. city in 1839. Pop., 1890, 15,342; 1892 (after extension of the city's limits), 25,000. Ass'd val., 1893: R., \$3,184,297; P., \$2,697,693—total, \$10,881,930. Estimated actual value, 1898: \$21,763,860. Average tax rate per \$1,000, 1893, \$20.43½.

Statement of funded debt (total, \$1,087,000; annual interest charge, \$58,500), Jan. 1, 1894:

\$33,500 Funding 10s, due Jan. 1, 1894, int. J. & J.
39,000 Funding 10s, due Jan. 1, 1895, int. J. & J.
12,500 Refunding 6s, 1881—1901, int. J. & J.

\$40,000 Refunding 6s, July 1, 1884—1904, int. J. & J.
962,000 Water and Light 5s, Aug. 1, 1890—1930, int. Jan., Apr., July & Oct.

Interest on the water and light bonds is payable at Nat. City Bk., New York, N. Y.; on all other issues at the office of S. M. Swenson & Sons, New York, N. Y., and at Austin, Tex. Bonds are all coupon; the 5s for \$1,000 each; all others, \$500 each. Of the above bonds \$125,000 were issued prior to 1890 to take up outstanding indebtedness, principally for street improvements, and \$962,000 for the construction of water and light system, which is approaching completion. Total authorized amount of water and light bonds, \$1,400,000. Besides the tax levied for interest and sinking fund on these bonds the entire revenues of the water and light system, when completed, are pledged for their payment. The water and light works will be owned and operated by the city for its benefit. For the first four issues no sinking fund is provided, and the interest is paid from the general revenue. For water and light bonds and the interest thereon a tax of ½ of 1 p. c. is to be collected annually, although the net income is in excess of the interest on the water bonds issue. The city charter provides that the sinking fund be invested in bonds of the United States, the State of Texas, and the City of Austin, and that the bonded debt shall be increased only by a special act of the Legislature, or by consent of two-thirds of the qualified voters who pay taxes on property in the city. Cash on hand, Jan. 1, 1894, \$40,326.27. There is no floating debt. No default ever made in payment of obligations. Authority, John McDonald, *Mayor*.

Federal Limitations and Provisions.—No Territory of the United States or any political or municipal corporation or subdivision of such Territory is permitted to subscribe to the capital stock or loan its credit to or in aid of any company, association, or corporation. Territories are prohibited from contracting debts except to meet casual deficits in the revenue, to pay the interest on the territorial debt, or in case of war, insurrection, etc. There is an exception, however, in case of loans for the erection of penal, charitable, and educational institutions, provided the aggregate indebtedness of the Territory is not thereby made to exceed one per cent. upon the assessed value of property. Municipal indebtedness, also, is limited in the aggregate to 4 per cent. upon the assessed valuation of the municipality.

Revenue account, year ending Sept. 30, 1893: Balance on hand, Oct. 1, 1892, \$1,102,958.21; receipts during the year, \$3,303,326.69—total, \$4,406,284.90. Disbursements, \$3,754,629.05. Balance on hand, Oct. 1, 1893, \$651,655.85. Funded debt outstanding consisted, Oct. 1, 1893, of \$6,390,786 3 p. c. 50-yr. Riddleberger bonds (Act of 1882) issued 1882, due July 1, 1932, Int. Jan. & July; and \$16,359,860 new bonds, Act of 1892 (details below)—total outstanding, \$22,690,646; and bonds issued under Act of Feb. 20, 1892, by Commissioners of Sinking Fund, \$392,367—total debt, Oct. 1, 1893, \$22,992,913.

The Riddleberger Act provided for the funding of all the outstanding bonds and interest thereon to and including July 1, 1882, in new 3 p. c. 10-50-yr. bonds at specified rates below par, varying from 47 to 31 on the different classes. This law was amended, and all bonds offered for funding after Jan. 1, 1885, were required to carry the coupon of July, 1885. The bonds are coupon or registered, and are interchangeable. Registered bonds are for \$100, \$500 and \$1,000. These Riddleberger bonds were the only part of the debt not disputed. They are subject to call at any time after July 1, 1900. Interest is payable in Richmond, Va.

Under date of May 12, 1890, the Virginia Bondholders' Committee entered into an agreement with the creditors of the State of Virginia for the deposit of the defaulted obligations of the State, looking to a settlement. Under this agreement, obligations were deposited (after deducting the West Virginia portion) to the amount of \$22,696,053.65. On Nov. 28, 1890, a "Plan and Proposition for the adjustment of the debt of Virginia" was formulated by the Bondholders' Committee and approved (and recommended for adoption to the holders of the bonds of Virginia who became parties to the Agreement of May 12, 1890) by the Advisory Board named in the said agreement. After negotiations with the Debt Commission of the State extending from April to Nov., 1891, a basis of settlement was agreed upon which was approved by the Advisory Board, Nov. 25, 1891, and by the English bondholders, by resolution at a general meeting held Dec. 18, 1891. This basis of settlement was adopted by the State of Virginia by Act of Assembly, approved Feb. 20, 1892. The settlement was made as of July 1, 1891, the State to issue \$19,000 of one hundred-year new bonds (bearing interest at the rate of 2 p. c. per annum for 10 years, and 3 p. c. per annum for the remaining 90 years) for every \$28,000 of old indebtedness surrendered. Pending the engraving of the bonds under the said Act, the Bondholders' Committee received a manuscript bond for the sum of \$16,359,860, and surrendered to the State the said securities deposited under the agreement of May 12, 1890, to the amount of \$22,696,053.65. Under date of May 5, 1890, the Commission of Distribution named in the Plan and Proposition of November 28, 1890, made its award of the securities to be received in settlement, to the several classes of creditors. The manuscript bond has been surrendered to the State for cancellation, and engraved bonds have been received by the Bondholders' Committee in exchange therefor, as follows, viz: 12,900 coup. bonds, \$1,000 each, Nos. 251 to 13,150 inclusive, \$12,900,000; 6,710 coup. bonds, \$250 each, Nos. 101 to 6,819 inclusive, \$3,355,500; 10 registered bonds, \$10,000 each, Nos. 1 to 10 inclusive, \$100,000; 4 pieces scrip, \$90 each, \$360—total, \$16,355,860.

The new bonds are dated July, 1891, due July, 1901, Int. payable Jan. and July 1; coupon bonds have no privilege of registration of principal only, but can be converted into registered bonds of \$10,000, \$5,000, \$1,000, \$500, \$100 upon presentation to the Commissioners of the Sinking Fund of the State of Virginia, Richmond, Virginia. The State duly paid the interest on the manuscript bond for the two years ending July 1, 1893.

The Legislature has recently passed an act, re-enacting the Funding Act of 1892, under the provisions of which all old Virginia bonds may now be bought in and funded into new bonds of 1891, on the same terms as those given for that act (see above), thus making coupon and registered bonds interchangeable. The Virginia State Sinking Fund Commission has been authorized by the Legislature to invest the surplus revenues from time to time in bonds of 1891 or Virginia 3 p. c. to the extent of \$100,000 per month.

West Virginia Certificates.—The State of Virginia, in the readjustment of its debt in 1871, put aside one-third, or \$15,239,370 funded certificates, as West Virginia's share. This obligation West Virginia repudiates, and the matter remains at present unadjusted.

Debt Limitation.—The only limitation of municipal indebtedness in this State is found in the local charters. In several cases the limitation is 20 per cent. of assessed valuation of the municipality.

The bonds were issued by the State for the purpose of funding the debt of the Territory.

Constitutional Limitations and Provisions.—The Constitution adopted in 1889 limits the debt of the State to \$400,000, "to meet casual deficits in the revenue or for expenses not provided for," except, in case of war, invasion, etc., when that limit may be exceeded. All other debts are prohibited unless authorized by law for some single work or object, to be distinctly specified, and the law must provide ways and means, exclusive of loans, for the payment of the interest as it falls due and to discharge the principal within 20 years; and no such law shall take effect until it shall, at a general election, have received a majority vote of the people cast in its favor. Neither the State nor any subdivision of it shall give or loan its credit to or in aid of any individual, association, or corporation, or become in any way interested in any company.

The section dealing directly with municipal indebtedness is given in full: "No county, city, town, school district, or other municipal corporation shall, for any purpose, become indebted in any manner to an amount exceeding 14 per centum of the taxable property in such county, city, town, school district, or other municipal corporation, without the assent of three-fifths of the voters therein, voting at an election to be held for that purpose, nor in any cases requiring such assent shall the total indebtedness at any time exceed 5 per centum of the value of taxable property therein, to be ascertained by the last assessment for State and county purposes previous to the incurring of such indebtedness, except that in incorporated cities the assessment shall be taken from the last assessment for city purposes; provided, that no part of the indebtedness allowed in this section shall be incurred for any purpose other than strictly county, city, town, school district, or other municipal purposes; provided, further, that any city or town, with such assent, may be allowed to become indebted to a larger amount, but not to exceed 5 per centum additional, for supplying such city or town with water, artificial light, and sewers, when the works for supplying such water, light, and sewers shall be owned and controlled by the municipality."

The provisions contained in city charter concerning indebtedness are as follows:

"Sec. 90.—The city may borrow money to be used for strictly municipal purposes, and may incur indebtedness in other ways for said purposes, but it shall not for any purpose become indebted in any manner to an amount exceeding one and one-half per centum of the taxable property in the city, without the assent of three-fifths of the voters in the city, voting at an election to be held for that purpose, nor in cases requiring such assent shall the total indebtedness of the city at any time exceed five per centum of the value of the taxable property in the city, to be ascertained by the last assessment made for city purposes; provided, that the city, with such assent, may become indebted in a larger amount, not exceeding five per centum additional, for the purpose of supplying the city and its inhabitants with water, artificial light, and sewers, when the works for supplying such water, light, and sewers are owned and controlled by the city.

"Sec. 91.—To secure any existing indebtedness of the city, or indebtedness about to be incurred, the city may, by ordinance, authorize the issuance of the bonds of the city therefor, and pledge the faith and property of the city for the payment of such bonds, and direct the time and manner of the payment of both principal and interest thereof, and may from time to time authorize the refunding of any indebtedness of the city. No bonds shall be sold until they have been advertised for sale at least thirty days preceding the day of sale, nor shall any bonds of the city be sold for less than par and accrued interest, or for a longer time than twenty years."

This city has never defaulted in payment of its obligations. S. C. Slaughter, *Comptroller*.

State Debt.—The State Constitution prohibits the creation of any debt, except in an emergency like invasion or rebellion. The State of Virginia, in the readjustment of its debt, set apart one-third, or \$16,203,371, as West Virginia's share. West Virginia claims that her share of the debt is a very much smaller sum, and so the matter remains unadjusted. Floating debt (latest returns) about \$100,000.

Bonded debt: The bonded debt of the State, created in 1861-63, for the purpose of carrying on the war for the maintenance of the Union, has now all been paid or converted into certificates of indebtedness to the trust funds. The amounts due the several trust funds on Dec. 31, 1892, were as follows: School fund, \$1,543,700; Normal School fund, \$515,700; University fund, \$111,000; University fund, \$60,600—total, \$2,251,000. These certificates are irredeemable and carry interest at 6 per cent. per annum, payable Jan. and July.

Constitutional Limitations and Provisions.—The debt-making power of the State is carefully safeguarded by the Constitution. The sections covering the subject—3, 4, 6, 7, 9 and 10 of Article 8—are given in full below:

SECTION 3. Credit of State, for what not given. The credit of the State shall never be given, or loaned in aid of any individual, association or corporation.

SECTION 4. Contracting debts. The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. Limitation on public debt. For the purpose of defraying extraordinary expenditures the State may contract public debts (but such debts shall never in the aggregate exceed one hundred thousand dollars). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each house, to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt; and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed nor the taxes be diminished until the principal and interest of such debt shall have been wholly paid.

SECTION 7. State may borrow money, when. The Legislature may also borrow money to repel invasion, suppress insurrection and defend the State in time of war, but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the payment of the debt thereby created.

SECTION 9. Evidence of debt. No scrip, certificate or other evidence of the State debt whatsoever shall be issued except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10. Internal improvements—avails of grants. The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works, but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to works of internal improvement, the State may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Municipal debts are limited by the following amendment, adopted in 1874: No county, city, town, village, school district or other municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district or other municipal corporation incurring any indebtedness as aforesaid, shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same.

Total special city indebtedness (after deducting bonds redeemed), Jan. 4, 1894, \$1,569,052.42. Less sinking fund on hand (cash and bonds), \$257,866.08—net special indebtedness, \$1,311,186.34. Total net indebtedness, \$1,939,763.16. The special indebtedness of the city is made up of bonds issued upon the "Ontario" plan of carrying on public improvements, and are recouped for by special assessments against the property benefited.

Interest on bonds marked thus (*) is payable at National Park Bank, New York City; on bonds marked (†) at Superior, Wis.; on all other issues at National Bank of the Republic, New York, N. Y.

The city charter (Sec. 92) provides that "moneys received for licenses of all kinds to pay all interest on outstanding indebtedness of the city for the ensuing year and 5 per cent. of the principal of such bonded indebtedness shall be set aside for that purpose and placed in a special fund on the first day of June in each year, and in case the whole amount of said moneys received from licenses is insufficient for this purpose, the balance required therefor shall be taken from the general fund;" and Sec. 234 provides that "any of the city general or improvement bonds may be substituted for any city sinking fund or funds or any part thereof in case the Common Council shall at any time by a three-fourths vote of all members elect to order this done."

City charter adopted Chapter 124, Laws of Wisconsin for 1891. Sec. 93—Charter provides that general bonds can be issued by city not to exceed 5 per cent. assessed valuation, less sinking fund. Sec. 132 provides that improvement bonds may be issued and property benefited to pay same, providing cost of improvement is not less than \$1 per foot front on each side of street. These bonds are not limited in amount. This city has never defaulted in payment of its obligations. Authority, J. A. Kelley, *Comptroller*.

Constitutional Limitations and Provisions.—The Constitution limits the debt of the State to one per cent. of the assessed value of taxable property, and no debt of any kind can be created without the consent of the people, except in case of war, insurrection, or rebellion. The loaning of the credit of the State, except for the necessary support of the poor, is strictly prohibited, and the State cannot become in any way interested in any corporation, nor can she, without the authority of a two-thirds vote of the people, engage in any work of internal improvement. Finally, it is provided that no bond or other evidence of State indebtedness is valid unless the same shall have indorsed thereon a certificate, signed by the Auditor and the Secretary of State, that it is issued in pursuance of law, and is within the debt limit.

With reference to municipal indebtedness, the constitution directs that: "No county in the State of Wyoming shall in any manner create any indebtedness exceeding 2 per centum of the assessed value of taxable property in such county, as shown by the last general assessment preceding; provided, however, that any county, city, town, village, or other subdivision thereof in the State of Wyoming may bond its public debt existing at the time of the adoption of this constitution in any sum not exceeding 4 per centum on the assessed value of taxable property in such county, city, town, village, or other subdivision, as shown by the last general assessment for taxation. No debt in excess of the taxes for the current year shall, in any manner, be created by any county or subdivision thereof, or any city, town, or village, or any subdivision thereof, or any subdivision of any county of the State of Wyoming shall in any manner create any indebtedness exceeding 2 per centum on the assessed value of the taxable property therein; provided, however, that any city, town, or village may be authorized to create any additional indebtedness, not exceeding 4 per centum on the assessed value of the taxable property therein, as shown, by the last preceding general assessment for purposes of building sewerage therein. Debts contracted for supplying water to such city or town are excepted from the operation of this section.

Total bonded debt, Dec. 31, 1893, \$49,573,844; tax certificates issued in anticipation of collection of taxes, \$3,400,000—total, \$52,973,844. Sinking fund: Cash and securities in sinking fund, Dec. 31, 1893, \$4,938,629. Short-term tax certificates for \$700,000 included in above item of \$3,400,000. Net city debt, Dec. 31, 1893, \$48,034,214. Brooklyn is responsible for nineteen-twentieths of Kings County's debt.

By Acts of the Legislature, approved early in 1894, the four county towns which, with the city of Brooklyn, formed the county of Kings, were annexed to that city, Flatbush (pop., 1890, 12,336) becoming the 29th Ward on April 28, 1894; Gravesend (pop., 1890, 6,937) becoming the 30th Ward on May 3, 1894; and New Utrecht (pop., 1890, 8,854) becoming the 31st Ward on July 1, 1894. The Act annexing Flatlands (pop., 1890, 4,675) will go into effect Jan. 1, 1896.

In all the Acts there is a provision to the effect that "The city of Brooklyn shall not be or become personally liable to pay any debt, liability, or obligation for the town, or of any part or body thereof, contracted or incurred prior to the time this Act shall take effect; nor shall any property within the limits of said city, as constituted prior to the passage of this Act, be taxed to pay any such debt, liability, or obligation. But the property in such town shall remain liable for the said debts," etc.

On July 14, 1894, the following statement of this city's finances was issued by the Comptroller: Gross debt, June 30, 1894, \$53,609,161. Deduct bonds redeemed (July 1, tax certificates, long term, \$256,000; Soldiers' and Sailors' Monument, \$15,000; certificates of indebtedness, Knickerbocker Ave. Sewer, \$29,000; Fourth Ave. Improvement, \$17,000; July 3, tax certificates, long term, \$4,000; July 6, ditto, \$40,000), \$361,000—net, \$53,278,161. Add permanent water loan, issued July 6, \$30,000—gross debt, \$53,278,161. Less: Sinking fund, June 30, 1894, \$5,330,763. Net city debt, July 14, 1894, \$47,947,478. Assessed valuation (not including county towns recently annexed), \$486,531,516. Water debt, included above, \$15,496,000.

Interest payable: On tax certificates, Jan. 1 and July 1, at Comptroller's office; on all other issues, Jan. 1 and July 1, at Nassau National Bank, Brooklyn, and City Treasurer's office. Authority, Hubert L. Smith, *Deputy Comptroller*.

Rail (steel), 60 lbs. The company also owns and controls the Sarnia, Chatham & Erie Ry., 7 m.; the Toledo, Canada Southern & Detroit Ry., 55.87 m.; the Michigan Midland & Canada Ry., 14.68 m.; the Toledo Belt Line, 3.05 m.; and the Canada Southern Bridge, 3.66 m. Total operated, 456.17 m.; total track, 765.54 miles. This mileage does not include 15 m. of the London & Port Stanley Ry. (from St. Thomas to London) over which the company has trackage rights. Chartered in Canada Feb. 28, 1868; entire line opened Nov. 15, 1873. Shortly after completion the company defaulted on bond interest, and in 1878, under authority of a special act of Parliament, the old bonds were exchanged for new bonds. An agreement with the Mich. Cent. R.R. Co., to run for 21 years, from Jan. 1, 1883, provides for the operation of this company's roads, in connection with the M. C. R.R. Co.'s lines, the gross earnings of the whole system to be applied first to the payment of the operating expenses and fixed charges of both companies, and the net surplus to be then divided in the proportion of two-thirds to the M. C. and one-third to this company; the proportion being subject to readjustment at the end of the fifth, tenth, and fifteenth years. For the five years beginning Jan. 1, 1893, the M. C. takes 60 p. c. and the C. S. 40 p. c. of the first \$1,000,000 of net surplus, and any excess above that amount is to be divided in the proportion of two-thirds to the M. C. and one-third to the C. S. The Leamington & St. Clair R.R. is leased for 15 years from Mar. 1, 1889, at a rental of \$6,000 per annum for the first 5 years, \$6,600 per annum for the second 5 years, and \$7,200 per annum for the third 5 years; but this company has the option of purchasing the road and property at any time during the fifteen years for the sum of \$135,000 or its equivalent in bonds acceptable to the lessor. The Erie & Niagara Ry. was absorbed by consolidation in July, 1893.

GEORGIA RR. BANK.—The Georgia R.R. & Banking Co. has no longer a banking department, for reasons stated in the following extract from an official circular, dated Dec. 31, 1892:

"To escape this burden of nearly \$40,000 taxes per annum, imposed upon it on account of its anomalous character, the Georgia R.R. & B. Co. determined to discontinue its banking business. Not being willing, however, to deprive the business community of banking facilities which it had enjoyed through this old company for nearly sixty years, it has availed itself of a provision in its charter which authorizes it to invest in the stock of any chartered bank of the State capital or profits not needed for its railroad business and has subscribed and paid for a majority of the shares of a new bank named 'Georgia R.R. Bank,' chartered under the general banking law of the State. This new bank, while legally distinct from the Georgia R.R. and B. Co. is mainly owned by the latter company, which, the majority stockholder, will control and direct its administration and, as far as it can legally do so, will foster its prosperity." This new bank opened for business Jan. 1, 1893.

KANSAS CITY, MEMPHIS AND BIRMINGHAM RY.—The plan of organization, dated Nov. 23, 1893, referred to on page 482, provides for the issue of \$4,500,000 40-yr. bonds, dated Mar. 1, 1894, bearing interest at 2 p. c. first year, 3 p. c. second, and 4 p. c. thereafter, and \$7,600,000 5 p. c. non-cumulative income bonds, dated Mar. 1, 1894. The holders of old 1sts, overdue coupons, and coupon extension notes, including 1st mtge. coupon due Mar. 1, 1894, will receive 40 p. c. face value of such securities in new bonds at par, and 60 p. c. in incomes, so that the holder of each present \$1,000 1st mtge. bond will receive a new mortgage bond (or bond scrip) to the amount of \$400, and \$800 of the new 5 p. c. income bonds (or bond scrip), being \$1,200 in the new securities for \$1,000 surrendered, and the holders of coupon notes and overdue coupons, including the coupons coming due Mar. 1, 1894, upon the present 1st mtge. bonds, will be treated in the same way. When the above exchanges are completed there will remain in the hands of the company \$1,330,000 of the new mortgage bonds and \$659,360 of the incomes to be used only for the purpose of retiring the outstanding equipment bonds or, so far as they are not required for that purpose, for improvement of the mortgaged property. Under this scheme, the annual fixed charge for the mortgage bonds proposed to be issued will be only \$63,406.40 for the first year, \$95,109.60 for the second year, and \$126,812.80 thereafter, which, added to \$71,340, the annual interest on the equipment bonds, would amount to \$134,746.40 for the first year, \$166,449.60 for the second year, and \$198,152.80 thereafter. It is unofficially reported that over 90 p. c. of the old 1sts have assented to the foregoing plan.

The amount of consols authorized and issued is \$5,000,000. At the time of creation of the mortgage \$3,000,000 bonds were reserved for retiring sectional mortgage and equipment bonds and for other lawful purposes, while the remainder of the bonds have since been issued on 168.06 m. of new road at the rate of \$12,000 p. m. The authorized issue of the extension and improvement sinking fund bonds is \$5,000,000. The mortgage under which these bonds were issued covers the whole road and branches constructed at date of issue, Feb. 1, 1889, but is subject to prior mortgages. The sinking fund commences on Aug. 1, 1893, and will receive yearly a sum equal to 1 p. c. of the bonds issued, but not less than \$25,000; bonds to be purchased if possible at 110, but if not obtainable at that price the sinking fund to be invested. The bonds are for \$1,000 each, and are coupon, with privilege of registration. Trustees, Central Trust Co., New York, N. Y. NEW YORK AND NEW ENGLAND RR.—The plan of reorganization of this company, formulated in April, 1894, provides for a new company with the following capitalization: (a) \$17,500,000 5 p. c. 50-year \$1,000 gold bonds; (b), \$5,000,000 5 p. c. non-cumulative preferred stock, and (c) \$20,000,000 common stock. The following is the proposed distribution of the new securities: (1) Of the new 5s \$10,000,000 will be reserved to exchange for or retire present 1sts, but the committee may in their discretion extend the old 1sts at a lower rate of interest, or take up the same or any part of them, using for the purpose the new 5 p. c. bonds, or cash, or both, or they may leave them undisturbed. (2) Holders of 2ds will receive for each bond and interest to Aug. 1, 1894, \$424 in cash (being 40 p. c. of the amount due thereon Aug. 1, 1894) and \$675 in new 5s at par. (3) Terminal bonds will be left undisturbed. (4) Each holder of old preferred stock who contributes \$25 per share thereon will receive in exchange therefor \$125 per share in new preferred stock. (5) Each holder of old common stock who pays thereon the sum of \$20 per share will receive in exchange new common stock, share for share. After the above exchanges have been made there will remain, available for purposes of the reorganization and for payment or reduction of the company's debts or obligations, and for additions or betterments to the property, \$4,125,600 new 5s and \$230,000 new preferred stock.

"Equipment bonds or notes, mortgage and contract liabilities, and other debts or claims against the company, are to be paid, purchased, settled, compromised or left undisturbed, as the committee in their discretion deem advisable. The committee is given full power to readjust the terms of the leases and trackage contracts held by the R.R. Co., and deal with the same and the railroads operated thereunder, and the securities representing the same, as the best interests of the parties to the reorganization seem to them to demand."

Real estate mortgages, 6 p. c.....	322,375

The authorized issue of the 1st mtge. 4 p. c. gold bonds is \$10,000,000, of which \$300,000 are specifically reserved to take up the divisional bonds, and the balance is reserved by the company for equipments, betterments, etc. These bonds are of the denomination of \$1,000 each, in coupon form, with privilege of registration of principal, and are secured by a mortgage bearing date of July 1, 1887, made to the Mercantile Trust Co., as trustee, covering all the railways, real estate, terminal facilities, leases, equipment, and other property now owned or hereafter acquired by the railway company. There have also been deposited with the trustee of said mortgage, as part security therefor, the \$375,000 of the capital stock and \$150,000 bonds of the Trumbull and Mahoning RR. (being part of the \$500,000 stock and \$250,000 bonds referred to above), same having been issued in payment for lands at Youngstown, deeded to the latter company by the Pittsburgh and Western Ry. Co.

The first issue of bonds under the 2d mtge. (authorized issue, \$3,500,000) was for \$2,000,000, made July 1, 1891. Of this amount \$1,620,000 were issued in paying off the entire floating debt of the company; \$120,000 in payment for equipment, and the remaining \$260,000 were used in rebuilding and straightening the line, reducing grades, etc. On Oct. 14, 1892, \$1,500,000 additional were issued, of which \$900,000 were used in double-tracking the line, \$431,000 in payment of car trusts, and the remainder of the issue in providing funds to make improvements on terminal properties. The mortgage securing these bonds is a first lien on large and valuable terminals in Youngstown and on a double-track road under construction to avoid delay caused by the numerous grade crossings in and about Youngstown. This new line crosses the Mahoning River at Hazleton, O., and follows the south bank of the river for 12 miles, recrossing the river at Niles, O. The mortgage is also further secured by deposits with the Mercantile Trust Co., the trustee of all the common and two-thirds of the preferred stock of the Pittsburgh, Painesville and Fairport Ry. Co., and is a second lien on all the property of the company.

During the past fiscal year the common stock was increased \$1,500,000 for the purchase of \$900,000 stock of the Pittsburgh, Painesville and Fairport Ry. Co., \$1,200,000 (of the \$1,500,000) stock of the Allegheny and Lawrence RR. Co. (see page 1347), and on June 30, 1893, the capital stock consisted of \$7,980,000 common stock and \$5,000,000 5 p. c. non-cumulative preferred stock, all in \$50 shares. Annual meeting, 1st Monday in May. Interest payable in Pittsburgh and at office of Drexel, Morgan & Co., New York. Bonds registered at office of Drexel, Morgan & Co., New York, N. Y. ST. LOUIS, ALTON AND TERRE HAUTE RR.—Provision has been made for an issue of \$2,500,000 bonds to pay off maturing indebtedness and refund and readjust various securities of the company. The plan is to convert the preferred stock into common, holders to receive arrears of accrued dividends in cash, and as an equivalent for surrender of preferential rights, 110 p. c. in C., C. & St. L. Ry. Co., St. Louis Div., 4 p. c. gold bonds, or an equivalent of value to be hereafter agreed upon; also to retire the dividend bonds by issuing in exchange for them an equal amount of C., C. & St. L. Ry. Co., St. L. Div., 4 p. c. gold bonds or an equivalent of value to be hereafter agreed upon. The issue of the C., C. & St. L. bonds is in either case subject to an option of purchase held by certain bankers; and a satisfactory equivalent in cash or securities may be substituted for them by mutual agreement. By this plan the securities on the road will be reduced to two classes—\$2,500,000 bonds and \$3,470,800 capital stock.

+ The Cincinnati, Dayton and Eastern never owned any road. In October, 1866, it took a lease of the Sandusky and Cincinnati R.R., but the lease was surrendered by mutual agreement in January, 1868; and in the same month the name of the Sandusky and Cincinnati was changed to Cincinnati, Sandusky and Cleveland R.R. Co.

Of the excellence and completeness of the work the publishers present the following testimonial :

"The undersigned, having carefully examined the work recently published by Mr. HENRY V. POOR upon the subject of MONEY, hereby express their conviction that he has unfolded its NATURE and LAWS with an amplitude and clearness which have all the force of demonstration. His assumption of treating money as a subject coming within the range of the exact sciences has been well sustained. The application of the principles laid down in the first part of his work cannot fail to restore order in the place of the chaos of opinion which now prevails, and to point out, unmistakably, the conditions necessary to a restoration of the currency of the country to the standard of coin. We commend the work to the public as an able, scholarly, painstaking, and exhaustive treatise upon a subject in which is involved, more than in any other now engaging their attention, the welfare of the people of the United States."

POOR'S BUREAU

OF

Information and Investigation,

Conducted in connection with and as an adjunct to

Poor's Manual of Railroads,

WILL FURNISH UPON ORDER

Detailed information relative to new or projected Railroads,

Analyses of Railroad and other reports,

Statistics of Steam, Electric, Cable and Horse Railways,

Advance information relative to Railroad reports, etc.; or will make

Full and comprehensive investigations into Railroad mortgages, bonds, leases or other contracts.

In a word, we propose to furnish information of any character coming within the scope of this Bureau, but not contained in or within the province of our three annual publications, viz.:

POOR'S MANUAL OF RAILROADS,

POOR'S HAND-BOOK ON INVESTMENT SECURITIES,

POOR'S DIRECTORY OF RAILWAY OFFICIALS and

MANUAL OF AMERICAN STREET RAILWAYS.

Subscribers to any of the above-named works may address their inquiries to us, and a prompt reply will be mailed at a cost based upon the length of time occupied on the work.

Special attention will be given to the preparation of Historical Statements of existing or defunct corporations; to investigations into the value of old railroad bonds, and to the preparation of statistical exhibits designed to show the value of railroad securities. Besides this, investigations will be made at any time through official channels into the status of new projects, and reports made thereon. Proceedings in foreclosure or reorganization will be carefully followed, and all facts relating to such proceedings noted for reference.

It is believed that the establishment of this Bureau will prove of great benefit to the subscribers for our annual publications, as it will enable them at a nominal cost to avail of our unequalled facilities for the collection of news items relative to Railroad Investments or projects, besides securing the privilege of access to our Library, which contains all reports and documents issued during the past *half century*.

Annual subscribers to this Bureau may call for whatever information they desire during the period of their subscription. Terms upon application. Address

JOHN P. MEANY, Manager,

44 Broad Street, New York, N. Y.

 Special Track Work for Street Railways.

Patentees of the CAST-IN Process.

American Tool and Machine Co.

84 KINGSTON STREET, BOSTON, MASS.

Manufacturers of the following Specialties:

Patent Improved Worrall Friction Clutch, Couplings, and Pulleys; Patent
 Improved Belt Tighteners and Belt Removers; Shafting, Pulleys, and
 Hangers; Brass Finishers Turret Lathes, with all Modern Improvements;
 Improved Roper Centrifugal Oil-Separator, etc.

LANE'S PATENT STEEL BARN DOOR HANGERS,

"O. N. T." Track for Same.

Adopted by U.S. War Department.

In a recent letter from the United States War Department, Washington, D. C., asking some questions as to details, this passage occurs:—"We are using these Hangers (the Lane) on coal sheds, store houses, stables, etc., at the different Military Posts." The Lane Hangers were adopted by the United States Government without our knowledge and of course without solicitation.

No better proof of superiority can be asked.

The Lane was the first Steel Anti-friction Door Hanger placed upon the market, and to-day stands as the original and best. It is more widely known than any other, being used in all the States and Territories. Its growing popularity and universal adoption are the best evidence of superiority. Hangers in great variety and adapted to any requirement.

BONZANO & CLARKE,

Consulting and Contracting Engineers,

44 BROADWAY.

The undersigned ADOLPHUS BONZANO, late Vice-President and Chief Engineer of the Phoenix Bridge Co., and THOMAS C. CLARKE, late of Clarke, Reeves & Co., and of the Union Bridge Co., have associated themselves as Engineers and Contractors for Bridges, Viaducts, Elevated Railways, Buildings, and other structures of steel and iron, and foundations of all kinds.

We have associated ourselves for Superstructure with the Union Bridge Co., of N. Y., whose large bridge works at Athens, Pa., are recognized as among the best in the country, and also with the well-known corporation of SooySmith & Company, of N. Y., for putting in deep and difficult foundations, subways, etc.

This combination enables us to design and execute all structures, with their foundations, in the most substantial manner known to modern practice, and in the quickest possible time.

Address BONZANO and CLARKE, 44 Broadway, New York. We are,

Very truly,

ADOLPHUS BONZANO,
THOMAS C. CLARKE.

The Travelers' Official Guide

OF THE

RAILWAY AND STEAM NAVIGATION LINES

OF THE U. S., CANADA, AND MEXICO.

The Standard Reference Book used by all railway officials for business transacted between the several companies. The Lists of Officers and other information are corrected up to the date of each monthly issue.

The Time Tables published in its columns are compiled directly from the Official Time Tables which are used by the employes, and from information furnished by the Officers in charge of Time Table Department of the several roads.

It contains, in addition to the Lists of Officers and their addresses, which are published at the head of the Time Tables, an Official List of the Officers in charge of General Ticket Department, with the names of the parties to whom remittances and on whom drafts for the settlement of such accounts should be made; the Official List of Designating Numbers assigned to the several transportation lines and used by the Passenger and Accounting Departments; an Official List of Purchasing Agents, with their addresses; an Official List of Officers in charge of Car Service Accounts, by whom reports are made, to whom reports should be sent, and upon whom drafts should be drawn; a list of Railway Commissions of the various States, Traffic Associations, their Officers, etc.; also a table showing the Milcage of each road.

The standard of time by which each road is run is noticed at the head of each table, and, in addition to this, a page is devoted to a table of the names of the roads running by the several standards. Upon the front page of the cover of the OFFICIAL GUIDE is a diagram showing the standards of time in use in the principal cities.

A large number of fine Sectional Maps, showing the lines of the several roads, embellish the pages of the book. Also a new dissected map, corrected to date, covering the whole United States, Canada, and Mexico (north of Vera Cruz). A full list of all names by which the various railroads in the country have formerly been known, with their present official titles, is also a feature. The gauge of each road is shown. Morning trains are distinguished from afternoon trains by varying the style of type.

For sale at all prominent News-stands and on Railway Trains.

Subscription Price, \$5.00 per annum. Single Copies, 50 Cents.

The Fourteenth Annual Edition

— OF THE —

NATIONAL CAR AND LOCOMOTIVE BUILDER

“SUPPLEMENT,”

Containing complete directories of the Car and Locomotive Builders, Car Axle, Wheel and Spring Manufacturers and Rail Mills in the United States,

Complete directories of the STREET RAILWAYS (Electric, Cable or Horse) in the United States and Canada—their Gauge, Weight of Rail, Mileage, Number of Cars and Horses, Officers' Names and Addresses,

ALSO CIRCULARS OR ADVERTISEMENTS OF THE LEADING MANUFACTURERS OF RAILWAY MATERIAL,
IS NOW BEING PREPARED

and will be distributed *gratuitously* to every Company whose name appears in it.

Also to every Railway Official who has anything to say about using or purchasing material for Steam, Cable, Electric or Horse Railways.

It is published for the purpose of forming an **ILLUSTRATED CATALOGUE** [properly indexed] of the Manufacturers of Railway Material, and it is the intention of the publisher that one or more copies of it shall be in the office of the officers in charge of the Rolling Stock, Track, and Purchasing Departments of all Railroads [Steam, Cable, Electric or Horse] in the United States, so that they may find the addresses of those from whom they may wish to purchase material.

That it is a good advertising medium is proved by the fact that a large number of those now advertising in it are taking much larger spaces than they commenced with.

RATES FOR ADVERTISING.

THE ENGINEERING AND MINING JOURNAL

OF NEW YORK.

THE Most Influential and Most Widely Circulated Mining and Metallurgical Paper, and, in these lines, undeniably the

**BEST ADVERTISING MEDIUM
IN THE WORLD.**

The technical information it gives, its financial market reports, and its fearless and impartial criticisms of things calculated to injure legitimate mining investments have gained for it the admiration and confidence of the entire mining industry.

The Coming Joint for Steam Railroads,

ELECTRIC AND CABLE STREET RAILWAYS.

In Successful Use on 56 Roads.

It has the fewest possible parts, as the base support is an integral part of the joint and is 50 per cent. stronger than the angle bar, and holds the track in perfect surface. It has been in track over four years (where angle bars formerly had to be replaced every month) and shows no sign of giving out. It is rolled of best quality steel.

THE WEBER JOINT

Permanently maintains surface and alignment, embodies all the advantages of a tie plate and nut lock with perfect spiking opportunities, and, since no part of the joint is below the tie surface, makes it possible to lay either supported or suspended.

The wood filler is incased in the outside channel and shoe angle, and, being made a trifle too large, is squeezed into position, keeping all the parts tight, and reduces the noise to a minimum.

OUR STEP OR COMPROMISE JOINT

Is made on the same principle, and has the same advantages as our Standard, and will perfectly unite rails no matter how great their difference in height and shape may be.

LAPHAM'S RIVAL FOUNTAIN PEN

Patented January 24, 1888.

We can furnish thousands of testimonials substantiating our claims of the superiority of this pen for "ready flow," "perfect action," and "control of ink." Only the best quality of gold pens are used. We sell it on its merits, and will *refund the purchase money* in every case where it does not give satisfaction.

Prices are from \$2.00 to \$5.00, according to size and style of finish. *Special figures* to banks and railroad offices. Send for circulars.

THE AMERICAN IMPROVED ANTI-FRICTION METAL CO.

MANUFACTURERS of the best metal for journal bearings of any kind—especially for Steamships, Railroad and Street Cars, Sugar Mills, Rolling Mills, Saw Mills, etc. Especially adapted to high speed journals. This metal is warranted not to HEAT OR CUT the journals, and its lasting qualities make it superior to any other metal. Its excellence makes it the most economical metal.

It is Self Lubricating.

It is tougher and more durable than all other metals.

It is the best metal known where great pressure is required.

It runs with less friction than any other metal.

It will stand the highest rate of speed and will not heat or cut.

In general use everywhere and gives universal satisfaction.

POOR'S BUREAU

OF

Information and Investigation,

Conducted in connection with and as an adjunct to

Poor's Manual of Railroads,

WILL FURNISH UPON ORDER

Detailed information relative to new or projected Railroads,

Analyses of Railroad and other reports,

Statistics of Steam, Electric, Cable and Horse Railways,

Advance information relative to Railroad reports, etc.; or will make

Full and comprehensive investigations into Railroad mortgages, bonds, leases or other contracts.

In a word, we propose to furnish information of any character coming within the scope of this Bureau, but not contained in or within the province of our three annual publications, viz.:

POOR'S MANUAL OF RAILROADS,

POOR'S HAND-BOOK ON INVESTMENT SECURITIES,

POOR'S DIRECTORY OF RAILWAY OFFICIALS and

MANUAL OF AMERICAN STREET RAILWAYS.

Subscribers to any of the above-named works may address their inquiries to us, and a prompt reply will be mailed at a cost based upon the length of time occupied on the work.

Special attention will be given to the preparation of Historical Statements of existing or defunct corporations; to investigations into the value of old railroad bonds, and to the preparation of statistical exhibits designed to show the value of railroad securities. Besides this, investigations will be made at any time through official channels into the status of new projects, and reports made thereon. Proceedings in foreclosure or reorganization will be carefully followed, and all facts relating to such proceedings noted for reference.

It is believed that the establishment of this Bureau will prove of great benefit to the subscribers for our annual publications, as it will enable them at a nominal cost to avail of our unequalled facilities for the collection of news items relative to Railroad Investments or projects, besides securing the privilege of access to our Library, which contains all reports and documents issued during the past *half century*.

Annual subscribers to this Bureau may call for whatever information they desire during the period of their subscription. Terms upon application. Address

Money and its Laws: <

Embracing a History of Monetary Theories
and a History of the Currencies of the United
States.

By **HENRY V. POOR.**

Published by H. V. & H. W. POOR,
44 Broad St., New York.

1 vol., royal 8vo, cloth, pp. xl., 623. PRICE, \$5.00.

Sent, free of postage, upon receipt of price, by the publishers, and for sale by all booksellers.

Of the excellence and completeness of the work the publishers present the following testimonial:

"The undersigned, having carefully examined the work recently published by Mr. HENRY V. POOR upon the subject of MONEY, hereby express their conviction that he has unfolded its NATURE and LAWS with an amplitude and clearness which have all the force of demonstration. His assumption of treating money as a subject coming within the range of the exact sciences has been well sustained. The application of the principles laid down in the first part of his work cannot fail to restore order in the place of the chaos of opinion which now prevails, and to point out, unmistakably, the conditions necessary to a restoration of the currency of the country to the standard of coin. We commend the work to the public as an able, scholarly, painstaking, and exhaustive treatise upon a subject in which is involved, more than in any other now engaging their attention, the welfare of the people of the United States."

IMPORTANT to RAILROAD MANAGERS and MASTER MECHANICS.

Sibley's Perfection Valve and Signal Oils.

We make an exclusive specialty of Valve and Signal Oils for Railroad use.

In the use of Sibley's Perfection Valve Oil the most perfect lubrication is insured, and an entire freedom from corrosion, honeycombing of cylinders, and destruction of steam chests by fatty acids is guaranteed.

Sibley's Perfection Valve Oil is in exclusive use upon more than two-thirds of the railway mileage of America.

Sibley's Perfection Signal Oil is also in exclusive use upon many of the leading railways of this country, and although this oil has been in use for more than twenty years, and its consumption has exceeded that of all other signal oils combined, there has never been an accident involving a single life or a dollar's worth of property that was due to its failure to do all that was expected of it.

References furnished upon application.

Chicago Branch Office, Phoenix Building, 138 Jackson Street.

GALENA OILS

Are in exclusive use on a large majority of the leading railways of this country. Galena Oils run the fastest trains without the aid of other compounds and are the standard railway lubricants of America; cold test 10 to 15 degrees below zero. Free from gum; adapted to all climates and temperatures.

Galena Oils lubricate the Empire State and Exposition Flyer, the fastest trains of the New York Central Railroad; the Thunderbolt and all the fast trains of the Erie System; Nancy Hanks of the Georgia Central, and all the lightning trains of the great railway systems running out of Chicago to the West, Northwest, and Southwest. Nothing but Galena Oil was used when the New York Central beat the world's record, and all the way from New York to Chicago the bearings and machinery were as cool as when the train pulled out of the depot in New York.

Represented by **THOMAS PROSSER & SON.**

These Works cover an area of 1200 acres, employ about 18,000 men, have the most improved plant, and stand unique, from the fact that they have their own Ore and Coal Mines, Blast Furnaces, etc., and that every stage of manufacture is under their own supervision, and are not (like others) dependent on the open market for a miscellaneous assortment of crude material; which, in connection with 75 years' experience, enables them to turn out a product of a very superior quality, second to none, and at the same time the different grades of Steel are always of the same uniform quality.

Locomotive Tires, Steel-Tired Wheels, Crank-Pins, Shafts,

AND

STEEL FORGINGS up to 70 TONS.

Steel of every description Forged, Rolled, etc., into any form or article desired.

After a test of over 32 years the "Krupp Tire" has proved itself to be the best in the market, and parties intending ordering Locomotives would do well to insert in their specifications that "Krupp Tires" be used on drivers, and thereby obtain an article which will give satisfaction.
